Remote Depossession Irene Hickman,1994-03 **Michael's Book** Susan Schontag,2012-04-01 We are here on Earth at this time to experience and remember our life s plan and purpose Unfortunately there may be interference to this objective The expression we are not alone does not always mean those around us are benevolent There are unseen beings around us Some are of the highest vibration and some are not Our job is to recognize that there is something in our way and figure out how to remove it So the question arises What is Remote Depossession and who needs it Remote Depossession is the removal of negative attached entities or energies These attached energies can be evil or they can be earth bound spirits Earth bound spirits are those souls who died and did not go to the light or Home Attached entities energies have been found to produce a variety of problems They may include behavior emotional or physical disturbances and their presence appears to interfere with other types of therapy and impede healing The intent of this book is to prompt you to ascertain your soul s roots purpose and path and to help you recognize interference when it is present It is also the intent of this book to share with you your off planet advisers and assistants especially Archangel Michael *The Lightworker's Way* Doreen Virtue,1997-06-01 Bestselling author Doreen Virtue brings you this enlightening book on connecting with your inner calling recognition of your higher purpose and spiritual power for healing Doreen describes her innate spiritual gifts such as psychic communication and spiritual healing abilities She tells us how we all have these innate gifts and provides The Lightworker s Way as a guidebook on how to bring these abilities to fruition The Lightworker s Way will help you to set your spirit free teaching you how to have miracles in your life as an everyday experience It tells you how to divinely plan your life heighten your psychic receptivity open your third eye make peace with God and much much more **People Who Don't Know They're Dead** Gary Leon Hill,2025-09-12 In People Who Don t Know They re Dead Gary Leon Hill tells a family story of how his Uncle Wally and Aunt Ruth Wally s sister came to counsel dead spirits who took up residence in bodies that didn t belong to them And in the telling Hill elucidates much of what we know or think we know about life death consciousness and the meaning of the universe When people die by accident in violence or maybe they re drunk stoned or angry they get freeze framed Even if they die naturally but have no clue what to expect they might not notice they re dead It s frustrating to see and not be seen It s frustrating not to know what you re supposed to do next It s especially frustrating to be in someone else s body and think it s your own That s if you re dead If you re alive and that spirit has attached itself to you well that s a whole other set of frustrations Wally Johnston a behavioral psychologist first started working with a medium in the 70s to help spirits move on to the next stage Some years after that Ruth Johnston an academic psychiatric nurse who d become interested in new consciousness and alternative healing began working with Wally to clear spirits who weren t moving on These hitchhikers had attached themselves to the auras of living relatives or strangers in an attempt to hold on to a physical existence they no longer need Through her pendulum Ruth obtains permission from the higher self of both hitchhiker and host to work with

them Then Wally speaks with them gently but firmly to make sure they know they are no longer welcome to inhabit the bodies and wreak havoc on the lives of the living Hill has woven this fascinating story with the history and theory of what happens at death with particular emphasis on the last 40 years and the work of such groundbreaking thinkers as Elmer Green Raymond Moody William James Aldous Huxley Edith Fiore Martha Rogers Mark Macy Elisabeth Kubler Ross Bruce Lipton and a host of others whose work helps inform our idea of what it is to live and to die As it turns out our best defense against hitchhikers is to live consciously And our best chance of doing that is by paying attention and staying open to possibilities

Freeing the Captives Louise Ireland-Frey,2025-09-12 Possession by Spirits Stories of spirit possession come to us from earliest recorded history Modern science typically has looked on these reports as the product of ignorance and superstition Modern science may be wrong It may in fact be changing its mind

Defeat the Enemy Within ,2004-10 He s hunted Soviet submarines walked the corridors of power in Washington helped create government agencies and has done business in foreign capitals Now Dr Charles Skillas applies the same technology principles to unmask the real sources and causes of subconscious sabotage where the terms defense intelligence and foreign attachment take on very different meanings Using his own life and healing as an example Dr Skillas deftly transfers his defense technology background to his new career of clearing the submerged minefields of the psyche Defeat The Enemy Within shows you how to find help to finally resolve long standing problems that have resisted solution why traditional therapy doesn t usually work for long term solutions what you must do for permanent change Dr Skillas draws on his defense industry background and 23 years experience as a hypnotherapist to blend traditional hypnotherapy past life regression spirit attachment Chinese herbal and energetic medicine and the underlying wisdom of

diverse world cultures to banish the inner shadows that keep you in misery **The Science of Spirit Possession (2nd Edition)** Terence Palmer, 2014-11-10 Spirit possession attachment poltergeist activity and the negative impact of obsession infestation and harassment on psychological health together with the methods of dealing with it are contemporary issues that demand serious scientific research and academic study Essential reading for anyone who is presented with the problem of identifying and dealing with negative spirit influence whether they are a health professional a service user or a research scientist this book presents a complementary approach that is built upon the theoretical concepts and experimental methods of Frederic Myers together with modern research findings in quantum theory and neuro imaging **Confessions of a Regressionist** Barbara H. Pomar, 2012-05 For the past thirty five years Dr Barbara Pomar has guided her clients on journeys into their past lives Confessions of a Regressionist presents both her personal account of her work with clients working to reverse past decisions to change the present and future and the theories behind the practice For some the very existence of past lives let alone the ability to reconnect with them is a point of spirited debate Even so Dr Pomar has helped many to come to their own conclusions about the validity of this technique Now she guides readers on using her techniques to live more fully or mold their destinies She also discusses theories on why and how past life regression is possible If you've ever struggled with how the possibility of past life regression fits within your faith Dr Pomar offers advice on how to evaluate your conflict If you are a regressionist Dr Pomar's work can help you realize that by helping your client you also help past and future generations as well If you've ever considered meeting with a regressionist Dr Pomar explains how this sort of experience can help you live more fully in the present with joy confidence and prosperity by releasing or neutralizing memories of harmful events *The Wind Demon Within Me* Mercedes O'Ryan, 2008-11 One woman alone two children and a mysterious illness with a strange mix of symptoms that never seems to go away this along with demonic activity in every house they live in all ensuing after becoming Jehovah's Witnesses What begins as a mother's relentless search for help to fix her ailing son uncovers little by little what turns out to really be a case of demonic possession This journey unfolds into even more realizations by the discovery of a frightening world that exists around us and sometimes in us that is capable of the destruction of lives of the innocent Even more than that was the discovery of the criminal minds manipulating these worlds to purposely destroy people and families that are targeted for destruction **Footsteps into the Light** Geoff Thomas, 2018-11-16 Footsteps into the Light introduces the reader to the idea of spirituality and religion in a wide range of topics from the incredible wonders of the everyday going into the spiritual journey in the hands of the pragmatic God of science and all creation Ultimately we are brought face to face with the reality of our everlasting journey With a background of engineering science and its practical application the author is able to take us on a voyage of spiritual discovery in the knowledge that what is so readily taken to be the paranormal and beyond understanding is really quite normal on the higher planes of realisation It is written in a chatty style as though the author a former teacher of the subject matter is talking to us

in a friendly manner in which we can be equally at ease while listening Presented from a Christian standpoint it welcomes all faiths as well as any without faith or belief There are passages of an interesting and complementary nature seemingly unaligned at first but most useful in a wider appreciation of the main theme all contained in thirty succinct chapters It is an excellent handbook for general reading and reference as well as for anyone seeking or already upon the pathway of discovery

Remarkable Healings Shakuntala Modi, 2025-09-12 Psychiatry remains an emerging discipline Many people suffer from ailments that have no apparent cause no obvious cure Quite by accident while using hypnotherapy Dr Modi discovered that pastlife regression can be a beneficial treatment Many of these patients under hypnosis claimed to have spirits attached to their bodies and energy fields creating psychological and physical problems Based on years of experience Dr Modi describes techniques that release these spirits revealing how patients can sometimes recover within a few sessions While most doctors would agree that emotional states affect our health few would give credence to spiritual influences In this truly groundbreaking book Dr Modi presents evidence that something beyond the physical affects the health of many people and urges medical scientists to objectively assess this revolutionary approach to mental and often physical illness Pioneers have the courage to put aside the status quo and evaluate what the evidence shows even if it defies the prevailing logic of the time Both physicians and the general public should explore the pioneering work of Dr Modi work which no doubt has produced many remarkable healings

Healing Lost Souls William J. Baldwin, 2025-09-12 For two decades William Baldwin has been a pioneer in the ever expanding therapeutic fields of Spirit Releasement Past Life Regression and Soul Mind Fragmentation In his Florida practice he uses these therapies routinely to help patients who suffer from Dissociative Trance and Dissociative Identity formerly called Multiple Personality Disorders

Healing Lost Souls explains the attributes of each therapy in everyday language and provides dozens of case studies to illustrate its clinical use. Likening his work to the ancient practice of shamanism, Baldwin has found that psychological disorders are often rooted in past life traumas, the interference of attached entities of various origins, and the fragmentation of one's soul. Baldwin stresses the importance of active patient participation throughout the stages of regression, as well as the need to treat encountered entities with respect, since they are often mere lost souls as bewildered and frightened as the patients themselves.

Daredevils and Daydreamers Barbara Ingersoll, 2010-12-29 Not so long ago, people thought attention deficit hyperactivity disorder was a condition that only affected children, whirling dervishes who careened through life leaving a path of destruction in their wake. We now know, however, that there is a sizeable group of quiet daydreamers whose inability to organize themselves and focus on the task at hand makes it impossible for them to meet the demands of everyday life. And we know that many children with ADHD continue to have symptoms as adults. But this increased knowledge has sometimes contributed more confusion than clarification. In *Daredevils and Daydreamers*, Ingersoll, one of the foremost clinicians and researchers in the field, looks at what we've learned in a decade. From obtaining a good diagnosis through the most recent cutting-edge medical and psychological solutions offered, Ingersoll's examples and research have an immediacy missing from the other books in the field. In addition, she tackles a number of peripheral issues other books ignore, such as the problem of the ADHD child in adoptive families, divorced families, and step families, and she handles real-world issues like soiling and bed wetting that others disregard.

Children of the Fifth World P. M. H. Atwater, 2012-10-24 Our species is evolving in preparation for the new world on the horizon. Explains how the increase in intuitive, creative, and abstract thinking abilities of children, as well as incidences of ADHD, dyslexia, and autism, signal evolutionary changes at work in humanity: the emergence of the Fifth Root Race. Connects the appearance of these traits with ancient myths and evolutionary calendars, as well as predictions by Teilhard de Chardin, Edgar Cayce, and other visionary seers. Reveals how these new kids act as agents for world change by reflecting back every misguided aspect of business, politics, religion, and culture. The past 30 years have seen a quantum leap in the intuitive, creative, and abstract thinking abilities of children, as well as an unprecedented rise in incidences of ADHD, dyslexia, and autism spectrum disorders. As P. M. H. Atwater explains, we are witnessing evolution at work. The changes in consciousness and brain function evident in these new kids signal the widespread emergence of the Fifth Root Race, and fortuitously coincide with our transition into the Fifth World. Providing a resource for parents and new kids themselves, Atwater explains what is happening to our species and our world from neurological changes and climate upheavals to the drive to be constantly connected through screen-based technology and the unnecessary widespread use of drug therapies. Sharing individual case histories underscoring the traits of the new child personality, she reveals how these children, born with universal consciousness encoded in their DNA, act as agents for world change by reflecting back every misguided aspect of business, politics, religion, entertainment, technology, and culture, so we can't ignore what needs to be

repaired Atwater shows how children labeled as autistic or otherwise damaged have enormous potential for greatness Connecting recent events and cultural shifts with creation myths evolutionary calendars and historical records from every culture as well as predictions by Teilhard de Chardin Sri Aurobindo Edgar Cayce and other visionary seers Atwater shows how the genetic shift now occurring follows the Rule of Thirds in its progression Exploring timelines for the next several hundred years she explains that the coming new world will be tailored specifically for the new kids who will lead the way in the Great Shift from old world to new
