Rob Ebays Urbanism Colonial:

Colonial Cities R.J. Ross, Gerard J. Telkamp, 2012-12-06 by ROBERT ROSS and GERARD J TELKAMP I In a sense cities were superfluous to the purposes of colonists The Europeans who founded empires outside their own continent were primarily concerned with extracting those products which they could not acquire within Europe These goods were largely agricultural and grown most often in a climate not found within Europe Even when as in India before 1800 the major exports were manufactures in general they were still made in the countryside rather than in the great cities It was only on rare occasion when great mineral wealth was discovered that giant metropolises grew up around the site of extraction Since their location was determined by geology not economics they might be in the most inaccessible and inconvenient areas but they too would draw labour off from the agricultural pursuits of the colony as a whole From the point of view of the colonists the cities were therefore in some respects necessary evils as they were parasites on the rural producers competing with the colonists in the process of surplus extraction Nevertheless the colonists could not do without cities The requirements of colonisation demanded many unequivocally urban functions Pre eminent among these was of course the need for a port to allow the export of colonial wares and the import of goods from Europe or from other parts of the non European world in the country trade as it was known around India

Colonial cities : essays on urbanism in a colonial context Robert J. Ross, 1985

Of Planting and Planning Robert K. Home, 2013 At the centre of the world economy one always finds an exceptional state strong aggressive and privileged dynamic simultaneously feared and admired Fernand Braudel Civilization and Capitalism 15th 18th Centuries This surely is an apt description of the British Empire at its zenith Of Planting and Planning explores how Britain used the formation of towns and cities as an instrument of colonial expansion and control throughout the Empire Beginning with the seventeenth century plantation of Ulster and ending with decolonization after the Second World War Robert Home reveals how the British Empire gave rise to many of the biggest cities in the world and how colonial policy and planning had a profound impact on the form and functioning of those cities This second edition retains the thematic chronological and interdisciplinary approach of the first each chapter identifying a key element of colonial town planning New material and illustrations have been added incorporating the author's further research since the first edition Most importantly Of Planting and Planning remains the only book to cover the whole sweep of British colonial urbanism
