Religions Of Africa A Pilgrimage Into Traditional Religions:

Religions of Africa Noel Quinton King, 1970 *The Individual and Community in African Traditional Religions* Theo Sundermeier, 1998 The writer has done a careful scholarly and sensitive and very positive and fair study of African religion with particular reference to the individual and community Theo Sundermeier lets Africa speak for itself and on its own terms and in its own categories The concluding chapter is a necessary reading for all who would be on mission who would seek to live the ecumenical imperative and care to ensure that the pursuit of a religion does not result in dehumanization and degradation and marginalization of the other person Rev Canon Prof John S Pobee World Council of Churches Geneva Switzerland This book treats the subject of African religions in a creative and interesting way emphasizing that these religions are genuine authentic expressions of religiosity on a par with other religions including the so called world religions The author provides an excellent account of the nature interdependence between individual community society and the natural order an interdependence which these religions symbolize and express in ritual and belief Likewise the essentially personal nature of power as conceived in African culture is thoughtfully and interestingly analysed There are many other thought provoking ideas and interpretations in this volume including the deconstruction of the commonly held notions of the distinction between witchcraft and magic This is a most worthwhile contribution to the study of Africa s traditional religions and I am convinced all those with an interest in Africa who read it will gain much therefrom Professor Peter B Clarke Professor of the History and Sociology of Religion in the University of London at King s College and formerly Professor of African History at the University of Ibadan Nigeria Theo Sundermeier is Professor of the History of Religion and Missiology at the Ruprecht Karls Universit t Heidelberg translated by Elaine Griffiths Eleanor Jackson Engaging Religions and Worldviews in Africa Yusufu Turaki, 2020-04-30 In a world of increasing globalization we live amidst a clash of cultures religions and worldviews each battling for the human heart and mind In this in depth study Yusufu Turaki offers a theological framework for engaging this clash of perspectives in Africa where traditional African religions colonialism and exposure to Christianity have each had a lasting impact on contemporary African worldviews Professor Turaki undertakes a systematic analysis of the nature of African Traditional Religion its complex history with Christianity and the need for African Christian theology to address its cultural and historical roots effectively He provides both a conceptual framework and practical guide for engaging African cultures and religions with compassion understanding and a firm foundation rooted in scriptural truth This book is an excellent resource for students of religion and theology as well as those interested in Africa s traditional heritage or drawn to the important work of cross cultural and inter religious dialogue **African Religion** Laurenti Magesa, 2014-07-30 Describes the moral teachings values norms and principles to follow so that life might be abundant for all of the African religion as it relates to individuals and community *RELIGIOUS SYNCRETISM IN AFRICAN CHRISTIANITY* ISIAH OLUWAJEMIRIYE OLATOYAN, 2024-04-18 Christianity among the African people whether on the soil of Africa or in

diaspora is perceived and defined differently by different people For instance among African traditional religious people and Muslims Christianity is a foreign religion that must not be allowed to thrive in Africa To several Africans who profess Jesus Christianity is good but it is not adequate and effective enough to handle all human needs Still among some Western Christians and missionaries African Christianity is superficial and lacks total commitment to Christ Of course the Africans are a cultural people with profound religious inclinations Their traditional religion ATR has tremendously shaped their worldviews and socioeconomic and political activities Consequently when traditional Africans are converted to Christianity they do not break ties with their traditional religions completely The examination of relevant biblical texts on syncretism however reveals that God condemns the worship of many gods and places a curse on anyone who offers sacrifices to carved images and bows to them in worship Therefore this work investigates the root cause of religious syncretism among African people In the attempt to find answers to why the average African Christian finds it difficult if not impossible to abandon his her traditional religious belief systems completely to embrace Christianity the author concludes that unless the issues surrounding the African forgotten and secret covenants are exposed and decisively addressed in the light of biblical teaching syncretism will continue to be a stigma on the fabric of African Christianity Therefore to overcome the threats of syncretism in African Christianity there is a need to establish a sound theological and missiological framework that can address the problems associated with the African worldviews and belief systems This task must be carried out under the searchlight of Scriptures

The Vitality of Karamojong Religion Ben Knighton, 2017-05-15 How long can a traditional religion survive the impact of world religions state hegemony and globalization The Karamoja problem is one that has perplexed colonial and independent governments alike Now Karamojong notoriety for armed cattle raiding has attracted the attention of the UN and USAID since the proliferation of small arms in the pastoralist belt across Africa from Sudan to stateless Somalia is deemed a threat to world security The consequences are ethnocidal but what makes African peoples stand out against state and global governance The traditional African religion of the Karamojong despite the multiple external influences of the twentieth century and earlier has remained at the heart of their culture as it has changed through time Drawing on oral accounts and the language itself as well as his extensive experience of living and working in the region Knighton avoids Western perspectivism to highlight the successful reassertion of African beliefs and values over repeated attempts by interventionists to replace or subvert them Knighton argues that the religious aspect of Karamojong culture with its persistent faith dimension is one of the key factors that have enabled them to maintain their amazing degree of religious political and military autonomy in the postmodern world Using historical and anthropological approaches the real continuities within the culture and the reasons for mysterious vitality of Karamojong religion are explored

Encyclopedia of Ancient Deities Charles Russell Coulter, Patricia Turner, 2021-12-06 Throughout history humans have pondered the question of their existence In nearly every society part of the answer has included some form of god or goddess For the Mayans one such deity

Edley J. Moodley PhD,2008-08-18 The Christian axis has shifted dramatically southward to Africa Asia and Latin America so much so that today there are more Christians living in these southern regions than among their northern counterparts In the case of Africa the African Initiated Churches founded by Africans and primarily for Africans has largely contributed to the exponential growth and proliferation of the Christian faith in the continent Yet even more profoundly these churches espouse a brand of Christianity that is indigenized and thoroughly contextual Further the power and popularity of the AICs beyond the unprecedented numbers joining these churches are attributed to their relevance to the existential everyday needs and concerns of their adherents in the context of a postcolonial Africa At the heart of Christian theology is Christology the confessed uniqueness of Christ in history and among world religions Yet this key feature of Christianity as with other important elements of the Christian faith may be variously understood and re interpreted in these indigenous churches The focus of this study is the amaNazaretha Church an influential religious group founded by the African charismatic prophet Isaiah Shembe in 1911 in the province of KwaZulu Natal South Africa The movement today claims a following of some two million adherents and has proliferated beyond the borders of South Africa to neighboring countries in Southern Africa The book addresses the complex and at times ambivalent understanding of the person and work of Christ in the amaNazaretha Church presenting the genesis history beliefs and practices of this significant religious movement in South Africa with broader implications for similar movements across the continent of Africa and beyond **The Imperial Curriculum** J.

Mangan,2012-05-04 This volume presents the first comparative analysis of racial attitudes in the formal schooling of both Britain and its former dominions and colonies The various contributions examine the issue right across the British imperial experience with case studies ranging from Canada Ireland East and South Africa through the Indian subcontinent to Australia and New Zealand Racial indoctrination is considered from the perspective of both colonizer and colonized The central theme throughout is that a racial hierarchy was taught through both curriculum and text in schools throughout the former British Empire Holidays Around the World, 6th Ed.
