Reluctant Pioneer:

Reluctant Pioneer Cecile Betts, 2003-03-01 The Reluctant Pioneer Janet Lenora Wing, 1999 The Reluctant pioneer Pearl Packard, 1968 **The Farm Novel in North America** Florian Freitag, 2013 Provides the first history of the North American farm novel a genre which includes John Steinbeck's *The Grapes of Wrath* Sheila Watson's *The Double Hook* and Louis Hémon's *Maria Chapdelaine* The Lost Frontier Mark Asquith, 2014-06-19 The success of *The Shipping News* and the film of *Brokeback Mountain* brought Proulx international recognition but their success merely confirms what literary critics have known for some time Proulx is one of the most provocative and stylistically innovative writers in America today She is at her best in the short story format and the best of these are to be found in her Wyoming trilogy in which she turns her eye on America's West both past and present Yet despite the vast amount of print expended reviewing her books there has been nothing published on the Wyoming Stories There is appetite for such a work the plethora of critical work on McCarthy's *Border Trilogy* indicates that the reinvention of the West is a subject for serious academic study Annie Proulx's *Wyoming Stories* fills this critical void by offering a detailed examination of the key stories in the trilogy *Close Range* 1999 *Bad Dirt* 2004 *Fine Just the Way it Is* 2008 The chapters are arranged according to western archetypes the Pioneer Rancher Cowboy Indian and arguably the most important character of them all in Proulx's fiction Landscape Annie Proulx's *Wyoming Stories* offers students a clear sense of the novelist's early life and work stylistic influences and the characteristics of her fiction and an understanding of where the Wyoming Stories and Annie Proulx's work as a whole fits into traditional and contemporary writing about the American West *Pioneer Muskoka* Ray Love, 2016-07-25 The history of Ontario's premier cottage destination Muskoka was not commonplace or uneventful Beginning in the 1860s emigrants from the British Isles and Europe were lured to this desolate region with the promise of free land grants for farming What they found were mature forests swamp and never ending rock Their heroic attempts to make a living farming on the Precambrian Shield did not come without considerable discomfort *Pioneer Muskoka* documents the struggles faced by these early homesteaders and their response to hardship isolation disease and poverty This is the tale of a community banding together to overcome fear with courage and determination Readers will be astounded by the lengths these settlers went in their quest to make a home for themselves and future generations in Muskoka The eventual shift from farming to more profitable industries such as lumber and tourism brought a shift in attitude towards this now highly sought after locale The first families through their enormous efforts were able to create this positive and enduring change **Norwegian American Women** Betty A. Bergland, Lori Ann Lahlum, 2011 Explores the vital role of women in the creation of Norwegian American communities from farm to factory and as caregivers educators and writers **Reluctant Pioneer** Thomas Osborne, 2013-05-18 In the 1870s in Ontario's Muskoka teenager Thomas Osborne endured starvation freezing accidents with axes and boats and narrow escapes from wolves and bears Decades later after moving to the United States Osborne wrote down all his adventures in a graphic memoir four years

before his death in 1938 *Reluctant Pioneer* Thomas Osborne, 2017-09-20 In the 1870s in Ontario's Muskoka teenager Thomas Osborne endured starvation freezing accidents with axes and boats and narrow escapes from wolves and bears Decades later after moving to the United States Osborne wrote down all his adventures in a graphic memoir four years before his death in 1938 *The Hammonds* Stewart Angus Weaver, 1997 Here for the first time is the story of one of history's great scholarly and marital collaborations J L and Barbara Hammond were among the most innovative and influential historians of the twentieth century Between 1911 and 1934 they wrote eight books together that amount in effect to the first sustained social history of modern England Three of their books in particular *The Village Labourer* 1911 *The Town Labourer* 1917 and *The Skilled Labourer* 1919 not only anticipated what came to be known as history from below but also permanently changed the way most people think about the Industrial Revolution which they defined in the apocalyptic terms to which we have become accustomed The Hammonds were also public figures prominently involved along with L T Hobhouse J A Hobson C P Scott and others in the definition and dissemination of the new liberalism From the point of involvement in the politics of one century they helped give enduring historical shape to another and thus exercise like their friends Sidney and Beatrice Webb a dual fascination Of the two Hammonds J L was the more prolific writing six books on his own and serving as a political journalist for virtually his entire professional life which saw him intervene editorially in every public crisis from the Boer War to the Second World War Ireland was after the Industrial Revolution arguably his greatest passion one to which he devoted much of his editorial life and his supreme literary effort *Gladstone and the Irish Nation* 1938 Barbara Hammond was an accomplished classicist the first woman to earn a First Class degree in Greats at Oxford She is shown here to have done much more work on the labourer books than has been previously recognized and to sustain through her letters an artful running commentary on the foibles of her age Through her especially the author evokes a radical but also doggedly Victorian sensibility that survived uneasily into the age of Bloomsbury and beyond The Hammonds were unique in the extent of their fused identity in the extent to which they became as G M Trevelyan once put it one flesh and one author The Hammonds is part dual biography part evocation of an age but it is also a study of marriage a marriage at a particular moment in history a marriage in the art and craft of history **The Life of Elreta Melton Alexander** Virginia L. Summey, 2022-05-01 This book explores the life and contributions of groundbreaking attorney Elreta Melton Alexander Ralston 1919-98 In 1945 Alexander became the first African American woman to graduate from Columbia Law School In 1947 she was the first African American woman to practice law in the state of North Carolina and in 1968 she became the first African American woman to become an elected district court judge Despite her accomplishments Alexander is little known to scholars outside of her hometown of Greensboro North Carolina Her life and career deserve recognition however not just because of her impressive lists of firsts but also owing to her accomplishments during the civil rights movement in the U S South While Alexander did not actively participate in civil rights marches and demonstrations she used her professional achievements and middle class status to

advocate for individuals who lacked a voice in the southern legal system Virginia L Summey argues that Alexander was integral to the civil rights movement in North Carolina as she and women like her worked to change discriminatory laws while opening professional doors for other minority women Using her professional status Alexander combatted segregation by demonstrating that Black women were worthy and capable of achieving careers alongside white men thereby creating environments in which other African Americans could succeed Her legal expertise and ability to reach across racial boundaries made her an important figure in Greensboro history

The Gendered West

Gordon Morris Bakken, Brenda Farrington, 2013-09-13 First Published in 2001 This anthology of western history articles emphasizes the New Western History that emerged in the 1980s and adds to it a heavy dose of legal history a field frequently ignored or misunderstood by the New Western historians From first contact American Indians knew that Europeans did not understand the gendered nature of America Confusion regarding the role of women within tribes and bands continued from first contact well into the late nineteenth century The journal articles that follow give readers a true sense of the gendered West Racial and ethnic heritage played a role in female experience whether Hispanic Japanese or Irish Women's work was part western history but women did not confine themselves to plow handles or brothels Women were very much a part of most occupations or in the process of breaking down barriers of access They worked in the fields for wages as well as for family welfare and prosperity Women demanded access to the professions whether teaching or law accounting or medicine The process of eliminating barriers varied in time and space but the struggle was constant Yet the story of women in polygamous Utah or Idaho was different and an integral part of the fabric of western history Because of their beliefs and practices these women suffered at the hands of the federal government and persevered

The Early Years of a Dutch Colonial Mission Rita Smith Kipp,1990 This fascinating story of a Dutch Reformed mission among the Karo of North Sumatra chronicles the field s first fifteen years 1889 1904 Plantation executives sponsored the mission hoping to enlist the Karo as Christian allies in a colonial war against Muslim fanatics But the Karo hated the plantations and likewise distrusted and resisted the missionaries Civil servants saw the mission as a forerunner of the government s annexation of the Sumatran highlands and in the military expedition to take the region the missionaries played a prominent role Consequently the missionaries found their credibility diminished by their links to the despised colonial apparatus Nonetheless the missionaries motives were religious and they struggled with the compromises that made their work possible yet ultimately precluded its success Unlike other missionary studies that focus on biography or on large regions this historical ethnography concentrates on a single field and on the personalities and activities of the several men who pioneered it in its formative years It examines the missionaries assumptions and values describe how the missionaries contrasted themselves with the government and capitalist business and explores the difficulties of translating Christianity across a great cultural gulf The Early Years of a Dutch Colonial Mission will give pause to anyone who has thought missionaries heroic or to anyone who has thought them mislead
