Robert Motherwell 2nd Edition New Revised:

Robert Motherwell, Abstraction, and Philosophy Robert Hobbs, 2020-06-07 Employing an interdisciplinary approach this book breaks new ground by considering how Robert Motherwell's abstract expressionist art is indebted to Alfred North Whitehead's highly original process metaphysics. Motherwell first encountered Whitehead and his work as a philosophy graduate student at Harvard University and he continued to espouse Whitehead's processist theories as germane to his art throughout his life. This book examines how Whitehead's process philosophy inspired by quantum theory and focusing on the ongoing ingenuity of dynamic forces of energy rather than traditional views of inert substances set the stage for Motherwell's future art. This book will be of interest to scholars in twentieth century modern art philosophy of art and aesthetics and art history.

The Writings of Robert Motherwell Robert Motherwell, 2023-11-15 Robert Motherwell 1915-1991 one of the leading American Abstract Expressionist painters was also a theorist and exponent of the movement. His writing articulated the intent of the New York school: Jackson Pollock, Willem de Kooning, Adolph Gottlieb, Franz Kline, Arshile Gorky and others during a period when their work was often reviled for its departure from traditional representation. As founder of the Documents of Modern Art series later renamed the Documents of Twentieth Century Art, Motherwell gave modern artists a voice at a time when very few people understood their theories or work. This authoritative new edition of the artist's writings about art includes public lectures, essays and interviews. Impeccably edited with an informative introductory essay and rigorous annotation, it is illustrated with black and white images that elucidate Motherwell's writings. Robert Motherwell 1915-1991 one of the leading American Abstract Expressionist painters was also a theorist and exponent of the movement. His writing articulated the intent of the New York school: Jackson Pollock, Willem de Kooning, Adolph Gottlieb, F. Robert Motherwell On Paper Robert Motherwell, 1997 The Abstract Expressionist artist Robert Motherwell 1915-1991 was best known as a painter but he also created a remarkable body of works on paper. The drawings, prints and collages in this book show a more intimate side of his visual sensibility; they reveal the very personal handwriting of the artist as he responded to the subtleties of paper both as a medium and a material. Motherwell was in fact a most extraordinary draftsman as this volume testifies. Reproduced in color and in a generous format are more than a hundred of the artist's finest works on paper. The book is published to accompany an exhibition at the Miriam and Ira D. Wallach Art Gallery at Columbia University, an exhibition that was conceived and developed in discussions with the artist during the final year of his life. For this celebration of Motherwell's creative legacy, David Rosand has gathered a distinguished group of contributors. Together their essays on different aspects of Motherwell's work create a complex picture of a multifaceted artist. **Conceptual Art After**

Modernism Robert Bailey, 2025-05-30 This study provides a new interpretation of art after modernism by foregrounding the importance of conceptual thinking as a pervasive force for change in art and art history since 1950. means to reassess what art could be and do in the world Bailey assesses the results of artful and scholarly inquiries combining creative activity with intellectual rigor to proffer new approaches to a variety of social and environmental concerns ranging from questions about human identity including race class gender and sexuality to activist efforts to redress everything from abortion access to migrants rights to climate change This book provides both a historical overview of these developments and close analyses of key works and texts spanning 1950 to the present and encompassing broad geographic scope with special attention paid to Indigenous art The book will be of interest to scholars working in art history and contemporary art

Unseparate Steven Henry Madoff, 2025-10-21 Art historian and critic Steven Henry Madoff offers a contemporary reframing of modernist art and the way it presages installation and performance art For more than a century European modernist art has been written about as a profound expression of fragmentation of an alienated world in pieces In Unseparate Steven Henry Madoff proposes that there was always another artistic intention present among the modernists offering visions of wholeness in the face of the instability and alienation brought on by war and new technologies Blending history philosophy and media theory Madoff argues that from the mid nineteenth century when Richard Wagner championed his idea of the Gesamtkunstwerk the total work of art to the rise of the Bauhaus the urge to connect different art forms into single unified works anticipates our contemporary networked culture Madoff revisits the artworks and projects of such leading figures of European modernism as Paul C zanne Marcel Duchamp Hugo Ball and Walter Gropius proposing that their various ambitions for totality were both aesthetically beneficent and politically dangerous This striking contemporary rethinking gives readers a way to understand modernism s complex history more fully Modernism seen through the lens of network aesthetics and its emphasis on interconnectivity presages many different forms of contemporary art including installation and performance art Further as Madoff reveals the modernist drive for wholeness and unity can give us a way to look at our own increasingly divisive society *Catalog of Copyright Entries. Music and Sound Art in the 21st Century Thomas Bey William Bailey, 2012-12-10 Micro Bionic is an exciting survey of electronic music and sound art from cultural critic and mixed media artist Thomas Bey William Bailey This superior revised edition includes all of the original supplements neglected by the publishers of the first edition including a full index bibliography additional notes commentary and an updated discography As the title suggests the unifying theme of the book is that of musicians and sound artists taking bold leaps forward in spite of or sometimes because of their financial technological and social restrictions Some symptoms of this condition include the gigantic discography amassed by the one man project Merzbow the drama of silence enacted by onkyo and New Berlin Minimalism the annihilating noise transmitted from the humble laptop computers of Russell Haswell and Peter Rehberg and much more besides Although the journey begins in the Industrial 1980s in order to trace how the innovations of that period have gained greater currency in the present it surveys a wide array of artists breaking ground in the 21st century with radical attitudes and techniques A healthy amount of global travel and concentrated listening have combined to make this a sophisticated yet accessible document unafraid to explore both the transgressive extremes of this culture and the more deftly concealed interstices thereof Part historical document

part survival manual for the marginalized electronic musician part sociological investigation Micro Bionic is a number of different things and as such will likely generate a variety of reactions from inspiration to offense Numerous exclusive interviews with leading lights of the field were also conducted for this book William Bennett Whitehouse Peter Christopherson r i p Throbbing Gristle Coil Peter Rehberg John Duncan Francisco Lopez Carl Michael von Hausswolff Bob Ostertag Zbigniew Karkowski and many others weigh in with a diversity of thoughts and opinions that underscore the incredible diversity to be found within new electronic music itself
