Bainham,Shelley Day Sclater,Martin Richards,1999-07-01 This collection of essays is the product of a series of seminars held at the University of Cambridge in 1998 under the auspices of the newly formed Cambridge Socio Legal Group The book presents an interdisciplinary exploration of the nature of parenthood and its various manifestations in contemporary society It is divided into three sections dealing respectively with defining parenthood new issues in contemporary parenting and parenting post divorce Each contributor addresses the central question What is a Parent from the perspective of his or her own discipline thus bringing together ideas about parents derived from law sociology psychology biology and criminology Despite the familiar and apparently obvious answer to this question the notion of parent emerges from the analysis as a contested concept Definitions are various and fluid parenting practices are by no means fixed and ideologies which frame who parents are and what they do are subject to disruptions from several quarters In short the essays in this book show the

ways in which parent like child is a term with a shifting meaning and parenthood refers to a fluid set of social practices which are historically and culturally situated Contributors Andrew Bainham Carol Brayne Stuart Bridge Rachel Cook Shelley Day Sclater Margaret Ely Loraine Gelsthorpe Susan Golombok Jack Goody Jonathan Herring Felicia Huppert Allison James Martin Johnson Bridget Lindley Mavis Maclean Juliet Mitchell Ros Pickford Martin Richards Wendy Solomou Candida Yates

Lee, 2015-04-08 This book documents and explains the remarkable decline in the American marriage rate that began about 1970 This decline has occurred in spite of the fact that married people are better off than unmarried people in many ways Many other attempts to explain the retreat from marriage blame it on culture change involving a devaluation of marriage and

or on ignorance of the benefits of marriage among the unmarried population. In turn, because unmarried adults and single parent families are poorer than others, poverty and its associated problems are attributed to the failure to marry. The argument presented here is that the declining marriage rate is due to the deteriorating position of workers, particularly men, in the American economy. Not only have jobs disappeared and wages decreased, especially for the less educated, but existing jobs have become more precarious. Less educated workers can't count on having jobs in the future and can't count on earning enough to support families if they have jobs because their wages have stagnated. In this economic environment, the flexibility to change partners becomes a survival strategy for the economically marginalized population, which has been increasing in size for the past four decades. Arrangements such as cohabitation allow for this flexibility; marriage does not. This argument implies that marriage is not a realistic choice for many Americans. In fact, it is a choice that many people don't actually have. Marriages between economically marginal men and women would not eventuate in the benefits that middle class people experience when they marry and would eliminate an option they may need to survive in the face of unrelenting poverty. We won't convince these people that marriage would improve their lives because in most cases it wouldn't be true. To return the marriage rate to its pre 1970 level, we need to address the economic factors that have caused the decline.

Home, School, and Community Collaboration Kathy B. Grant, Julie A. Ray, 2018-02-27 Filled with practical suggestions and reflective opportunities, this book uses the culturally responsive family support model as a framework to prepare readers to work with children from diverse families.

Restored and Remarried Gil and Brenda Stuart, 2009-11-11 Gil and Brenda deliver a fresh style of encouragement to this ever growing population in society: the blended family. Willing to speak the obvious from their own step family adventure, the Stuarts share heart to heart as they walk the walk. Because 60% of remarriages end within the first two years, it is vital to encourage and equip these marriages with practical applications. Bringing together different traditions, rules, and personalities from two different families into one home is tough. This is no cake walk, but it can work and work quite well. It takes trust, honesty, and commitment to the stepfamily process with a no turning back attitude. The process of leaving a healthy, strong legacy for remarried couples and their families is what *Restored and Remarried* is all about. R.R.'s message is: If you ain't got the marriage, you ain't got nothin'.

Remarriage and Stepfamilies in East Central Europe, 1600-1900 Gabriella Erdélyi, András Péter Szabó, 2023-01-27 Due to high adult mortality and the custom of remarriage, stepfamilies were a common phenomenon in pre-industrial Europe. Focusing on East Central Europe, a neglected area of Western historiography, this book draws essential comparisons in terms of remarriage patterns and stepfamily life between East Central Europe and Northwestern Europe. How did the specific economic, military, political, legal, religious, and cultural profile of the region affect remarriage patterns and stepfamily types? How did the greater propensity of widowed parents to remarry in some of the East Central European communities compared to Western ones shape the children's lives? And how did the routine divorce before Orthodox courts by ordinary men and women shape relationships among children and

adults belonging to blended families By drawing on quantitative as well as qualitative approaches the book offers an historical demographical narrative of the frequency of stepfamilies in a comparative framework and also assesses the impact of stepparents on the mortality and career prospects of their stepchildren The ethnic and religious diversity of East Central Europe also allows for distinctions and comparisons to be made within the region Remarriage and Stepfamilies in East Central Europe 1600 1900 will appeal to researchers and students alike interested in the history of family marriage and society in East Central Europe
