Kisselev, Oksana Laleko, Irina Dubinina, 2024-04-16 Russian as a Heritage Language: From Research to Classroom Applications brings together linguistically and pedagogically oriented research traditions in a comprehensive review of current Russian heritage language (HL) studies. Divided into three parts, the collection offers a variety of frameworks and approaches spanning research on HL speakers' linguistic and pragmatic competence, literacy development, and sociocultural characteristics of Russian in diaspora. Presenting a wide range of new empirical findings, the volume explores topics at the forefront of HL studies, from assessment of HL learners' linguistic competence and language attitudes to research on communities and institutional affordances impacting HL acquisition and maintenance. Each chapter connects current research with specific classroom applications, presenting Russian as a global language in various sociopolitical and majority language contexts. **State Assessment Policy and Practice for English Language Learners** Charlene

Rivera, Eric Collum, 2014-05-12 State Assessment Policy and Practice for English Language Learners presents three significant studies, each examining a different aspect of states' strategies for including English language learners in state assessments: an Analysis of State Assessment Policies Regarding Accommodations for English Language Learners, a Survey and Description of Test Translation Practices, and an Examination of State Practices for Reporting Participation and Performance of English Language Learners in State Assessments. With the rise in population of English language learners and the subsequent stepped-up legislative focus on this student population over the past decade, states have been challenged to include English language learners in state assessment programs. Until now, the little data available on states' policies and practices for meeting this challenge has been embedded in various reports and professional journals and scattered across the Internet. This volume offers for the first time a focused examination of states' assessment policies and practices regarding English language learners. The three studies were supported by OELA, the U.S. Department of Education's Office of English Language Acquisition, Language Enhancement, and Academic Achievement for Limited English Proficient Students. **Bilingual Community Education and Multilingualism** Ofelia García, Zeena Zakharia, Bahar Otcu, 2012-09-15 This book takes up the lens of ethnolinguistic communities as they proudly educate their own children in their ways of speaking and being These bilingual community education programs are unlike bilingual programs in US public schools where speakers of languages other than English are often minoritized In these programs the children's linguistic and cultural diversity are their most valuable assets But these bilingual community education programs are also different from how others have characterized heritage language programs In these bilingual community education programs diasporic ethnolinguistic communities ensure that their children use their ways of speaking and being within a US global context Thus their interest is not in their heritage as the language and the culture was performed in the past in another space but as a dynamic bilingualism and biculturalism that is performed by American children publisher website **Conference proceedings.
