Remembering And The Sound Of Words Mallarme Proust Joyce Beckett:

Remembering and the Sound of Words Adam Piette, 1996 Remembering the Sound of Words is a major new study of four of modern literature's most important writers and the first serious attempt to account for complex sound effects in prose. Adam Piette establishes fascinating new links between such sound effects and the representation of memory in literary texts. He sets out a workable taxonomy of sound repetitions in prose and formulates through a theory of alternating devices the ways in which the reader's attention is drawn to the acoustic surface of the text. Through close analysis of Mallarmé's prose poetry, Proust's musical syntax, Joyce's memory rhymes from the Portrait of the Artist through Ulysses to Finnegans Wake, and Beckett's prose and drama, Piette demonstrates that sound effects act as intricate reminders of memory traces in the text. Despite wide divergence in these four writers' representations of memory, the book shows that the use of this memory rhyme technique is common to them all and is employed in particular to express the textual migration of past key words, self-centred comic tyranny, and the fitful unification of body and memory within the narrative voice. Mimesis is redefined in terms of textual rhymes, facsimiles of the complex resemblances, fusions, and re-enactments of the mind's verbal memory. **Joyce's Book of Memory** John S. Rickard, 1999-01-06 Discusses Ulysses, arguing that through the operation of memory it mimics the working of the human mind and achieves its status as one of the most intellectual achievements of the 20th century.

Sound Poetics Seán Street, 2017-07-14 This book examines sonic signals as something both heard internally and externally through imagination, memory, and direct response. In doing so, it explores how the mind makes sound through experience as it interprets codes on the written page and creates an internal leitmotif that then interacts with new sounds made through an aural partnership with the external world. Chosen and involuntary exposure to music and sound messages, both friendly and antagonistic to the identity of the self, it creates an argument for sound as an underlying force that links us to the world we inhabit, an essential part of being in the same primal sense as the calls of birds and other inhabitants of a shared earth. Street argues that sound as a poetic force is part of who we are, linked to our visualisation and sense of the world as idea and presence within us. This incredibly interdisciplinary book will be of great interest to scholars of radio, sound media, and literature, as well as philosophy and psychology. Samuel Beckett's Lyric Failure Mantra Mukim, 2025-03-06 Providing one of the first book-length accounts of Samuel Beckett's poetry, this work illustrates how Beckett's poetry and its failures reconfigure the lyric form. Reading Beckett alongside nineteenth and twentieth-century European poets such as Hölderlin, Mallarmé, Rimbaud, Montale, and Apollinaire, the book situates failure in the triangulation of the lyric impulse, subjectivity, and the human voice. Beckett, in his poems, employs lyric tactics that range from deixis, parataxis, and caesura to specific kinds of timbre, resonances, and punctuation. These tactics situate the poetic voice in the liminal points between life and death, event and non-event, beginning and ending, and more broadly between expression and failure. The book frames these liminalities under the rubric of lyric failure. Moving beyond the usual comparisons with his prose and drama, the study

highlights failure as a generative force that structures Beckett's anti-expressive poetics

Paul Auster's Ghosts María Laura Arce Álvarez, 2018-06-13 The following book explores the intertextual relationship between Paul Auster's first and most remarkable work *The New York Trilogy* 1987 and the works of certain American and European writers who shaped this novel and Auster's future works. Auster's *The New York Trilogy* is a novel formed by an intertextual dialogue which in some cases it is explicit mentioning authors and books intentionally and in others implicit provoked by Auster's admiration for authors such as Samuel Beckett or product of his role as a translator as it occurs with Maurice Blanchot. These two different ways of intertextuality essentially show Auster's influence of the American Renaissance. Samuel Beckett's fiction and the work of the writer and critic Maurice Blanchot. In these terms this book proposes an exhaustive analysis of *City of Glass* and Herman Melville's *Bartleby the Scrivener*, *Ghosts* and Edgar Allan Poe's *William Wilson* and *The Locked Room* and Nathaniel Hawthorne's *Fanshawe*. The two last chapters also offer a thorough analysis of the whole trilogy in comparison to Samuel Beckett's trilogy *Molloy*, *Malone Dies* and *The Unnamable* and finally introduces a study of the trilogy as a fictionalization of Maurice Blanchot's literary theory

Twilight Histories Camilla Cassidy, 2022-10-24 *Twilight Histories* explores the relationship between nostalgia and the Victorian historical novel arguing that both responded to the turbulence brought by accelerating modernisation. Nostalgia began as a pathological homesickness its first victims seventeenth century soldiers serving abroad. Only gradually did it become the sentimental memory we understand it as today. In a striking parallel to nostalgia's origin the historical novel emerged in the tumultuous early years of the nineteenth century at a time when the Napoleonic Wars once again set troops on the move creating a new wave of homesick soldiers. In the historical novels of Gaskell, Thackeray, Dickens, Eliot and Hardy nostalgia offered a language in which to describe the experience of living through changing times as a homesickness for history. *Twilight Histories* has been included in Oxford Bibliographies Historical Novel category where it has been reviewed as an illuminating study of mid-Victorian novels of the recent past the period of the French Revolution and Napoleonic Wars
