Kosovo, A Documentary History Robert Elsie, Bejtullah D. Destani, 2018-01-30 The question of Kosovan sovereignty and independence has a history which stretches far back beyond the outbreak of war in 1998 This volume is a compilation of key documents on Kosovo from the first half of the twentieth century These texts including numerous diplomatic despatches from the British Foreign Office deal initially with the Albanian uprising against Ottoman rule in the spring of 1912 and in particular with the period of the Serbian invasion of Kosovo in late 1912 and the repercussions of the conquest for the Albanian population The documents from 1918 to the early 1920s focus mainly on endeavours by Albanian leaders including those of the so called Kosovo Committee in exile to bring the plight of their people to the attention of the outside world endeavours which largely failed Further documents reflect the situation in Kosovo up to the outbreak of World War II This collection provides new perspectives on the Kosovo question and includes many documents which have been largely unavailable up to now It sheds new light on many of the major and minor episodes that channelled and determined subsequent events including the Kosovo War of 1998 1999 and the declaration of independence in February 2008

Military Review, 2000 *Parameters*, 2000

Kosovo Liberation Army Henry H. Perritt, 2010-10-01 The military intervention by NATO in Kosovo was portrayed in American media as a necessary step to prevent the Serbian armed forces from repeating the ethnic cleansing that had so deeply damaged the former Yugoslavia Serbia trained its military on Kosovo because of an ongoing armed struggle by ethnic Albanians to wrest independence from Serbia Warfare in the Balkans seemed to threaten the stability of Europe as well as the peace and security of Kosovars and yet armed resistance seemed to offer the only possibility of future stability Leading the struggle against Serbia was the Kosovo Liberation Army also known as the KLA Kosovo Liberation Army The Inside Story of an Insurgency provides a historical background for the KLA and describes its activities up to and including the NATO intervention Henry H Perritt Jr offers firsthand insight into the motives and organization of a popular insurgency detailing the strategies of recruitment training and financing that made the KLA one of the most successful insurgencies of the post cold war era This volume also tells the personal stories of young people who took up guns in response to repeated humiliation by foreign occupiers as they perceived the Serb police and intelligence personnel Perritt illuminates the factors that led to the KLA's success including its convergence with political developments in eastern Europe its campaign for popular support both at home and abroad and its participation in international negotiations and a peace settlement that helped pave the long road from war to peace

Ethnic Bargaining Erin K. Jenne, 2014-05-29 In *Ethnic Bargaining* Erin K. Jenne introduces a theory of minority politics that blends comparative analysis and field research in the postcommunist countries of East Central Europe with insights from rational choice Jenne finds that claims by ethnic minorities have become more frequent since 1945 even though nation states have been on the whole more responsive to groups than in earlier periods Minorities that perceive an increase in their bargaining power will tend to radicalize their demands she argues from affirmative action to regional autonomy to secession in an effort to attract ever greater concessions from the central government The language of self-determination and minority rights originally adopted by the Great Powers to redraw boundaries after World War I was later used to facilitate the process of decolonization Jenne believes that in the 1960s various ethnic minorities began to use the same discourse to pressure national governments into transfer payments and power sharing arrangements Violence against minorities was actually in some cases fueled by this politicization of ethnic difference Jenne uses a rationalist theory of bargaining to examine the dynamics of ethnic cleavage in the cases of the Sudeten Germans in interwar Czechoslovakia Slovaks and Moravians in postcommunist Czechoslovakia the Hungarians in Romania Slovakia and Vojvodina and the Albanians in Kosovo Throughout *Ethnic Bargaining* she challenges the conventional wisdom that partisan intervention is an effective mechanism for protecting minorities and preventing or resolving internal conflict

Stealth Fighter William B. O'Connor, 2012-04-15 An engaging look into the culture of those who fly high-tech fighters and bombers and one pilot's personal account of his career in the cockpit The F-117 Stealth Nighthawk was a truly groundbreaking aircraft when introduced in the early 1980s The strange shape of the jet all flat panels and angles rendered the aircraft nearly invisible to radar This highly classified program wasn't acknowledged publicly by the U.S. Air Force until 1988 The Nighthawk was retired in 2008 after twenty-five years of service including bombing missions over Panama Iraq during both Gulf Wars and Yugoslavia during the Kosovo war Brad O'Connor flew the Nighthawk during the NATO bombing campaign over Kosovo in 1999 His first-person experience puts the reader in the cockpit of this revolutionary combat aircraft From his F-117 assignment through training deployment mission planning and combat flights O'Connor relates the day-to-day life of a pilot in the world's first stealth fighter

Governments, Citizens, and Genocide Alex Alvarez, 2001-02-22 *Governments, Citizens, and Genocide* A Comparative and Interdisciplinary Approach Alex Alvarez A comprehensive analysis demonstrating how whole

societies come to support the practice of genocide Alex Alvarez has produced an exceptionally comprehensive and useful analysis of modern genocide It is perhaps the most important interdisciplinary account to appear since Zygmunt Bauman's classic work *Modernity and the Holocaust* Stephen Feinstein Director Center for Holocaust and Genocide Studies Alex Alvarez has written a first rate propaedeutic on the running sore of genocide The singular merit of the work is its capacity to integrate a diverse literature in a fair minded way and to take account of genocides in the post Holocaust environment ranging from Cambodia to Serbia The work reveals patterns of authoritarian continuities of repression and rule across cultures that merit serious and widespread public concern Irving Louis Horowitz Rutgers University More people have been killed in 20th century genocides than in all wars and revolutions in the same period Recent events in countries such as Rwanda and the former Yugoslavia have drawn attention to the fact that genocide is a pressing contemporary problem one that has involved the United States in varying negotiating and peace keeping roles Genocide is increasingly recognized as a threat to national and international security as well as a source of tremendous human suffering and social devastation Governments Citizens and Genocide views the crime of genocide through the lens of social science It discusses the problem of defining genocide and then examines it from the levels of the state the organization and the individual Alex Alvarez offers both a skillful synthesis of the existing literature on genocide and important new insights developed from the study of criminal behavior He shows that governmental policies and institutions in genocidal states are designed to suppress the moral inhibitions of ordinary individuals By linking different levels of analysis and comparing a variety of cases the study provides a much more complex understanding of genocide than have prior studies Based on lessons drawn from his analysis Alvarez offers an important discussion of the ways in which genocide might be anticipated and prevented Alex Alvarez is Associate Professor in the Department of Criminal Justice at Northern Arizona University His primary research interests are minorities crime and criminal justice as well as collective and interpersonal violence He is author of articles in *Journal of Criminal Justice* *Social Science History* and *Sociological Imagination* and is currently writing a book on patterns of American murder April 2001 240 pages 6 1 8 x 9 1 4 bibl index cloth 0 253 33849 2 29 95 s 22 95 Contents The Age of Genocide A Crime By Any Other Name Deadly Regimes Lethal Cogs Accommodating Genocide Confronting Genocide

Hybrid and Internationalised Criminal Tribunals Sarah Williams, 2012-04-02 In recent years a number of criminal tribunals have been established to investigate prosecute and try individuals accused of serious violations of international humanitarian law and international human rights law These tribunals have been described as hybrid or internationalised tribunals as their structure and applicable law consist of both international and national elements Six such tribunals are currently in operation the Special Court for Sierra Leone the Extraordinary Chambers in the Courts of Cambodia the International Judges and Prosecutors Programme in Kosovo the War Crimes Chamber for Bosnia and Herzegovina the Iraqi High Tribunal and the Special Tribunal for Lebanon The Special Panels for Serious Crimes in East Timor suspended operation in May 2005 although

there continues to be some international involvement in investigation and prosecution of serious crimes. Suggestions have also been made that this model of tribunal would be appropriate for the prosecution of atrocities committed in among others Burundi the Sudan the Democratic Republic of Congo Kenya and Liberia as well as for a wider range of international crimes most recently piracy. The key aims of this book are to place the model of hybrid and internationalised tribunals in the context of other mechanisms to try international crimes to examine the increasing demand for the establishment of hybrid and internationalised judicial institutions and the factors driving such demand to define the category of hybrid and internationalised tribunals by examining the key features of the existing and proposed hybrid or internationalised tribunals as well as the features of those institutions with international elements that are generally excluded from this category to determine the legal and jurisdictional bases of existing hybrid and internationalised tribunals to analyse how the legal and jurisdictional basis of a tribunal affects other issues such as the applicable law the application of amnesties and immunities and the relationship of the tribunal with the host state third states national courts and other international criminal tribunals. The book concentrates on the definitional legal and jurisdictional aspects of hybrid and internationalised criminal tribunals as this has been the subject of some confusion in arguments before the tribunals and in the judgments of the tribunals. In its concluding section the book examines the future role of internationalised and hybrid criminal tribunals particularly in light of the establishment of the ICC and the potential use of such tribunals in other contexts. It also assesses how hybrid and internationalised tribunals fit into a multi layered framework of international criminal law and transitional justice.

Just War or Just Peace? Simon Chesterman, 2001-01-25. The question of the legality of humanitarian intervention is at first blush a simple one. The Charter of the United Nations clearly prohibits the use of force with the only exceptions being self defence and enforcement actions authorized by the Security Council. There are however long standing arguments that a right of unilateral intervention pre existed the Charter. This book which won the ASIL Certificate of Merit in 2002 begins with an examination of the genealogy of that right and arguments that it might have survived the passage of the Charter either through a loophole in Article 2 4 or as part of customary international law. It has also been argued that certain illegitimate regimes lose the attributes of sovereignty and thereby the protection given by the prohibition of the use of force. None of these arguments is found to have merit either in principle or in the practice of states. A common justification for a right of unilateral humanitarian intervention concerns the failure of the collective security mechanism created after the Second World War. Chapters 4 and 5 therefore examine Security Council activism in the 1990s notable for the plasticity of the circumstances in which the Council was prepared to assert its primary responsibility for international peace and security and the contingency of its actions on the willingness of states to carry them out. This reduction of the Council's role from substantive to formal partly explains the recourse to unilateralism in that decade most spectacularly in relation to the situation in Kosovo. Crucially the book argues that such unilateral enforcement is not a substitute for but the opposite of

collective action Though often presented as the only alternative to inaction incorporating a right of intervention would lead to more such interventions being undertaken in bad faith it would be incoherent as a principle and it would be inimical to the emergence of an international rule of law

Serbia in the Shadow of Milosevic Janine N. Clark, 2008-09-30 Since the regime of Slobodan Milosevic was spectacularly overthrown on 5 October 2000 little has been written about subsequent political developments in Serbia The perception of Milosevic as a criminal leader who plunged the former Yugoslavia into bloodshed and used violence to achieve his aims is not widely disputed among Western observers However to what extent is this view of Milosevic shared by people in Serbia Here Janine Clark offers insights into and an understanding of this troubled country She argues that many Serbs do not regard Milosevic as a criminal leader but rather as a bad leader whose greatest crimes were against his own people This has important implications for how Serbia deals with its past and for reconciliation and peace building in the former Yugoslavia

Historical Dictionary of Kosova Robert Elsie, 2004 Kosova or Kosovo is a dependent region of Serbia part of the former country of Yugoslavia It was part of the province of Dalmatia in the Austro-Hungarian Empire before 1919
