Maria Popova, Oxana Shevel

Russian Presidency Society And Politics In The Second Russian Republic:

The Russian Presidency T. Nichols, 2015-12-22 Why has Russian democracy apparently survived and even strengthened under a presidential system when so many other presidential regimes have decayed into authoritarian rule And what are the origins of presidential power in modern Russia Thomas M Nichols argues that the answer lies in the relationship between political institutions and trust where society and consequently politics is fractious and divided structural safeguards inherent in presidentialism actually serve to strengthen democratic behavior The Russian presidency is not the cause of social turmoil in Russia but rather a successful response to it This book s emphasis on the social origins of Russian politics explains not only the unexpected survival of Russian democracy but encourages a reconsideration of the relationship between institutions social conditions and democracy

The Russian Presidency Thomas M. Nichols, 1999 Why has Russian democracy apparently survived and even strengthened under a presidential system when so many other presidential regimes have decayed into authoritarian rule And what are the origins of presidential power in modern Russia Thomas M Nichols argues that the answer lies in the relationship between political institutions and trust where society and consequently politics is fractious and divided structural safeguards inherent in presidentialism actually serve to strengthen democratic behaviour The Russian presidency is not the cause of social turmoil in Russia but rather a successful response to it This book s emphasis on the social origins of Russian politics explains not only the unexpected survival of Russian democracy but encourages a reconsideration of the relationship between institutions social conditions and democracy

Russian Politics and Society Richard Sakwa, 2020-08-16 Fully revised and updated to reflect the considerable changes in Russia over the last decade the fifth edition of this classic text builds on the strengths of previous editions to provide a comprehensive and sophisticated analysis of Russian politics and society The new edition incorporates the latest debates about Russian politics analysing recent institutional and political developments and examines the electoral cycle and prospects of the president elected at the end of the process New to this edition an evaluation of Putin s leadership and the country s political performance under him updated election results and demographic social ethnic national statistics to include results of the 2010 census changes in the party system to electoral legislation and to the composition of parliament as well as the relationship between the executive and legislature coverage of the constitutional changes and governmental appointments under the various prime ministers more analysis of economic performance including discussion of the energy sector and pipeline politics changes in Russian foreign policy since EU enlargement its relationship with NATO since the reset as well as its relations with post Soviet states assessment of the military reforms and security and defence policy debates over the question of democracy in Russia today the nature of the system and its future prospects Written in an accessible and lively style this book is packed with detailed information on the central debates and issues in Russia s difficult transformation An unrivalled textbook on the subject it is essential reading for all those concerned with the fate of Russia and with the future of

international society **Russian Politics and Presidential Power** Donald R. Kelley, 2016-10-05 Russian Politics and Presidential Power takes an in depth look at the Russian presidency and uses it as a key to understanding Russian politics Donald R Kelley looks at presidents from Gorbachev to Putin as authoritarian transformational leaders who set out to build the future while sometimes rejecting and reinterpreting the work of past modernizers Placing the presidency in this context helps readers understand both the disintegration of the Soviet Union and the nature of the Russian Federation that rose in its place And by setting the presidency within a longer historical context Kelley shows how the future of the presidency is dependent on other features of the political system **Routledge Handbook of Russian Politics and Society** Graeme Gill, James Young, 2013-03 There is an ever burgeoning number of books analyzing the Russian experience or aspects of it This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature points to research trends and identifies issues that remain to be resolved Offering focused studies of the key elements of Russian social and political life the book is organized into the following broad themes General introduction Political institutions Political Economy Society Foreign Policy Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook seeks to answer questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption and the creation of a market economy Providing a comprehensive resource for scholars and policy makers alike this book is an important contribution to the study of Russian Studies Eastern European studies and International Relations **Private and Civil Law in the Russian Federation** William B. Simons, 2009-05-20 The chapters in this volume are from two Leiden conferences There distinguished scholars and practitioners from Russia and the Far Abroad measured the winds of change in the field of private law in post Soviet Russia enormous differences from the Soviet period crucial in supporting post Soviet changes toward freedom of choice in the marketplaces of goods services ideas and political institutions This volume will enable the reader to further chart the progress made in Russia and the region in the revitalization of private and civil law and its impact upon practice and comparative legal studies and to appreciate the role which the distinction between the public and private sectors is seen as playing in the process **Developments in Russian Politics 5** Stephen White, Alex Pravda, Zvi Y. Gitelman, 2001 Russia has a new parliament and a new president and the shape of its future political life remains uncertain Taking the elections of 1999 and 2000 as their starting point the contributors to Developments in Russian Politics 5 describe the institutional framework of the post Yeltsin system and examine the policy choices that confront the Putin administration This completely revised edition includes new discussions of such topics as media and political communication crime and corruption and Russia s continuing search for a national idea Other sections cover elections and

electoral procedures parties and organized interests as well as economic social and foreign policy Written by leading scholars from both sides of the Atlantic *Developments in Russian Politics* 5 will replace earlier editions as the leading text for students of Russia and for a wider group of readers seeking a reliable and up to date introduction to the politics of the world s largest country

Russia's Regions and Comparative Subnational Politics William Mark Reisinger, 2013 Subnational political units are growing in influence in national and international affairs drawing increasing scholarly attention to politics beyond national capitals In this book leading Russian and Western political scientists contribute to debates in comparative politics by examining Russia s subnational politics Beginning with a chapter that reviews major debates in theory and method this book continues to examine Russia s 83 regions exploring a wide range of topics including the nature and stability of authoritarian regimes federal politics political parties ethnic conflict governance and inequality in a comparative perspective Providing both qualitative and quantitative data from 20 years of original research the book draws on elite interaction public opinion and the role of institutions regionally in the post Soviet years The regions vary on a number of theoretically interesting dimensions while their federal membership provides control for other dimensions that are challenging for globally comparative studies The authors demonstrate the utility of subnational analyses and show how regional research can help answer a variety of political questions providing evidence from Russia that can be used by specialists on other large countries or world regions in cross national scholarship Situated within broader theoretical and methodological political science debates this book will be of interest to students and scholars of Russian politics comparative politics regionalism and subnational politics

The 1999-2000 Elections in Russia Vicki L. Hesli, William M. Reisinger, 2003-08-18 Sample Text

IBSS Compiled by the British Library of Political and Economic Science, 2001 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Slavic Review, 2002 American quarterly of Soviet and East European studies varies

Regional Economic Voting Joshua A. Tucker, 2006-01-09 This study demonstrates that in a time of massive change characterized by the emergence of entirely new political systems and a fundamental reorganization of economic life systematic patterns of economic conditions affecting election results at the aggregate level can in fact be identified during the first decade of post communist elections in five post communist countries Russia Poland Hungary Slovakia and the Czech Republic A variety of theoretical arguments concerning the conditions in which these effects are more or less likely to be present are also proposed and tested Analysis is conducted using an original data set of regional level economic demographic and electoral indicators and features both broadly based comparative assessments of the findings across all twenty elections as well as more focused case study analyses of pairs of individual elections

The State After Communism Timothy J. Colton, Stephen Holmes, 2006 The Soviet dictatorship was a strong state committed to dominating and transforming society in the name of a utopian ideology When the communist regime crumbled and the post

Soviet countries committed to democracy most observers took for granted that their state structures would be effective agents of the popular will Russia's experience demonstrates that this assumption was overly optimistic This book based on a major collaborative research project with American and Russian scholars shows that state capacity strength and coherence were highly problematic after communism which had major consequences for particular functions of government and for the entire process of regime change Eleven respected contributors examine governance in post Soviet Russia in comparative context investigating the roots characteristics and consequences of the crisis as a whole and its manifestations in the specific realms of tax collection statistics federalism social policy regulation of the banks currency exchange energy policy and parliamentary oversight of the bureaucracy *Modernisation in Russia since 1900* Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia **Russia and Ukraine** Maria Popova, Oxana Shevel, 2023-11-08 In February 2022 Russian missiles rained on Ukrainian cities and tanks rolled towards Kyiv to end Ukrainian independent statehood President Zelensky declined a Western evacuation offer and Ukrainians rallied to defend their country What are the roots of this war which has upended the international legal order and brought back the spectre of nuclear escalation How did these supposedly brotherly peoples become each other's worst nightmare In Russia and Ukraine Entangled Histories Diverging States Maria Popova and Oxana Shevel explain how since 1991 Russia and Ukraine diverged politically ending up on a collision course Russia slid back into authoritarianism and imperialism while Ukraine consolidated a competitive political system and pro European identity As Ukraine built a democratic nation state Russia refused to accept it and came to see it as an anti Russia project After political and economic pressure proved ineffective and even counterproductive Putin went to war to force Ukraine back into the fold of the Russian world Ukraine resisted determined to pursue European integration as a sovereign state These irreconcilable goals rather than geopolitical wrangling between Russia and the West

over NATO expansion are the authors argue essential to understanding Russia's war on Ukraine Global Studies: Russia, the Eurasian Republics and Central/Eastern Europe Minton Goldman, 2007-03-13 Our GLOBAL STUDIES Series provides students with comprehensive background and current information shaping regional cultures and countries of the world today Each volume features country report essays and maps as well as relevant articles from world wide publications Visit our website for more information and a complete listing of titles www.mhcls.com/globalstudies The Transition to National Armies in the Former Soviet Republics, 1988-2005 Jesse Paul Lehrke, 2013-01-03 This book looks at the militaries of the late Soviet and post Soviet republics Beginning with the end of the Soviet era it recognises that the successor states did not spring from nowhere but inherited a legacy that influenced all that followed The book discusses how politicians control the instruments that are the manifestation of the state's monopoly on violence and how society views and supports the military By taking a bottom up empirical approach that examines the personnel leaders organisations and institutions and their outlook and attitudes the book presents a comprehensive picture of the armed forces showing how the armed forces are very significantly shaped by the surrounding political and social environment The book goes on to examine the armed forces in action and highlights that to truly understand the militaries studies need to go beyond looking at the static structures

Russian Politics Zoltan D. Barany, Robert G. Moser, 2001-08-27 What went wrong in Russia's decade old post communist transition A group of leading young scholars answer this question by offering assessments of five crucial political arenas during the Yeltsin era elections executive legislative relations interactions between the central state and the regions economic reforms and civil military relations All of the contributors recognize that adverse historical legacies have complicated Russian democratization They challenge structural explanations that emphasize constraints of the pre existing system however and concentrate instead on the importance of elite decisions and institution building The authors agree that elites failure to develop robust political institutions has been a central problem of Russia's post communist transition The weakness of the state and its institutions has contributed to a number of serious problems threatening democratic consolidation These include the tensions between the executive and the legislature the frail infrastructure for successful market reform and the absence of proper civilian control over the armed forces *Putin* Richard Sakwa, 2007-11-13 The new edition of this extremely well received political biography of Vladimir Putin builds on the strengths of the first edition to provide the most detailed and nuanced account of the man his politics and his profound influence on Russian politics foreign policy and society New to this edition analysis of Putin's second term as President more biographical information in the light of recent research detailed discussion of changes to the policy process and the lites around Putin developments in state society relations including the conflicts with oligarchs such as Khodorkovsky review of changes affecting the party system and electoral legislation including the development of federalism in Russia details on economic performance under Putin including more discussion of the energy sector and pipeline politics Russia's relationship with NATO after the big bang

enlargement EU Russian relations after enlargement and Russia's relations with other post Soviet states the conclusion brings us up to date with debates over the question of democracy in Russia today and the nature of Putin's leadership and his place in the world Putin is essential reading for all scholars and students of Russian politics Putin Redux Richard Sakwa, 2014-05-23 This book builds on the strengths of the previous volumes by the same author to provide the most detailed and nuanced account of the man his politics and his profound influence on Russian politics foreign policy and society However this is not a new edition of the earlier books but is an entirely new work The focus now is on the dilemmas of power since 2008 There is a brief biographical sketch of Vladimir Putin and much analysis of his ideas and policies but the book now focuses on the systemic contradictions that have created a blockage on modernisation and a stalemate in politics Putin's role as Prime Minister since 2008 and his political successes and failures analysis of the implications of Putin's third term as President and the 2011-12 electoral cycle and the ensuing crisis which led to thousands protesting on the streets This work assesses the achievements and failing of Putin's rule but above all tries to make sense of contemporary developments This is the definitive account of Putin and is essential reading for all scholars and students of Russian politics
