Religion And The Human Image:

Religion and the Human Image Carl A. Raschke, James A. Kirk, Mark C. Taylor, 1977 Religion and the Human Image traces major religious philosophies to show how each is a mirror of man It explores religion as a set of symbols of images which reveal various aspects of human life throughout history It shows how to interpret the clues that give significance to the human situation The book discusses how the human image is depicted in the religion of ancient Israel in early Christianity in classical Hinduism and Buddhism and in the traditional religious cultures of China and Japan It concludes with two strong chapters that deal with the disintegration of traditional religious images under the impact of rapid social change and secularization during the past one hundred and fifty years the text concludes with an examination of recent trends in religion which seem to point toward the recovery of a new understanding of the human condition The material presents key traditions rather than covering everything about all religions although the introductory chapter summarizes and critically analyzes the various theories of religion in general It integrates the historical approach to religion with sociology psychology philosophy and theology Publisher *The Human Image of God* Hans-Georg Ziebertz, Friedrich Schweitzer, Hermann Häring, Don Browning, 2021-10-01 A new wave of religious energy is sweeping through the western nations Although God is disappearing from religious discourse in western culture both as a word and as a concept there is a definite undercurrent of religious ardour which is growing in strength It focuses all the more attention on the issue what or who is God in the modern era This is the question examined through systematic studies practical theology and empirical research that are presented here through anthropologically relevant theology Renowned international authors make it plain in this book the question of God is exciting again This book is published in honour of Johannes A van der Ven on the occasion of his 60th birthday Images of the Human Hunter Brown, Leonard A. Kennedy, 1995 Now available in paperback Images of the Human addresses the questions human beings have been asking for centuries Each chapter focuses on the writings of a different philosopher from Plato to Nietzsche St Augustine to Simone de Beauvoir As a distinctive feature commentaries explore the unique relationship between what philosophers say and what religion teaches **Religion and the Order of Nature** Seyyed Hossein Nasr, 1996-09-26 The current ecological crisis is a matter of urgent global concern with solutions being sought on many fronts In this book Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated if not actually caused by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the truth to which the great enduring religions all attest namely that nature is sacred Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans His goal is to negate the totalitarian claims of modern science and to re open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions Each tradition Nasr shows has a

wealth of knowledge and experience concerning the order of nature The resuscitation of this knowledge he argues would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth Marx, Durkheim, Weber Ken Morrison,2006-07-18 This Second Edition is a thoroughly revised expanded version of the bestselling student text in classical social theory Author Kenneth Morrison provides an authoritative accessible undergraduate guide to the three pivotal figures in the classical tradition Readable and stimulating the Second Edition of Marx Durkheim Weber Formations of Modern Social Thought explains the key ideas of these thinkers and situates them in their historical and philosophical contexts Religion in Human Affairs Clifford Kirkpatrick,1929 General History of the Christian Religion and Church August Neander,1871 **Religious Human Rights in Global Perspective** John Witte,Johan D. van der Vyver,2023-07-24 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion Religious Human Rights in Global Perspective Religious Perspectives are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University **Religious Human Rights in Global Perspective** John Witte Jr.,Johan D. van der Vyver,2023-12-11 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion Religious Human Rights in Global Perspective Religious Perspectives are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University **Dialogically Speaking** Kenneth Paul Kramer,2011-01-01 What makes us authentically human According to Maurice Friedman world renowned Martin Buber scholar translator and biographer it is genuine dialogue When there s a willingness for dialogue Friedman says then one must navigate moment by moment It s a listening process Friedman addresses our humanity in ever unique ways through his dialogue with philosophy literature religion and psychotherapy At least two things make this book new Friedman presents his wide ranging thought directly in five original essays forming an intertextual compass which is then elaborated upon by colleagues familiar with his work Second a special feature of this book is found at the end of each part which invites readers to engage with questions drawn from and pointing toward Friedman s writing The book s intended audience includes teachers scholars and students interested in dialogical approaches to any of the human sciences In a time when we are in danger of losing our human birthright Friedman s interdisciplinary insights point us again to the touch of the other *Religion and science, lectures* Joseph Le Conte,1874 *Religion, Human Rights, and the Workplace* Gregory Mose,2023-08-04 Religious freedom is a fundamental and relatively

uncontested right in both the United States and Europe But other values like equality justice and the right to a private life are just as precious Managing such conflicts has become a highly contested and politicized area of law and nowhere are such conflicts more evident or more challenging than those arising in the workplace By comparing United States Federal Courts approach to free exercise in the workplace with that of the European Court of Human Rights this book explores two very different methodologies for adjudicating rights conflicts In examining methods and results case by case issue by issue and addressing each step of the analytical processes taken by judges it becomes apparent that the United States has lost its way in the quest for equality and justice It is argued here that while the European approach has its own flaws its proportionality approach may offer vital lessons for United States practice The book will make compelling reading for researchers academics and policy makers working in the areas of law and religion human rights law constitutional law and comparative law The Philosophy of Religion George Trumbull Ladd,1905 Religion and the Inculturation of Human Rights in Ghana Abamfo Ofori Atiemo,2013-04-11 It has been maintained that the secular nature of modern human rights makes them incompatible with the religious orientation of African and non Western societies However in view of the resilience of religion in the global and local public sphere it is important to explore how religion can contribute to the promotion and enjoyment of human rights Based on fieldwork conducted in Ghana Abamfo Ofori Atiemo here establishes a convergence between human rights and local religious and cultural values in African societies He argues that human rights represent universal dream values This allows for a cultural embedding of human rights in Ghana and other non Western societies He argues that dream values are usually presented in religious language and proclaimed for example by prophets and seers or expressed in certain forms of taboo proverbs or legal norms He employs the concept of inculturation adaptation of the way Church teachings are presented to non Christian cultures as a hermeneutical tool for developing a model to understand the encounter between universal human rights and local cultures Offering a new model for explaining the relation between religion and human rights Religion and the Inculturation of Human Rights in Ghana offers a novel perspective on the links between global trends and local cultures underpinned by strong currents of religious ideas **Present Religion: as a Faith Owning Fellowship with Thought** Sara S. Hennell,1887 **Religion** Andy Ross,2024-07-30 Religion is the most influential cultural phenomenon in human history Whether a mystic agnostic or atheist every life has been shaped by the myths and rituals of religion The third volume of this theology for the here and now is a meditation on the religious process How does the experience of the transcendent change our lives Where do myth and ritual come from Where is religion going By contemplating these questions and more the reader will discover that the religious landscape is more significant now than ever before **Oriental Religions and Their Relation to Universal Religion: Persia** Samuel Johnson,1885 **Religion and Psychology** Diane Jonte-Pace,William B. Parsons,2002-09-26 Religion and Psychology is a thorough and incisive survey of the current relationship between religion and psychology from the leading scholars in the field This is an essential
