Religion As A Human Capacity:

Religion as a Human Capacity Timothy Light, Brian C. Wilson, 2018-08-14 Prepared in honor of E Thomas Lawson the essays in Religion as a Human Capacity represent diverse points of view in the study of religion today Part I Theoretical Studies offers a broad range of cognitivist theoretical explorations while Part II Studies in Religious Behavior presents cutting edge applications of cognitive and other contemporary theories to religious data This volume celebrates Lawson's critical contributions to cognitive studies of religion and the degree to which his ultimate goal of scholarship as a search for truth is matched by those who have been his colleagues and been influenced by him Religion as a Human Capacity will be of interest to all those concerned with theory and method in the academic study of religion **The Oxford Handbook of the Study of Religion** Michael Stausberg, Steven Engler, 2016-11-17 The Oxford Handbook of the Study of Religion provides a comprehensive overview of the academic study of religion Written by an international team of leading scholars its fifty one chapters are divided thematically into seven sections The first section addresses five major conceptual aspects of research on religion Part two surveys eleven main frameworks of analysis interpretation and explanation of religion Reflecting recent turns in the humanities and social sciences part three considers eight forms of the expression of religion Part four provides a discussion of the ways societies and religions or religious organizations are shaped by different forms of allocation of resources Other chapters in this section consider law the media nature medicine politics science sports and tourism Part five reviews important developments distinctions and arguments for each of the selected topics The study of religion addresses religion as a historical phenomenon and part six looks at seven historical processes Religion is studied in various ways by many disciplines and this Handbook shows that the study of religion is an academic discipline in its own right The disciplinary profile of this volume is reflected in part seven which considers the history of the discipline and its relevance Each chapter in the Handbook references at least two different religions to provide fresh and innovative perspectives on key issues in the field This authoritative collection will advance the state of the discipline and is an invaluable reference for students and scholars **A Historical and Theoretical Guide to Studying Religion** Wesley Kort, 2024-01-16 This book a guide to studying religion has two parts The first or historical part traces the rise of the academic study of religion from the early nineteenth century to the present day Primary attention is given to the relation of studying religion to Romanticism and to its contrary relations to principal characteristics of Western modernity especially its rational and materialist emphases The second part of the book addresses matters that present uncertainties problems and even tensions within the field such as what is or should be meant by referring to some persons or groups as religious why religion is so often a cause of tensions and even conflicts both within and between religious groups and between them and the increasingly nonreligious or secular quality of modern Western culture and the problem that arises for the field by reason of scholars who on one side are themselves religious and who on the other side are nonreligious or secular The book places this final difficulty the difference

and often the tension between religious and nonreligious approaches to the study of religion in the role of a unifying theme of the book and offers a way by which this problem can be addressed and to a considerable degree reduced **Hermeneutical Approaches in Psychology of Religion**, 2025-02-10 Contemporary psychology is reviving with new vigor an interest in hermeneutics or the human science of interpretation After a period in which positivistic and statistical approaches have been dominant new methods are being explored Most of these focus on narrative cultural analysis embodiment and interdisciplinarity Because of its specific object of study psychology of religion has never been without an hermeneutical emphasis In this field of psychology scholarship these new directions are especially welcomed as they offer perspectives for research which attempts to interpret religion as a human phenomenon This volume presents hermeneutical psychological studies on religion which rely on both classical and contemporary approaches Dealing with topics like mysticism religious symbols life stories and mental health contributions to the volume draw on a variety of perspectives These range from psychoanalysis narrative psychology and feminism to perspectives drawn deep from the wellspring of interdisciplinary collaboration with anthropology and history The Psychology of Religion H. Newton Malony Mdiv PhD, 2015-05-04 The Psychology of Religion is alive and well as it has been for almost three quarters of a century since religion came off the psychological taboo list in the 1950s And much has been written and researched about the field during this passage of time Among those playing an active part has been H Newton Malony As a clinical psychologist as well as an ordained clergy person he has brought the informed perspective of both Christian theology and the social behavioral science to the psychology of religion This volume is a compilation of some of his reflections as he taught graduate students supervised research and engaged in psychotherapy in the years leading up to his retirement in 1996 *Religion as Orientation and Transformation* Jan-Olav Henriksen, 2017-05-12 Religions are not primarily expressed in people's heads and their thoughts but in what they do People use religious symbols in order to orientate or change themselves In this way religion is related to all realms of human life Jan Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life Book jacket **The Emergence of Religion in Human Evolution** Margaret Boone Rappaport, Christopher J. Corbally, 2019-12-09 Religious capacity is a highly elaborate neurocognitive human trait that has a solid evolutionary foundation This book uses a multidisciplinary approach to describe millions of years of biological innovations that eventually give rise to the modern trait and its varied expression in humanity's many religions The authors present a scientific model and a central thesis that the brain organs networks and capacities that allowed humans to survive physically also gave our species the ability to create theologies find sustenance in religious practice and use religion to support the social group Yet the trait of religious capacity remains non obligatory like reading and mathematics The individual can choose not to use it The approach relies on research findings in nine disciplines including the work of countless neuroscientists paleoneurologists archaeologists cognitive scientists and psychologists This is a cutting edge examination of the evolutionary origins of

humanity's interaction with the supernatural. It will be of keen interest to academics working in Religious Studies, Neuroscience, Cognitive Science, Anthropology, Evolutionary Biology, and Psychology.

How to do Comparative Religion? René Gothóni, 2012-02-14. Well-known scholars in the study of religions bring up to date and elucidate the discussion on the three most debated approaches in comparative religion: namely the hermeneutical approach, the explanatory or cognitivist approach, and the critical approach. The approaches and methods of studying religion are disputed in an outspoken and challenging way, critically and radically arguing pros and cons. This work is unique, unrivalled, and full of essential insights into the dialogue of today and of the challenges of tomorrow.

Ricoeur's Hermeneutics of Religion Brian Gregor, 2018-11-29. Religion was a constant theme throughout Paul Ricoeur's long career, and yet he never wrote a full-length treatment of the topic. In this important new book, Brian Gregor draws on the full scope of Ricoeur's writings to lay out the essential features of his philosophical interpretation of religion from his earliest to his last work. Ricoeur's central claim is that religion aims at the regeneration of human capability; in his words, the rebirth of the capable self. This book provides a rich thematic account of Ricoeur's hermeneutics of religion, showing how the theme of capability informs his changing interpretations of religion from his early work on French reflexive philosophy and the philosophy of the will to his late work on forgiveness, mourning, and living up to death. Gregor exhibits Ricoeur's original contribution to philosophical reflection on such themes as evil, suffering, and violence, as well as imagination, embodiment, and spiritual exercise. He also presents a critical reconsideration of Ricoeur's separation of philosophy from theology and his philosophical interpretation of Christian theological ideas of revelation, divine transcendence, and personhood, atonement, and eschatology. Additionally, Gregor provides an expansive look at Ricoeur's interlocutors, including Marcel Jaspers, Kant, Hegel, Levinas, and Girard. Theologically inclined readers will be particularly interested in the book's treatment of Karl Barth and the Protestant theology of the Word, which was a vital influence on Ricoeur. The result is a study of Ricoeur that is both sympathetic and critical, provocative and original, inviting the reader into a deeper engagement with Ricoeur's philosophical interpretation of religion.

The Pragmatics of Defining Religion Jan G. Platvoet, Arie Leendert Molendijk, 1999. The Pragmatics of Defining Religion is a multidisciplinary volume on the problem of the definition of religion, with chapters on the polemics of defining religion in modern contexts, the history of the concept of religion, the methodology of its definition, and it includes several definition proposals.

The Pragmatics of Defining Religion Platvoet, Arie Molendijk, 2018-11-13. This volume promotes a pragmatic, anti-essentialist, and anti-hegemonic approach to the problem of the definition of religion. It argues that definitions of religion are context-bound strategies for pursuing a variety of purposes, extra-academic as well as academic. Religions being immensely varied, complex, and multi-functional phenomena, they need to be studied by several academic disciplines from many different perspectives. It is therefore legitimate and useful that many definitions of religions are developed. The volume has contributions from scholars in Philosophy of Religion, the Comparative Study of Religions, Anthropology of Religion,

Sociology of Religion and Psychology of Religion It has chapters on the polemics of defining religion in modern contexts the history of the concept of religion and the methodology of its definition it includes several definition proposals The Routledge Companion to the Study of Religion John Hinnells,2005-06-21 Providing a genuinely full guide to the theory and methods related to religious studies this text written entirely by world renowned specialists is the ideal resource for those studying the discipline *The Routledge Companion to the Study of Religion* John R. Hinnells,2005 The Routledge Companion to the Study of Religion contains everything a student needs for a full understanding of theory and methods in religious studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues Written entirely by renowned international specialists and using clear and accessible language throughout it is the perfect guide to the problems and questions found in courses and exams *Hegel's Idea of the Good Life* Joshua D. Goldstein,2005-10-13 In *Hegel's Idea of the Good Life* Joshua D Goldstein presents the first book length study of the development and meaning of Hegel's account of human flourishing This volume will be welcomed by philosophers and political theorists seeking to engage with the details of Hegel's early and mature social thought By bringing Hegel's earliest writings into dialogue with his *Philosophy of Right* Goldstein argues that Hegel's mature political philosophy should be understood as a response to his youthful failure to build a sustainable account of the good life upon the foundations of ancient virtue This study reveals how Hegel's mature response integrates ancient concerns for the well ordered life and modern concerns for autonomy in a new robust conception of selfhood that can be actualized across the full expanse of the modern political community **Religion and Public Reason** Maureen Junker-Kenny,2014-04-02 This book compares three approaches to public reason and to the public space accorded to religions the liberal platform of an overlapping consensus proposed by John Rawls Jürgen Habermas's discourse ethical reformulation of Kant's universalism and its realization in the public sphere and the co-founding role which Paul Ricoeur attributes to the particular traditions that have shaped their cultures and the convictions of citizens The premises of their positions are analysed under four aspects 1 the normative framework which determines the specific function of public reason 2 their anthropologies and theories of action 3 the dimensions of social life and its concretization in a democratic political framework 4 the different views of religion that follow from these factors including their understanding of the status of metaphysical and religious truth claims and the role of religion as a practice and conviction in a pluralist society Recent receptions and critiques in English and German are brought into conversation philosophers and theologians discuss the scope of public reason and the task of translation from faith traditions as well as the role they might have in the diversity of world cultures for shaping a shared cosmopolitan horizon When Spinoza Met Marx Tracie Matysik,2023-01-23 Explores concepts that bring together the thinking of Spinoza and Marx Karl Marx was a fiery revolutionary theorist who heralded the imminent demise of capitalism while Spinoza was a contemplative philosopher who

preached rational understanding and voiced skepticism about open rebellion Spinoza criticized all teleological ideas as anthropomorphic fantasies while Marxism came to be associated expressly with teleological historical development Why then were socialists of the German nineteenth century consistently drawn to Spinoza as their philosophical guide Tracie Matysik shows how the metaphorical meeting of Spinoza and Marx arose out of an intellectual conundrum around the meaning of activity How is it exactly that humans can be fully determined creatures but also able to change their world To address this paradox many revolutionary theorists came to think of activity in the sense of Spinoza as relating Matysik follows these Spinozist socialist intellectual experiments as they unfolded across the nineteenth century drawing lessons from them that will be meaningful for the contemporary world **God and Globalization: Volume 3** Max L. Stackhouse, Peter J.

Paris, Diane Burdette Obenchain, 2001-12-01 These volumes examine both the promise and the threat of globalization using the tools of theological ethics to understand and evaluate the social contexts of life at the deepest moral and spiritual levels

In Search of Meaning Nossrat Peseschkian, MD, 2016-06-16 In Search of Meaning shows that individuals suffering from a loss of meaning cannot find what they are looking for in a global concept but rather must first take small steps to find the meaning behind single actions Revised edition International Academy for Positive and Transcultural Psychotherapy

Peseschkian Foundation Wiesbaden Germany Religion at Play Andre Droogers, 2015-03-26 Is a powerful position a guarantee that a religion will continue Does God take sides in religious power struggles Can God survive religious exclusivity and diversity Is God migrating from out there to in here Is religion sustainable in the long run In seeking answers to these questions this book explores the possibilities afforded by playful religion Religion has playful origins but this aspect is forgotten as soon as institutional power becomes self serving instead of subservient Power changes the very essence of religion Virtually all religions are distorted versions of a playful original Institutionalization is religion's curse not its blessing Apparent success hides the failure of religion to be faithful to its original intent This book helps find the way back from bordering to inclusivity and openness The Dialogical Imperative David Lochhead, 2012-01-30 What is dialogue What are

the goals of dialogue between faiths Are they attainable Are they compatible with Christian faith This important book addresses the issue of dialogue from a different even unique perspective as the relationships in social and historical context between faiths David Lochhead first differentiates between several ideological stances often categorized as simply exclusivity or inclusivity that have defined Christian attitudes toward other faiths He considers the sociological as well as theological dimensions of these stances concluding that a theology of interfaith dialogue must ultimately be grounded in a theology of the world Lochhead brings fresh insights to a reading of Barth on the theological significance of religion He argues that while generally considered otherwise Barth's view is not inherently hostile to interfaith dialogue Rather Barth poses questions of the utmost importance to reconciling dialogue with Christian faithfulness Based on this Lochhead proposes a stance of faithful agnosticism the refusal to make a priori valuations of other faiths as the attitude most conducive to constructive

interfaith relationships Exploring the notion of dialogue as a means to truth Lochhead then discusses Plato and Buber from the dialogical perspective and addresses the question of whether a doctrine of revelation must be universalized in order to permit interfaith dialogue After examining several views of the ultimate goals of dialogue as understanding as negotiation as integration or as activity Lochhead concludes by explicating the import of the dialogical imperative for Christian theology and mission A clear concise treatment of the nature and goals of interfaith dialogue The Dialogical Imperative affirms the dialogical approach from within the Reformed Protestant tradition

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Religion As A Human Capacity** . In a downloadable PDF format (Download in PDF: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.

Religion As A Human Capacity Introduction

In the digital age, access to information has become easier than ever before. The ability to download Religion As A Human Capacity has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Religion As A Human Capacity has opened up a world of possibilities. Downloading Religion As A Human Capacity provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Religion As A Human Capacity has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Religion As A Human Capacity. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Religion As A Human Capacity. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Religion As A Human Capacity, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Religion As A Human Capacity has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Religion As A Human Capacity Books

1. Where can I buy Religion As A Human Capacity books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
