Religious Movements in South Asia, 600-1800 David N. Lorenzen, 2004 This volume brings together eleven key essays that debate how the religious and worldly aims of religious movements in premodern South Asia have been linked and how their ideologies social bases and organizational structures both continued and changed over the course of time

Religious Movements in South Asia, 600-1800 David N. Lorenzen, 2005 It provides a picture fascinating of some of the religious movements in Indian history The book Review This book addresses a range of debates regarding religious movements in the medieval and early modern periods Eleven key essays debate the linkages between the religious and worldly aims of different movements and the continuity and change in their ideologies social bases and organizational structures over time They present divergent views on important issues such as the relationship between caste and the sect the idea of renunciation the role of the Sufis in the conversion to Islam in medieval India and the ways in which many South Asian popular movements emerged and gathered force In an insightful introduction by David Lorenzen each debate is discussed in its historical and theoretical context The influence of Dumont Engels and Weber on our understanding of the nature of religious movements in and beyond the South Asia is also analysed Part of the prestigious Debates in Indian History and Society series this volume will be useful for students scholars and teachers of medieval and early modern India as well as those interested in religious studies comparative religion sociology and anthropology

Asian Perspectives on the World's Religions after September 11 Arvind Sharma, Madhu Khanna, 2013-02-15 This book offers a unique perspective on September 11 and our world after this tragic event sharing lessons from an Asian religious experience that can help heal a world troubled by religious conflicts and deepening divisions and promote a positive global transformation Existing literature regarding the events of September 11 and our world afterward has focused mostly on the West and the Middle East Asian Perspectives on the World's Religions after September 11 extends this discussion to include Asia a continent and culture far too important to be ignored in any assessment of the global impact of this event The book is organized along the following themes as they emerged post September 11th religion and civilizational dialogue religion conflict and peace religion and human rights religion and ethics religion and the arts religion hermeneutics and literature religion and gender religion and ecology and religion and globalization Individuals who are studying or teaching political science international relations philosophy ethics Asian studies or religious studies will find the text invaluable while general readers will appreciate the largely unvoiced Asian perspective on this topic

Bazaz,2024-06-27 An extensive critical study of the poetry of Nund Rishi a revered and renowned Sufi of medieval Kashmir

Nirguna Bhakti in Eastern India Dambarudhar Nath,2024-01-01 Like in other parts of India the Bhakti movement also spread into the eastern regions in the early sixteenth century and had brought a large section of the people under its banner stretching from Koch Behar in the west in North Bengal to the foothills of Arunachal Pradesh in the eastern frontier The present work is a comprehensive but a critical history of the growth and development of the mystical movement in this part of India from the early sixteenth to seventeenth century with special reference to the M y mar sect which claims to be nirguna in its essence teachings social ideology and political influence While doing this the book has re examined the theory that bhakti movement ultimately failed to usher in a democratic outlook and egalitarian aspects as it had originally proposed and that it had ultimately submitted to the strong and dominant conservative forces With a detailed and sceptical examination of the ideological and philosophical aspects of Sankaradeva the founder of Bhakti movement in the eastern part of India the work proceeds on to examine the historical situation behind the emergence of the radical branch of the movement and its social and political implications It shows how within every conservative structure there remains a radical force which always carries on the forces of reform resistance and protest against the dominant ideology if necessary even by adoption of militant methods The emergence of the M y mar sect from within the bhakti ideology its role in the making of the society and a militant resistant movement against the dominant class form the crux of the present work While doing this it has questioned many of the existing ideas and concepts about the movement particularly in this part of India Literature

and Nationalist Ideology Hans Harder,2017-08-03 Writing histories of literature means making selections passing value judgments and incorporating or rejecting foregoing traditions The book argues that in many parts of India literary histories play an important role in creating a cultural ethos They are closely linked with nationalism in general and various regional sub nationalisms in particular The contributors to this volume look at a great variety of aspects of the historiography of modern regional languages of India Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka The Problem with Interreligious Dialogue Muthuraj Swamy,2016-03-24

Muthuraj Swamy provides a fresh perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict

Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation The Problem with Interreligious Dialogue Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography *Between Muslim P?r and Hindu Saint* Mukesh Kumar,2024-11-21 This book explores the changing form of religious culture in the Mewat region of north India **Divine Sounds from the Heart—Singing Unfettered in their Own Voices** Rekha Pande,2010-09-13 Recent years have seen a sea change in the way history is written and also in the way our conceptions of the past are being rewritten In traditional historiography women s articulation is often marginalized and dominated by male voices Through centuries of patriarchal control women negotiated many layers and levels of existence working out different forms of resistance which have often gone unnoticed Bhakti was one such medium Religion provided the space in the medieval period and women saints embraced bhakti to define their own truths in voices that question society family and relationships For all these women bhaktas the rejection of the male power that they were tied to in subordinate relationship became the terrain for struggle self assertion and alternative seeking Most of these women lived during the period from 12th to 17th Century While the dominant mode of worship in bhakti was prostration to a deity like a feudal lord the women bhaktas idea of God as a lover a husband and a friend came as a breath of fresh air The individual outpourings and the voices of these women who had the courage to sing unfettered in their own voices refused to melt in the din of the feudal scene which was largely patriarchal This book will be useful to scholars interested in Feminist History Comparative Religion and Asian Studies The sensitive and rigorous research will be of great help to young scholars interested in embarking on a journey to discover religious history especially with regards to women s history in the South Asian context
