## **Russian Thinkers:**

*Russian Thinkers* Isaiah Berlin, 2013-03-07 Few if any English language critics have written as perceptively as Isaiah Berlin about Russian thought and culture *Russian Thinkers* is his unique meditation on the impact that Russia's outstanding writers and philosophers had on its culture In addition to Tolstoy's philosophy of history which he addresses in his most famous essay *The Hedgehog and the Fox* Berlin considers the social and political circumstances that produced such men as Herzen Bakunin Turgenev Belinsky and others of the Russian intelligentsia who made up as Berlin describes the largest single Russian contribution to social change in the world *Russian Thinkers* Isaiah Berlin, Henry Hardy, 1979 The theme that links these essays written over thirty years is the phenomenon of the Russian intelligentsia which Isaiah Berlin describes as the largest single Russian contribution to social change in the world Anton Chekhov Through the Eyes of Russian Thinkers Olga Tabachnikova, 2012 The collection is comprised of twelve scholarly essays written by leading Chekhov specialists from around the world each analysing an interpretation of Chekhov by one of three Russian thinkers of the Silver Age of Russian culture Vasilii Rozanov Dmitrii Merezhkovskii and Lev Shestov It thus examines the hitherto under researched relationship between the origins and the results of the cultural phase that came to be known as the Silver Age and focuses specifically on the complex connections between Chekhov's legacy and the Russian culture of that period

*Russian Thinkers* Sir Isaiah Berlin, 2003 **Russian Thinkers** Andrei Vladimirovich Anikin, 1988 Toward Another Shore Aileen Kelly, Reader in the Department of Slavonic Studies Aileen M Kelly, 1998-01-01 In this thought provoking book an internationally acclaimed scholar writes about the passion for ideology among nineteenth and twentieth century Russian intellectuals and about the development of sophisticated critiques of ideology by a continuing minority of Russian thinkers inspired by libertarian humanism Aileen Kelly sets the conflict between utopian and anti utopian traditions in Russian thought within the context of the shift in European thought away from faith in universal systems and grand narratives of progress toward an acceptance of the role of chance and contingency in nature and history In the current age as we face the dilemma of how to prevent the erosion of faith in absolutes and final solutions from ending in moral nihilism we have much to learn from the struggles failures and insights of Russian thinkers Kelly says Her essays some of them tours de force that have appeared before as well as substantial new studies of Turgenev Herzen and the Signposts debate illuminate the insights of Russian intellectuals into the social and political consequences of ideas of such seminal Western thinkers as Schopenhauer Nietzsche and Darwin Russian Literature and Thought Series *Russian Modernization* Markku Kivinen, Brendan G. Humphreys, 2020-11-29 Building on an original interpretation of social theory and an interdisciplinary approach this book creates a new paradigm in the Russian studies Taking a fresh view of Russia's multiple experiences of modernization it seeks to explain the Putin era in a completely new way This book explores the paradoxical and contradictory aspects of Russia analyzing the energy dependent economy and hybrid political regime but also religion welfare and culture and their often

complex interrelations Written by a community of both Western and Russian scholars this book re affirms the value of social science when confronting a society that has undergone enormous and costly systematic changes The Russian elites see modernization narrowly as economic and technological competitiveness The contributors to this volume see contemporary Russia facing a series of antinomies which are macro level dilemmas that cannot be abolished either by philosophical mediation or by immediate political decisions As such they are the tension fields that constitute choices for various competing agencies This book will be of interest to scholars and students of Russian studies transition studies sociology social policy political science energy policy cultural studies and stratification studies Professionals involved in energy ecology and security policy will also find this publication a rich source

The "Russian Idea" in International Relations Andrei P. Tsygankov,2023-06-16 The Russian Idea in International Relations identifies different approaches within Russian Civilizational tradition Russia s nationally distinctive way of thinking by situating them within IR literature and connecting them to practices of the country s international relations Civilizational ideas in IR theory express states cultural identification and stress religious traditions social customs and economic and political values This book defines Russian civilizational ideas by two criteria the values they stress and their global ambitions The author identifies leading voices among those positioning Russia as an exceptional and globally significant system of values and traces their arguments across several centuries of the country s development In addition the author explains how and why Russian civilizational ideas rise fall and are replaced by alternative ideas The book identifies three schools of Russian civilizational thinking about international relations Slavophiles Communists and Eurasianists Each school focuses on Russia s distinctive spiritual social and geographic roots respectively Each one is internally divided between those claiming Russia s exceptionalism potentially resulting in regional autarchy or imperial expansion and those advocating the Russian Idea as global in its appeal Those favoring the latter perspective have stressed Russia s unique capacity for understanding different cultures and guarding the world against extremes of nationalism and hegemony in international relations This book will be of interest to students and scholars of Russian foreign policy Russia Western

Obolevitch, 2019-05-09 Faith and Science in Russian Religious Thought provides a comprehensive analysis of the relationship between science and faith in Russian religious thought Teresa Obolevitch offers a synthetic approach on the development of the problem throughout the whole history of Russian thought starting from the medieval period and arriving in contemporary times She considers the relationship between science and religion in the eighteenth century the so called academic philosophy of the 19th and 20th century the thought of Peter Chaadaev the Slavophiles and in the most influential literature figures such as Fedor Dostoevsky and Lev Tolstoy The volume also analyses two channels of the formation of philosophy in the context of the relationship between theology and science in Russia The first is connected with the attempt to rationalize the truths of faith and is exemplified by Vladimir Soloviev and Nikolai Lossky the second with the apophatic tradition is presented by Pavel Florensky and Semen Frank The book then describes the relation to scientific knowledge in the thought of Lev Shestov Nikolai Berdyaev Sergius Bulgakov and Alexei Losev as well as the original project of Russian Cosmism on the examples of Nikolai Fedorov Konstantin Tsiolkovsky and Vladimir Vernadsky Obolevitch presents the current state of the discussion on this topic by paying attention to the Neoplatonic synthesis of Georges Florovsky and his followers and offers the brief comparative analysis of the relationship between science and religion from the Western and Russian perspectives

[The End of Russian Philosophy](#) A. DeBlasio, Alyssa DeBlasio, 2014-11-27 The End of Russian Philosophy describes and evaluates the troubled state of Russian philosophical thought in the post Soviet decades The book suggests that in order to revive philosophy as a universal professional discipline in Russia it may be necessary for Russian philosophy to first do away with the messianic traditions of the 19th century      **Russian Philosophy, Volume 1** James M. Edie, 2025-03-14 Russian philosophy begins through the impregnation of the ancient Byzantine tradition of Old Russia by the Western thought of the

French Enlightenment and then by German Romanticism The first original Russian philosopher Gregory Skovoroda the Russian Socrates was followed by the early philosophy of history and culture Alexander Radishchev and Peter Chasadayev The fateful break of Russian philosophers into two opposed camps of the Slavophiles was accomplished by the middle of the nineteenth century     A History of Russian Economic Thought Vincent Barnett,2013-03-07 The collapse of the Union of Soviet Socialist Republic at the end of the 1980 s was conceived as a victory for capitalist democracy Here Vincent Barnett provides the first comprehensive account of the historical development of Russian and Soviet economic thought across the nineteenth and twentieth centuries and considers its future in the twenty first century Utilizing an extensive range of historical sources Barnett examines the different strands of thought including classical neoclassical historical socialist liberal and Marxian schools He traces their influence and the impact their ideas had on shaping policies An excellent addition to the Routledge History of Economic Thought series this book covers pre 1870 Tsarist economics the late Tsarist period the impact of the war Bolshevik economics Stalinist economics Russian economics after 1940 Incorporating a detailed timeline of the most significant Russian economists work and analyzing the effects of historical discontinuities on the institutional structure of Russian economics as a discipline Barnett delivers an essential text for postgraduates and professionals interested in economic history and the evolution of Russian economic thought     *A History of Russian Thought* William Leatherbarrow,Derek Offord,2010-04-01 The history of ideas has played a central role in Russia s political and social history Understanding its intellectual tradition and the way the intelligentsia have shaped the nation is crucial to understanding the Russia of today This history examines important intellectual and cultural currents the Enlightenment nationalism nihilism and religious revival and key themes conceptions of the West and East the common people and attitudes to capitalism and natural science in Russian intellectual history Concentrating on the Golden Age of Russian thought in the mid nineteenth century the contributors also look back to its eighteenth century origins in the flowering of culture following the reign of Peter the Great and forward to the continuing vitality of Russia s classical intellectual tradition in the Soviet and post Soviet eras With brief biographical details of over fifty key thinkers and an extensive bibliography this book provides a fresh comprehensive overview of Russian intellectual history     The French Revolution in Russian Intellectual Life ,2009 Russian intellectual discourse on the French Revolution as a representation of the West rather than a symbol of revolution     *The French Revolution in Russian Intellectual Life* James O'Connor,2017-07-12 Sandwiched between the East and West Russian intellectuals have for centuries been divided geographically politically and culturally into two distinct groups the Slavophiles who rejected Western style democracy preferring a more holistic and abstract vision and the more rational and scientific minded Westernizers These two ideologies cut across the political spectrum of late nineteenth century Russia and competed for dominance in the country s intellectual life The tension created between these two opposing groups caused the feeling that violent upheaval was Russia s future In turn many began to think that Russia was possibly following the path of France

and that a French style revolution might be possible on Russian soil In *The French Revolution in Russian Intellectual Life* Dmitry Shlapentokh describes the role that the French democratic revolution played in Russia's intellectual development by the end of the nineteenth century The revolutionary upheaval in Russia at the beginning of twentieth century and the continuous expansion of the West convinced most Russian intellectuals that the French Revolution in its democratic reading was indeed the pathway of history Yet the rise of totalitarian regimes and their expansion proved the validity of the sober vision of nineteenth century Russian intellectuals Some conservative Russian intellectuals believed that not only would Russia preserve its authoritarian regime but it would spread this regime all over the world In this context Shlapentokh argues the French Revolution with its democratic tradition was only a phenomenon of Western civilization and hence transitory The flirtation with Western ideology with its democratic polity and market economy that followed in the wake of the collapse of the communist regime culminated in an increasing push for corporate authoritarianism and nationalism This work helps explain why Russia turned away from democratic to autocratic stylesi 1
