Religious Diversity And Social Change:

Religious Diversity and Social Change Kevin J. Christiano, 1987 Floods of immigration and rapid industrialization and urbanization in America at the turn of the century set in motion the transformation of many long established institutions This book examines specific ways in which cultural changes affected the structure of the religious establishment Statistical models are applied to United States Census data from 1890 and 1906 on city and church populations revealing connections between the growth of cities the increase in literacy and the formation of ethnic subcommunities that led to a new level of religious diversity The author analyses evidence of growing competition among churches and of a level of individual commitment to congregations demonstrating that the patterns of religious community established at the turn of the century provided the basis for the current denominational system The author further analyses the relationship of religious diversity to urban secularization as well as its role as a catalyst to sectarian conflict In offering a quantitative assessment of issues central to the history of American religion this book is a significant contribution to the study of religion in America

Sites and Politics of Religious Diversity in Southern Europe Ruy Blanes, José Mapril, 2013-07-11 In recent years the Southern borders of Europe have become landmarks for the mediatic and academic verve regarding the migration and diasporas towards and beyond Schengen Europe In these debates religion is acknowledged as playing a central role in the recognition of major societal changes in the continent being object of

political concern and attention from the recognition of plural forms of Christianity to the debates on a European Islam Yet in this respect what goes on around the borders of Portugal Spain Italy or Greece is still largely uncharted and un debated With the contribution of renowned anthropologists sociologists and religious studies scholars this book critically presents and discusses case studies on the sites and politics of religious diversity in Southern Europe including the impact of migrant religiosity in national and EU politics Contributors include Anna Fedele Barbara Bertolani Clara Saraiva Cristina Sanchez Carretero Ester Gallo Eugenia Roussou Fabio Peroco Inam Leghari Jos Mapril Katherine Seraidari Maria Del Mar Grieria Manuela Canton Delgado Nora Repo Ramon Sarr Ruy Blanes Sandra Santos Silvia Sai Trine Staunig Willert and Virtudes Tellez Delgado Religious Diversity in Australia Douglas Ezzy, Anna Halafoff, Greg Barton, Rebecca Banham, 2024-03-07

This book documents the structure of religious diversity in Australia and examines this diversity in the context of the law migration education policing the media and interfaith communities Focusing on Melbourne and Tasmania it articulates the benefits and opportunities of diversity alongside the challenges that confront religious and ethnic minorities including discrimination and structural inequalities generated by Christian and other forms of privilege It articulates constructive strategies that are deployed including encouraging forms of belonging structured ways of negotiating disagreement and respectful engagement with difference While scholars across the West are increasingly attuned to the problems and promises of growing religious diversity in a global age in depth empirical research on the consequences of that diversity in Australia is lacking This book provides a rich well researched and timely intervention **The Politics and Practice of Religious**

Diversity Andrew Dawson, 2016-04-20 The Politics and Practice of Religious Diversity engages with one of the most characteristic features of modern society An increasingly prominent and potentially contentious phenomenon religious diversity is intimately associated with contemporary issues such as migration human rights social cohesion socio cultural pluralisation political jurisdiction globalisation and reactionary belief systems This edited collection of specially commissioned chapters provides an unrivalled geographical coverage and multidisciplinary treatment of the socio political processes and institutional practices provoked by and associated with religious diversity Alongside chapters treating religious diversity in the BRIC countries of Brazil Russia India and China are contributions which discuss Australia Finland Mexico South Africa the UK and the United States This book provides an accessible distinctive and timely treatment of a topic which is inextricably linked with modern society s progressively diverse and global trajectory Written and structured as an accessible volume for the student reader this book is of immediate interest to both academics and laypersons working in mainstream and political sociology sociology of religion human geography politics area studies migration studies and religious studies *Deep Equality in an Era of Religious Diversity* Lori G. Beaman, 2017-06-02 While religious conflict receives plenty of attention the everyday negotiation of religious diversity does not Questions of how to accommodate religious minorities and of the limits of tolerance resonate in a variety of contexts and have become central preoccupations

for many Western democracies What might we see if we turned our attention to the positive narratives and success stories of the everyday working out of religious difference Rather than tolerance and accommodation and through the stories of ordinary people this book traces deep equality which is found in the respect humour and friendship of seemingly mundane interactions Deep Equality in an Era of Religious Diversity shows that the telling of such stories can create an alternative narrative to that of diversity as a problem to be solved It explores the non event or micro processes of interaction that constitute the foundation for deep equality and the conditions under which deep equality emerges exists and sometimes flourishes Through a systematic search for and examination of such narratives Lori G Beaman demonstrates the possibility of uncovering revealing and recovering deep equality a recovery that is vital to living in an increasingly diverse society In achieving deep equality identities are fluid shifting in importance and structure as social interaction unfolds Rigid identity imaginings especially religious identities block our vision to the complexities of social life and press us into corners that trap us in identities that we often ourselves do not recognize want or know how to escape Although the focus of this study is deep equality and its existence and persistence in relation to religious difference deep equality is located beyond the realm of religion Beaman draws from the work of those whose primary focus is not in fact religion and who are doing their own deep equality work in other domains illustrating especially why equality matters By retelling and exploring stories of negotiation it is possible to reshape our social imaginary to better facilitate what works which varies from place to place and time to time
