Adler,2012-06-22

Over the past century humans have molded the Colorado River to serve their own needs resulting in significant impacts to the river and its ecosystems. Today many scientists, public officials and citizens hope to restore some of the lost resources in portions of the river and its surrounding lands. Environmental restoration on the scale of the Colorado River basin is immensely challenging. In addition to an almost overwhelming array of technical difficulties, it is fraught with perplexing questions about the appropriate goals of restoration and the extent to which environmental restoration must be balanced against environmental changes designed to promote and sustain human economic development. *Restoring Colorado River Ecosystems* explores the many questions and challenges surrounding the issue of large scale restoration of the Colorado River basin and of large scale restoration in general. Robert W. Adler evaluates the relationships among the laws, policies and institutions governing use and management of the Colorado River for human benefit and those designed to protect and restore the river and its environment. He examines and critiques the often challenging interactions among law, science, economics and politics within which restoration efforts must operate. Ultimately, he suggests that a broad concept of restoration is needed to navigate those uncertain waters and to strike an appropriate balance between human and environmental needs. While the book is primarily about restoration of Colorado River ecosystems, it is also about uncertainty, conflict, competing values and the nature, pace and implications of environmental change. It is about our place in the natural environment and whether there are limits to that presence we ought to respect. And it is about our responsibility to the ecosystems we live in and use.

Exploring the Colorado River John Wesley Powell, 2012-07-19 Powell's 1869 expedition was the first successful attempt to map the Colorado River. This volume assembles the explorer's journals, accounts and letters into a compelling day by day narrative.

Kinds of Winter Dave Olesen, 2014-12-05 A veteran dog musher, Dave Olesen finished the Iditarod Trail Sled Dog Race eight times. After a fifteen year career as a sled dog racer, Olesen set out to fulfill a lifelong dream. In four successive winters, he steered his dogs and sled on long trips away from his remote Northwest Territories homestead, setting out in turn to the south, east, north and west and home again to Hoarfrost River. His narrative ranges from the personal and poignant musings of a dogsled driver to loftier planes of introspection and contemplation. Olesen describes his journeys day by day, but this book is not merely an account of his travels. Neither is it yet another offering in the genre of wide-eyed southerner meets the Arctic, because Olesen is a firmly rooted northerner, having lived and travelled in the boreal outback for over thirty years. Olesen's life story colours his writing: educated immigrant, husband and father, professional dog musher, working bush pilot and denizen of log cabins far off the grid. He and his dogs feel at home in country lying miles back of beyond. This book demolishes many of the clichés that imbue writings about bush life: the Far North and dogsledding. It is a unique blend of armchair adventure, personal memoir and thoughtful, down-to-earth reflection.

Mountain Harmonies Howard L. Smith, 2004 This book is about adventures in nature, primarily in the mountains, and about how wildness touches the very depth of our being. The experiences I relive in this book occurred principally in the

mountains of New Mexico and bordering wild areas of Colorado but also in the Rocky Mountains of Wyoming and Montana as well as Washington in the Pacific Northwest Most of the events happened as I was walking hiking camping and backpacking

Pref Glen Canyon Dammed Jared Farmer,1999 Focusing on the saddening maddening example of Glen Canyon Jared Farmer traces the history of exploration and development in the Four Corners region discusses the role of tourism in changing the face of the West and shows how the invention of Lake Powell has served multiple needs He also seeks to identify the point at which change becomes loss How do people deal with losing places they love How are we to remember or restore lost places

Disaster Falls Stéphane Gerson,2017-01-24 A haunting chronicle of what endures when the world we know is swept away On a day like any other on a rafting trip down Utah s Green River St phane Gerson s eight year old son Owen drowned in a spot known as Disaster Falls That night as darkness fell St phane huddled in a tent with his wife Alison and their older son Julian trying to understand what seemed inconceivable It s just the three of us now Alison said over the sounds of a light rain and nearby the rushing river We cannot do it alone We have to stick together Disaster Falls chronicles the aftermath of that day and their shared determination to stay true to Alison s resolution At the heart of the book is an unflinching portrait of a marriage tested Husband and wife grieve in radically different ways that threaten to isolate each of them in their post Owen worlds He feels so far St phane says when Alison shows him a selfie Owen had taken He feels so close she says With beautiful specificity St phane shows how they resist that isolation and reconfigure their marriage from within As St phane navigates his grief the memoir expands to explore how society reacts to the death of a child He depicts the good death of his father which reveals an altogether different perspective on mortality He excavates the

history of the Green River rife with hazards not mentioned in the rafting company's brochures He explores how stories can both memorialize and obscure a person's life and how they can rescue us Disaster Falls is a powerful account of a life cleaved in two raw truthful and unexpectedly consoling *Rapture River* Robert Edward Smith, 2024-11-08 *Rapture River* Robert Edward Smith's first novel tracks the relationship of two lovers who are as unpredictable as Michigan's weather Josh a Catholic priest and Joyce a Native American meet at St Peter The Fisherman Catholic Church on the banks of the Black River a premier brook trout stream for fly fishing Each embraces their own spiritual heritage but struggles with an inner sensual demon They must prove strong enough to bridge that spiritual gap and assuage his guilt and her anguish over their coupling Their relationship is facilitated by Josh's 89 year old fly fishing mentor Ted and his Labrador Retriever Molly The Black River is the mainstream in their story but the novel is not mainstream The River and wilderness are presented as seen through the eyes of Joyce and Josh whose emotional attachment to their environs pulls the reader into their quest The author describes the wrenching action they encounter with captivating prose as this example when they are in the middle of the river in their waders For a long time they were alone until startled by a swish and loud flapping A hawk angled down directly above and dove with its wings held tight piercing the water like an arrow and disappearing under the surface then bursting up in a gush of spray with a large trout hooked in its talons The trout thrashed about fiercely slapping the river with its tail splashing a shower of water The hawk twisting to shake off the droplets let out a shrill scream and hovered momentarily just above water pounding its drenched wings and rising the trout clamped in its black claws The novel slips into fantasy fable and the enchantment of nature A murder a gambling casino a mission church of serpent handlers and accidental oil spills steal into the story seamlessly The author deftly manipulates these genres He inserts the thoughts of his characters through italicized stream of consciousness paragraphs and introduces each by a black silhouette image of an animal which represents that character as a butterfly or a hawk rendering the novel more reader friendly The novel fits into the little publicized genre of slipstream probably exemplified best by the writings of Jorge Luis Borges But there is no slipstream section at our current bookstores Even the main character the River is unpredictable sometimes harsh yet comforting even obedient Through a Kangaroo Court a medium of last resort the author deftly convinces his readers that this is the only fair trial available for the guilty party His readers will be intrigued and drawn into the story as if it were true *Rapture River* is a Romance a Murder Mystery an escapist Fable but above all a magical quest for fulfillment in our strange times *America* Fred Setterberg, 1999 A portrait of the nation through tales of travelers who have traversed the breadth and depth of America the beautiful *The Same River Twice* Michael D. Burke, 2006 In the summer of 1991 Michael Burke an experienced river guide embarks on a three week journey down a series of remote rivers in British Columbia Leaving behind his pregnant wife he embraces the perils of a voyage with a companion he barely knows in a raft that may not weather the trip He attempts to reconcile the shifting fates of his life his transition from river guide to husband father and academic At the same time he

hopes to explore his connection to a distant relative Sid Barrington who was a champion swiftwater pilot of the North in the late 19th and early 20th centuries As Burke contemplates what he and Sid may have had in common he meditates on the changing meaning of rivers and the impossibility of fully recovering the past In clear and graceful prose Burke blends Sid s colorful history with his own uncommon journey He also reflects upon the quick currents of time and the fierce passion he shares with Sid for the life of river running in Alaska and the west Unlike most river running books that often describe waterways in the lower forty eight states *The Same River Twice* introduces readers to rough austere and unfamiliar rivers in the northern wilderness Burke has an intimate understanding of these remote free flowing rivers He effectively captures the thrill of moving water the spirit of rivers and river canyons and the life of river guides This insightful memoir brings readers into a confluence of rivers where past and present merge revealing the power of wilderness and the truth about changing course
