Lankina, 2021-12-16 A devastating challenge to the idea of communism as a great leveller this extraordinarily original rigorous and ambitious book debunks Marxism inspired accounts of its equalitarian consequences It is the first study

systematically to link the genesis of the bourgeoisie cum middle class Imperial Soviet and post communist to Tzarist estate institutions which distinguished between nobility clergy the urban merchants and meshchane and peasants It demonstrates how the pre communist bourgeoisie particularly the merchant and urban commercial strata but also the high human capital aristocracy and clergy survived and adapted in Soviet Russia Under both Tzarism and communism the estate system engendered an educated autonomous bourgeoisie and professional class along with an oppositional public sphere and persistent social cleavages that continue to plague democratic consensus This book also shows how the middle class conventionally bracketed under one generic umbrella is often two pronged in nature one originating among the educated estates of feudal orders and the other fabricated as part of state induced modernization *The Emancipation of the Serfs in Russia* Roxanne Easley,2008-08-28 In the wake of the disastrous Crimean War the Russian autocracy completely renovated its most basic social political and economic systems by emancipating 23 million privately owned serfs This book examines the emancipation describing how the reforms were instituted in practice and exploring the profound implications for Russian politics and society **The History of Russia from 1801 to the Present** Rosina Beckman,2018-07-01 In the slightly more than two centuries since the dawn of the nineteenth century Russia has undergone sweeping changes several times over Readers will learn about the tension between reform and autocracy that marked the nineteenth century World War I and the fall of the last tsar and the rise of the USSR They will examine the USSR s time as a twentieth century superpower the fall of communism and Russia s current power plays for global influence Sidebars provide extra information while historical photographs let readers see the figures and events that shaped Russian history with their own eyes **Economic History of a Divided Europe** Ivan T. Berend,2020-02-28 This book presents the sharp regional differences within the integrating European continent Four regions Northwestern Europe Southern Europe Central Europe and Eastern Southeastern Europe represent high medium and relatively less developed levels of economic advancement These disparities have emerged as a result of historical differences that produced and reinforced cultural and behavioral differences The author examines the distinctions between the regions looks at how these differences transpired and became so retrenched and answers the question of why some countries were able to elevate to higher levels of economic development while others could not This book is unique in that it provides a timely historical analysis of the main causes of the most pressing conflicts in Europe today Readers will come away from this book with a deeper understanding of the sharp divergence in economic standing between the four different regions of Europe as well as knowledge about how institutional corruption and other cultural features exacerbated these variations The book also offers a better understanding of major European Union conflicts between member countries and between member and nonmember countries as well as the rise of autocratic regimes in certain countries The book begins with a short history of European integration throughout European civilization and then goes on to discuss the modern reality of integration and attempts to homogenize the Continent that divided into four different macro

Emancipation Peter Kolchin, 2024-09-10 In this sequel to his landmark study historian Peter Kolchin compares the transition to freedom after American emancipation with the Russian Great Reforms The two largest transitions from unfree to free labor of the many that occurred in Europe and the Americas during the nineteenth century took place in the United States and in Russia Both occurred in the 1860s and in both the former slaves and serfs strove to maximize their autonomy and freedom while the former masters worked to preserve as many of their prerogatives as possible Both were partially but only partially successful

In this magisterial and long awaited work historian Peter Kolchin shows that a more radical break with the past was possible in the United States than in Russia with the Southern freedpeople coming to enjoy republican citizenship whereas Russian peasants remained subjects rather than citizens Both countries saw conservative reactions triumph in the late nineteenth century While this conservatism was common in most emancipations it was especially strong in Russia and the American South in part as a reaction against the major efforts to restructure the social order that went by the name of Reconstruction in the United States and the Great Reforms in Russia
