Religion In Britain Since 1945 Believing Without Belonging:

Religion in Britain Since 1945 Grace Davie,1994-12-05 This important book describes as accurately as possible the religious situation of Great Britain at the end of the twentieth century and evaluates this evidence within a sociological framework

Believing Without Belonging? Vinod John,2020-11-19 This study examines an indigenous phenomenon of the Hindu devotees of Jesus Christ and their response to the gospel through an empirical case study conducted in Varanasi India It analyzes their religious beliefs and social belonging and addresses the ensuing questions from a historical theological and missiological perspective The data reveals that the respondents profess faith in Jesus Christ however most remain unbaptized and insist on their Hindu identity Hence a heuristic model for a contextualized baptism as Guru diksha is proposed The emergent church among Hindu devotees should be considered from the perspective of world Christianity as a disparate form of belonging while remaining within one's community of birth The insistence on a visible church and a distinct community of Christ's followers is contested because the devotees should construct their contextual ecclesiology since it is an indigenous discovery of the Christian faith Thus the Christian label for the adherents is dispensable while retaining their socio-ethnic Hindu identity Christian mission should discontinue extraction and assimilation instead missional praxis should be within the given sociocultural structures recognizing their idiosyncrasies as legitimate in God's eyes and in need of transformation like any human culture

Counting Religion in Britain, 1970-2020 Clive D. Field,2021-12-09 Counting Religion in Britain 1970-2020 the fourth volume in the author's chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by-product of modernization

Marxism, Mysticism and Modern Theory Suke Wolton,2016-07-27 Fashionable new theories tend to reject universal reason in favour of pluralism and locality Marxism Mysticism and Modern Theory examines some of these theories and argues that they are the mystified expression of the current political and economic impasse Today's relativistic outlook reveals a minimalist and atomized viewpoint a retreat from the goal of rational understanding Marxism Mysticism and Modern Theory sets out in this critique the case for developing a new humanism to extend rationality

The Experience of God Robyn Horner,2022-10-20 Boldly argues that divine revelation makes much more sense if it is thought in terms of experience rather than belief

Irish and British Reflections on Catholic Education Sean Whittle,2021-02-20 This volume presents an interdisciplinary and

systematic review of Catholic Education Studies across Ireland and Britain Taken together the chapters drill down to the foundations identity and leadership matters in Catholic education and schools It is in reading the complete volume that a more precise picture of Catholic education in Ireland and Britain develops into sharper focus This is important because it reflects and crystallises the complexity which has almost organically developed within the field of Catholic Education Studies It also provides a powerful antidote to the na ve reductionism that would boil Catholic education down to just one or two fundamental issues or principles Contemporary Catholic education perhaps globally but certainly in Ireland and Britain is best depicted in terms of being a colourful kaleidoscope of differing perspectives However this diversity is ultimately grounded in the underlying unity of purpose because each of the contributors to this volume is a committed advocate of Catholic education The volume brings together a rich range of scholars into one place so that these voices can be listened to as a whole It includes contributions from leading scholars blended with a plethora of other voices who are emerging to become the next generation of leading researchers in Catholic education It also introduces a number of newer voices to the academic context They present fresh perspectives and thinking about matters relating to Catholic education and each of them confidently stand alongside the other contributors Moreover these reflections on Catholic education are important fruits to have emerged from the collaboration made possible through the creation of the Network for Researchers in Catholic Education which was established in 2016 under the auspices of Heythrop College University of London

Woodhead, 2017-05-15 Prayer is a central aspect of religion Even amongst those who have abandoned organized religion levels of prayer remain high Yet the most basic questions remain unaddressed What exactly is prayer How does it vary Why do people pray and in what situations and settings Does prayer imply a god and if so what sort A Sociology of Prayer addresses these fundamental questions and opens up important new debates Drawing from religion sociology of religion anthropology and historical perspectives the contributors focus on prayer as a social as well as a personal matter and situate prayer in the conditions of complex late modern societies worldwide Presenting fresh empirical data in relation to original theorising the volume also examines the material aspects of prayer including the objects bodies symbols and spaces with which it may be integrally connected *Civil Society and the Family* Esther Muddiman, Sally Power, Chris Taylor, 2022-04-14 The relationship between the family and civil society has always been complex with the family often regarded as separate from or even oppositional to civil society Taking a fresh empirical approach Muddiman Power and Taylor reveal how such separation underestimates the important role the family plays in civil society Considering the impact of family events dinner table debates intergenerational transmission of virtues and the role of the mother this enlightening book draws on survey data from 1000 young people a sample of their parents and grandparents and extended family interviews to uncover how civil engagement activism and political participation are inherited and fostered within the home
