Religion Media And The Public Sphere:

Religion, Media, and the Public Sphere Birgit Meyer, Annelies Moors, 2005-12-01 one of those rare edited volumes that advances social thought as it provides substantive religious and media ethnography that is good to think with Dale Eickelman Dartmouth College Increasingly Pentecostal Buddhist Muslim Jewish Hindu and indigenous movements all over the world make use of a great variety of modern mass media both print and electronic Through religious booklets radio broadcasts cassette tapes television talk shows soap operas and documentary film these movements address multiple publics and offer alternative forms of belonging often in competition with the postcolonial nation state How have new practices of religious mediation transformed the public sphere How has the adoption of new media impinged on religious experiences and notions of religious authority Has neo liberalism engendered a blurring of the boundaries between religion and entertainment The vivid essays in this interdisciplinary volume combine rich empirical detail with theoretical reflection offering new perspectives on a variety of media genres and religions

Religion, Media, and Social Change Kennet Granholm, Marcus Moberg, Sofia Sjö, 2014-09-19 In an era of heightened globalization macro level transformations in the general socioeconomic and cultural makeup of modern societies have been studied in great depth Yet little attention has been paid to the growing influence of media and mass mediated popular culture on contemporary religious sensibilities life and practice Religion Media and Social Change explores the correlation between the study of religion media and popular culture and broader sociological theorizing on religious change Contributions devote serious attention to broadly defined media including technologies institutions and social and cultural environments as well as mass mediated popular culture such as film music television and computer games This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives approaches and discussions in the broader sociological study of religion

Religion, Media and Public Sphere Nilesh Kumar Singh, 2009-01-01 Religion Media And Public Sphere are all interrelated Religion is a belief that each and every person follows in one way or other according to their faith or ideal Whereas media have a strong social and cultural impact upon society It plays a crucial role in forming and reproducing the self image of society It possess ability to reach a wide audience with a strong and influential message Television Radio Print Media and now a days Internet these all are playing major role in formulating public opinion Both of them are in close relationship with public sphere The public sphere is the organized and conretized common space of agiven population Public sphere connect people who are not in the same families communities and clubs people who are not the same as each other Therefore this book deals with these subjects interrelationships in a wider context and will be helpful for all knowledge seeking admirers of this topic

Religion, Media, and Marginality in Modern Africa Felicitas Becker, Joel Cabrita, Marie Rodet, 2018-02-02 In recent years anthropologists historians and others have been drawn to study the profuse and creative usages of digital media by religious movements At the same time scholars of Christian Africa have

long been concerned with the history of textual culture the politics of Bible translation and the status of the vernacular in Christianity Students of Islam in Africa have similarly examined politics of knowledge the transmission of learning in written form and the influence of new media Until now however these arenas Christianity and Islam digital media and old media have been studied separately Religion Media and Marginality in Modern Africa is one of the first volumes to put new media and old media into significant conversation with one another and also offers a rare comparison between Christianity and Islam in Africa The contributors find many previously unacknowledged correspondences among different media and between the two faiths In the process they challenge the technological determinism the notion that certain types of media generate particular forms of religious expression that haunts many studies In evaluating how media usage and religious commitment intersect in the social cultural and political landscapes of modern Africa this collection will contribute to the development of new paradigms for media and religious studies Contributors Heike Behrend Andre Chappatte Maria Frahm Arp David Gordon Liz Gunner Bruce S Hall Sean Hanretta Jorg Haustein Katrien Pype and Asonzeh Ukah

Religion, Media and Culture: A Reader Gordon Lynch, Jolyon Mitchell, Anna Strhan, 2012-02-13 This Reader brings together a selection of key writings to explore the relationship between religion media and cultures of everyday life It provides an overview of the main debates and developments in this growing field focusing on four major themes Religion spirituality and consumer culture Media and the transformation of religion The sacred senses visual material and audio culture Religion and the ethics of media and culture This collection is an invaluable resource for students academics and researchers wanting a deeper understanding of religion and contemporary culture

Christianity and Public Culture in Africa Harri Englund, 2011-04-26 Christianity and Public Culture in Africa takes the reader beyond Africa's apparent exceptionalism African Christians have created new publics often in ways that offer fresh insights into the symbolic and practical boundaries separating the secular and the sacred the private and the public and the liberal and the illiberal Critical reason and Christian convictions have combined in surprising ways when African Christians have engaged with vital public issues such as national constitutions and gender relations and with literary imaginings and controversies over tradition and HIV AIDS The contributors demonstrate how the public significance of Christianity varies across time and place They explore rural Africa and the continent's major cities and colonial and missionary situations as well as mass mediated ideas and images in the twenty first century They also reveal the plurality of Pentecostalism in Africa and keep in view the continent's continuing denominational diversity Students and scholars will find these topical studies to be impressive in scope Contributors Barbara M Cooper Harri Englund Marja Hinfelaar Nicholas Kamau Goro Birgit Meyer Michael Perry Kweku Okyerefo Damaris Parsitau Ruth Prince James A Pritchett Ilana van Wyk

Key Words in Religion, Media and Culture David Morgan, 2008-06-30 From The Passion of the Christ to the presumed clash of civilizations religion's role in culture is increasingly contested and mediated Key Words in Religion Media and Culture is a welcome and interdisciplinary contribution that maps the territory for those who aim to make sense of it all

Highlighting the important concepts guiding state of the art research into religion media and culture this book is bound to become an important and frequently consulted resource among scholars both seasoned and new to the field Lynn Schofield Clark David Morgan has assembled here a fine team of scholars to prove beyond a doubt that the intersections of religion media and culture constitute one of the most stimulating fields of inquiry around today This highly useful and theoretically sophisticated text will likely assume ritual status in this emergent field Rosalind I J Hackett University of Tennessee US This volume is a major intervention in the literature on religion media and culture Drawing together leading international scholars it offers a conceptual map of the field to which students teachers and researchers will refer for many years to come The publication of Key Words in Religion Media and Culture is a significant moment in the formation of this area of study and sets a standard for cross disciplinary collaboration and theoretical and methodological sophistication for future work in this area to follow Gordon Lynch Birkbeck College University of London UK This book offers a range of refreshing essays on the relationships between media and religion Its selected keywords open doors to understanding contemporary society The cultural perspectives on mediation and religious practices give some illuminating and surprising analyses Knut Lundby University of Oslo Norway *Contesting Religion* Knut Lundby, 2018-07-09 As Scandinavian societies experience increased ethno religious diversity their Christian Lutheran heritage and strong traditions of welfare and solidarity are being challenged and contested This book explores conflicts related to religion as they play out in public broadcasting social media local civic settings and schools It examines how the mediatization of these controversies influences people s engagement with contested issues about religion and redraws the boundaries between inclusion and exclusion FEATURED CONTRIBUTORS Lynn Schofield Clark Professor of Media Film and Journalism at the University of Denver Colorado US Marie Gillespie Professor of Sociology at the Open University UK Birgit Meyer Professor of Religious Studies at Utrecht University the Netherlands *Media Perceptions of Religious Changes in Australia* Enqi Weng, 2019-12-05 This volume explores the contradiction between the news coverage given to issues of religion particularly since 2001 in relation to issues such as terrorism politics security and gender and the fact of its apparent decline according to Census data Based on media research in Australia and offering comparisons with the UK the author demonstrates that media discussions overlook the diversity that exists within religions particularly the country s main religion Christianity and presents religion according to specific interpretations shaped by race class and gender which in turn result in very limited understandings of religion itself Drawing on understandings of the sacred as a non negotiable value present in religious and secular form *Media Perceptions of Religious Changes in Australia* calls for a broader sociological perspective on religion and will appeal to scholars of sociology and media studies with interests in religion and public life *Religious Complexity in the Public Sphere* Inger Furseth, 2017-08-20 This book is an empirical comparative study of the complexity of religion in the public spheres of the five Nordic countries The result of a five year collaborative research project the work examines how increasingly religiously

diverse Nordic societies regulate debate and negotiate religion in the state the polity the media and civil society The project finds that there are seemingly contradictory religious trends at different social levels a growing secularization at the individual level and a deprivatization of religion in politics the media and civil society It offers a critique of the current theories of secularization and the return of religion introducing religious complexity as an alternative concept to understand these paradoxes This book is for scholars students and readers with an interest in understanding the public role of religion in the West
