SECOND EDITION

Rex Ahdar and Ian Leigh

Religious Freedom In The Liberal State

**Gavin D'Costa, Malcolm Evans, Tariq
Modood, Julian Rivers**

Religious Freedom In The Liberal State:

Religious Freedom in the Liberal State Rex Ahdar, Ian Leigh, 2013-03-21 Examining the law and public policy relating to religious liberty in Western liberal democracies this book contains a detailed analysis of the history rationale scope and limits of religious freedom from but not restricted to an evangelical Christian perspective Focussing on United Kingdom the United States Canada New Zealand Australia and EU it studies the interaction between law and religion at several different levels looking at the key debates that have arisen Divided into three parts the book begins by contrasting the liberal and Christian rationales for and understandings of religious freedom It then explores central thematic issues the types of constitutional frameworks within which any right to religious exercise must operate the varieties of paradigmatic relationships between organized religion and the state the meaning of religion the limitations upon individual and institutional religious behaviour and the domestic and international legal mechanisms that have evolved to address religious conduct The final part explores key subject areas where current religious freedom controversies have arisen employment education parental rights and childrearing controls on pro religious and anti religious expression medical treatment and religious group church autonomy This new edition is fully updated with the growing case law in the area and features increased coverage of Islam and the flashpoint debates surrounding the accommodation of Muslim beliefs and practices in Anglophone nations

Religious Freedom in the Liberal State Rex Ahdar, Ian Leigh, 2013-03-21 Rex Ahdar and Ian Leigh present a critique of how religious freedom should be understood in liberal legal systems based on historical and contemporary controversies

Religion in a Liberal State Gavin D'Costa Malcolm Evans Tariq Modood and Julian Rivers,

Law and Religion in the Liberal State Md Jahid Hossain Bhuiyan, Darryn Jensen, 2020-05-28 The relationship between law and religion is evident throughout history They have never been completely independent from each other There is no doubt that religion has played an important role in providing the underlying values of modern laws in setting the terms of the relationship between the individual and the state and in demanding a space for the variety of intermediate institutions which stand between individuals and the state However the relationships between law and religion and the state and religious institutions differ significantly from one modern state to another There is not one liberalism but many This work brings together reflections upon the relationship between religion and the law from the perspectives of different sub traditions within the broader liberal project and in light of some contemporary problems in the accommodation of religious and secular authority

Cooperation, Religious Freedom, and the Liberal State Brian Jeffrey Hutler, 2018 Religious freedom is often listed among the core freedoms that characterize the liberal state along with freedom of speech freedom of association and freedom of the person But it may seem that what is valuable about religion from a liberal point of view would be sufficiently protected by these other core freedoms Does religious freedom have a special role to play in a liberal state Traditionally liberal theorists have thought that religious freedom required maintaining separation between the state and

religion But problems arise when separation is applied strictly to every type of religion state interaction without attention to the underlying values at stake This dissertation defends a conception of religious freedom that makes room for cooperation and compromise with the aim of creating mutually beneficial relationships between religion and the state Separation is an important component of this picture but not its guiding principle This dissertation discusses two areas in which strict adherence to religion state separation may lead to problematic outcomes First strict adherence to separation lends support to an all or nothing approach to religious accommodation But compromise can often be more valuable for both religious persons and the state especially when the meaning or purpose of the religious activity is consistent with the purpose of the conflicting law In such cases compromise may generate creative solutions to conflicts and may promote mutual understanding and respect between religious persons and their fellow citizens This compromise based approach to accommodation is limited however by the principle that accommodation should not be used as a form of political protest Second strict adherence to separation supports protecting the autonomy of religious institutions to oversee their internal own affairs But the state must also protect the rights and interests of the members of religious institutions As such the state must ensure that religious institutions are voluntarily associations whose members have both a right and a genuine opportunity to exit the association As one example the state should generally not enforce religious arbitration agreements against members of religious institutions even when they have voluntarily agreed to them

Religious Ideas in Liberal Democratic States Jasper Doomen, Mirjam van Schaik, 2021-07-29 Religious Ideas in Liberal Democratic States adds new context to the ongoing debate over the scope of religious freedom drawing from a variety of perspectives to discuss the meaning of religion itself within a democratic state This book argues that categorizing religion as a solely private affair is too narrow an interpretation and questions whether ideas like freedom human dignity and equality can be truly actualized in a neutral and secular state Contributors explore the impact of religion acknowledged or not on legislation human rights and group rights through legal historical and sociological lenses Scholars of constitutional law jurisprudence international law and political science will find this book particularly useful

Religion in a Liberal State Gavin D'Costa, Malcolm Evans, Tariq Modood, Julian Rivers, 2013-08-29 As religion has become more visible in public life with closer relations of co operation with government as well as a force in some political campaigns its place in public life has become more contested Fudged compromises of the past are giving way to a desire for clear lines and moral principles This book brings the disciplines of law sociology politics and theology into conversation with one another to shed light on the questions thrown up by religion in a liberal state It discusses practical problems in a British context such as the accommodation of religious dress discrimination against sexual minorities and state support for historic religions considers legal frameworks of equality and human rights and elucidates leading ideas of neutrality pluralism secularism and public reason Fundamentally it asks what it means to be liberal in a world in which religious diversity is becoming more present and more problematic

Why Religious Freedom Matters

for Democracy Myriam Hunter-Henin, 2020-06-11 Should an employee be allowed to wear a religious symbol at work Should a religious employer be allowed to impose constraints on employees private lives for the sake of enforcing a religious work ethos Should an employee or service provider be allowed on religious grounds to refuse to work with customers of the opposite sex or of a same sex sexual orientation This book explores how judges decide these issues and defends a democratic approach which is conducive to a more democratic understanding of our vivre ensemble The normative democratic approach proposed in this book is grounded on a sociological and historical analysis of two national stories of the relationships between law religion diversity and the State the British mainly English and the French stories The book then puts the democratic paradigm to the test by looking at cases involving clashes between religious freedoms and competing rights in the workplace Contrary to the current alternative between the accommodationist view which defers to religious requests and the analogous view which undermines the importance of religious freedom for pluralism this book offers a third way It fills a gap in the literature on the relationships between law and religious freedoms and provides guidelines for judges confronted with difficult cases

Negotiating Religion François Guesnet, Cécile Laborde, Lois Lee, 2016-08-25 Negotiating religious diversity as well as negotiating different forms and degrees of commitment to religious belief and identity constitutes a major challenge for all societies Recent developments such as the de secularisation of the world the transformation and globalisation of religion and the attacks of September 11 have made religious claims and religious actors much more visible in the public sphere This volume provides multiple perspectives on the processes through which religious communities create or defend their place in a given society both in history and in our world today Offering a critical cross disciplinary investigation into processes of negotiating religion and religious diversity the contributors present new insights on the meaning and substance of negotiation itself This volume draws on diverse historical sociological geographic legal and political theoretical approaches to take a close look at the religious and political agents involved in such processes as well as the political social and cultural context in which they take place Its focus on the European experiences that have shaped not only the history of negotiating religion in this region but also around the world provides new perspectives for critical inquiries into the way in which contemporary societies engage with religion This study will be of interest to academics lawyers and scholars in law and religion sociology politics and religious history

The Right to Religious Freedom in International Law Anat Scolnicov, 2010-10-18 This book explores the right to religious freedom within international law Analysing legal structures in a variety of both Western and Non Western jurisdictions the book sets out a topography of the different constitutional structures of religion within the state and their compliance with international human rights law
