The Modern History of Mongolia Charles R. Bawden,2013-10-28 First published in 2004 The Mongols are one of the great peoples in the history of High Asia Their name has been familiar over the whole of the old world for close on eight hundred years Yet at the most generous estimate it would be anachronistic to speak of a Mongol state in the modern sense of the word as existing before the end of 1911 The imperial adventure under Genghis Khan and his successors left the Mongols exhausted and disunited politically and in the seventeenth century they fell piecemeal under Manchu domination which continued for over two hundred years This study looks at the Mongol society as it was during the comparatively static two centuries between the final submission to the Manchus in 1691 and the national revolution of 1911 The second part of the book describes the dynamic course of events since that revolution and more especially since the second Soviet inspired revolution which began in 1921

The End of Modern History in the Middle East Bernard Lewis,2013-09-01 Bernard Lewis looks at the new era in the Middle East With the departure of imperial powers the region must now on its own resolve the political economic cultural and societal problems that prevent it from accomplishing the next stage in the advance of civilization There is enough in the traditional culture of Islam on the one hand and the modern experience of the Muslim peoples on the other he explains to provide the basis for an advance toward freedom in the true sense of that word
