[The Course of Russian History, 5th Edition](#) Melvin C. Wren, Taylor Stults, 2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history

[Russia's Bitter Path to Modernity](#) Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who

applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia s distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia s Soviet development within Russia s own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former s mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states **Stalin** Stephen Kotkin,2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin s psychological makeup showing us instead how Stalin s near paranoia was fundamentally political and closely tracks the Bolshevik revolution s structural paranoia the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin s momentous decisions outside of the context of the history of imperial Russia *Building Power to Change the World* James Muldoon,2020 The German council movements brought down the German monarchy founded several short lived council republics and dramatically transformed European politics This book reconstructs how participants in the German council movements struggled for a democratic socialist society *Russia, the Roots of Confrontation* Robert Vincent Daniels,1985 This book examines the historical contrasts between East and West and elucidates the Russian enigma It springs from the thesis that Russia s national character and its international relations can be understood only in light of the traumas and triumphs privation and privileges that the country weathered under the tsars and the Soviets **Europe, 1890-1945** Stephen J. Lee,2020-03-27 Europe 1890 1945 is a new approach to teaching and learning early twentieth century European history at A level It meets the needs of teachers and students studying for today s revised AS and A2 exams In a unique style Europe 1890 1945 focuses on the key topics within the period Each topic is then comprehensively explored to provide background information essay writing advice and examples source work and historical skills exercises From 1890 to 1945 the key topics featured include the origins and impact of the First World War the Russian Revolution and the rise of Stalin the Weimar Republic and the rise of Hitler Mussolini and Fascist Italy Stalin and the Soviet Union 1928 41 *Nikolay Gogol* Jane Grayson,Faith Wigzell,1988-11-29 *Socialist Construction and Marxist Theory* Philip Corrigan,1978-06-17 *Defenders of the Motherland* Matthew Rendle,2010 Matthew Rendle studies how the most powerful social groups in tsarist Russia reacted

to the challenges of 1917 He argues that the alienation of elites from the tsar and their support for the Provisional Government secured the initial success of the revolution but the threat they posed laid the foundations of the repressive Soviet regime

Nation Building, State Building, and Economic Development Sarah C.M. Paine, 2015-01-28 Why do some countries remain poor and dysfunctional while others thrive and become affluent The expert contributors to this volume seek to identify reasons why prosperity has increased rapidly in some countries but not others by constructing and comparing cases The case studies focus on the processes of nation building state building and economic development in comparably situated countries over the past hundred years Part I considers the colonial legacy of India Algeria the Philippines and Manchuria In Part II the analysis shifts to the anticolonial development strategies of Soviet Russia Atatürk's Turkey Mao's China and Nasser's Egypt Part III is devoted to paired cases in which ostensibly similar environments yielded very different outcomes Haiti and the Dominican Republic Jordan and Israel the Republic of the Congo and neighboring Gabon North Korea and South Korea and Papua New Guinea and Indonesia All the studies examine the combined constraints and opportunities facing policy makers their policy objectives and the effectiveness of their strategies The concluding chapter distills what these cases can tell us about successful development with findings that do not validate the conventional wisdom
