Historical Sketches of North Carolina John Hill Wheeler, 1851 *America'S Forgotten Caste* Rodney Barfield, 2013-05-14

Free blacks in antebellum America lived in a twilight world of oppressive laws and customs designed to suppress their mobility and their integration into civil society Free blacks were free only to the extent of white tolerance in their community or town They were at the mercy of the lowest members of the dominant race who could punish them on a whim They were in the words of a 19th century European traveler to America masterless slaves Nonetheless many successful and even prominent blacks emerged from the mire of oppressive laws and general public disdain to realize major achievements Though excluded from the political process from education and from most professions they became preachers teachers missionaries contractors artisans boat captains and wealthy entrepreneurs Members of this twilight social and legal class which numbered nearly a half million by 1860 made great accomplishments against strong opposition in the first half of the 19th century The history of America and of American slavery is woefully incomplete without their story
