Religion And The Religions In The English Enlightenment:

'Religion' and the Religions in the English Enlightenment Peter Harrison, 2002-05-02 This study examines the changes which took place in the understanding of religion and the religions during the Enlightenment in England the period when the decisive break with Patristic Medieval and Renaissance notions of religion occurred Dr Harrison's view is that the principles of the English Enlightenment not only made a special contribution to our modern understanding of what religion is but they pioneered in addition the scientific or non religious approach to religious phenomena During this period a crisis of authority in the Church necessitated a rational enquiry into the various forms of Christianity and in addition into the claims of all religions This led to a concept of religion based on natural theology which could link together the apparently disparate religious beliefs and practices found in the empirical religions

Religion and Women in Britain, c. 1660-1760 Sarah Apetrei, 2016-04-08 The essays contained in this volume examine the particular religious experiences of women within a remarkably vibrant and formative era in British religious history Scholars from the disciplines of history literary studies and theology assess women's contributions to renewal change and reform and consider the ways in which women negotiated institutional and intellectual boundaries The focus on women's various religious roles and responses helps us to understand better a world of religious commitment which was not separate from but also not exclusively shaped by the political intellectual and ecclesiastical disputes of a clerical elite As well as deepening our understanding of both popular and elite religious cultures in this period and the links between them the volume re-focuses scholarly approaches to the history of gender and especially the history of feminism by setting the British writers often characterised as early feminists firmly in their theological and spiritual traditions

Krop Fred van Lieburg Jaap Nieuwstraten Joke Spaans Jetze Touber and Arthur Weststeijn **Modern Societies & the Science of Religions** Gerard Wiegers, 2018-11-13 This book brings together studies by seventeen specialists in the science of religions in which they relate the changes in their discipline to the changes which have occurred in a select number of modernising societies worldwide. It attempts to study these developments in their relation to and as conditioned and constrained by cultural change, changes in educational systems, technology, population, for example migration, economic patterns, politics, and last but not least religious systems. The essays focus on resp. France, Germany, the Netherlands, Spain, the USA, Turkey, Israel, Morocco, Saudi Arabia, South Africa, Indonesia, Japan, and China. Written in honour of Dr Lammert Leertouwer, professor of History of Religions and the Comparative Study of Religions at Leiden University from 1979 until his retirement in 1997, the book is particularly important for all those who are interested in the religious, social and political contexts of the academic Study of Religions in general and in the various countries dealt with in particular. Muhammad 'Abduh and His Interlocutors: Conceptualizing Religion in a Globalizing World Ammeke Kateman, 2019-01-04 In Muhammad 'Abduh and his Interlocutors: Conceptualizing Religion in a Globalizing World, Ammeke Kateman offers an account of Muhammad 'Abduh's Islamic Reformism in a context in which ideas increasingly crossed familiar geographical, religious and cultural frontiers. Presenting an alternative to the inadequate perspective of Westernization, Kateman situates the ideas of Muhammad 'Abduh, Egypt 1849-1905, on Islam and religion amongst those of his interlocutors within a global intellectual field. Ammeke Kateman's approach documents the surprising pluralism of 'Abduh's interlocutors, the diversity in their shared conceptualizations of religion, and the creativity of 'Abduh's own interpretation. In this way, the conceptualizations of 'Abduh and his contemporaries also shed light on the diversified global genealogy of the modern concept of religion. *The Routledge Companion to the Study of Religion* John R. Hinnells, 2005 The Routledge Companion to the Study of Religion contains everything a student needs for a full understanding of theory and methods in religious studies. It begins by explaining the most important methodological approaches to religion, including psychology, philosophy, anthropology, and comparative study, before moving on to explore a wide variety of critical issues. Written entirely by renowned international specialists and using clear and accessible language throughout, it is the perfect guide to the problems and questions found in courses and exams. The Emergence of the Science of Religion in the Netherlands Arie Molendijk, 2018-08-14 This book explores the emergence of the science of religion in the Netherlands in the second half of the nineteenth century. The emphasis is on processes of institutionalization, professionalization, and internationalization, on the one hand, and on contemporary discussions about method and conceptualization, on the other. **What is Religion?** Nigel Ajay Kumar, 2014-01-15 What Is Religion is one of those questions rarely asked by Christian theologians who engage in interreligious discourse. Nigel Ajay Kumar makes the case, however, that to answer this question is critical for Christian scholars who want to negotiate multiple religious identities, as well as for those who want a clearer understanding of their

own faith as religion Kumar takes a historical and theological approach to answering this question The history of the concept of religion is traced from biblical times to the Indian independence era Then a theological answer is offered not only by looking at the classical Indian theologian Pandipeddi Chenchiah but also by listening to other contemporary secular and theological voices This is the South Asian Edition of the original Wipf Stock edition 2013 with the same name **The Discipline of Religion** Russell T. McCutcheon,2003-12-08 The Discipline of Religion is a lively critical journey through religious studies today looking at its recent growth as an academic discipline and its contemporary political and social meanings Focusing on the differences between religious belief and academic religious discourse Russell T McCutcheon argues that the invention of religion as a discipline blurs the distinction between criticism and doctrine in its assertion of the relevance of faith as a credible object of study In the leap from disciplinary criticism to avowal of actual cosmic and moral meaning schools of religious studies extend their powers far beyond universities and into the everyday lives of those outside managing and curtailing specific types of speech and dissent **A Forgotten Christian Deist** Jan van den Berg,2021-07-22 This is a cultural and intellectual biography of a neglected but important figure Thomas Morgan 1671 2 1743 Educated at Bridgewater Academy he was active as Presbyterian preacher medical practitioner and one of the first who called himself a Christian Deist Morgan was not only a harbinger of the disparagement of the Old Testament but also a prolific pamphleteer about things religious and a publisher of medical books He received praise for his medical work but a negative press for his theological visions and he ended as a forgotten figure in history this book restores an overlooked writer to his due place in history It is the first modern biography of Morgan and its readership comprises historians of deism the enlightenment the eighteenth century theology and the church Presbyterianism and medical history **'Religion' and 'Secular' Categories in Sociology** Mitsutoshi Horii,2022-01-01 Informed by critical religion perspective in Religious Studies and postcolonial self reflection in Sociology this book interrogates the ideas of religion and the secular in social theory and Sociology It argues that as long as social theory and sociological discourse embed the religion secular distinction and locate themselves on the secular side of the binary Sociology will continue to serve the very ideologies it tries to subvert namely Western modernity coloniality
