A Practical Guide for Russian Consular Officers and Private Persons Having Relations with Russia ... A. Baron Heyking, 1904 **Spiritual Subjects** Lale Can, 2020-03-10 At the turn of the twentieth century thousands of Central Asians made the annual pilgrimage to Mecca Traveling long distances many lived for extended periods in Ottoman cities dotting the routes Though technically foreigners these Muslim colonial subjects often blurred the lines between pilgrims and migrants Not quite Ottoman and not quite foreign Central Asians became the sultan's spiritual subjects Their status was continually negotiated by Ottoman statesmen as attempts to exclude foreign Muslim nationals from the body politic were compromised by a changing international legal order and the caliphate's ecumenical claims *Spiritual Subjects* examines the paradoxes of nationality reform and pan-Islamic politics in late Ottoman history Lale Can unravels how imperial belonging was wrapped up in deeply symbolic instantiations of religion as well as prosaic acts and experiences that paved the way to integration into Ottoman communities A complex system of belonging emerged one where it was possible for a Muslim to be both by law a foreigner and a subject of the Ottoman sultan-caliph This panoramic story informs broader transregional and global developments with important implications for how we make sense of subjecthood in the last Muslim empire and the legacy of religion in the Turkish Republic *The Subjects of Ottoman International Law* Lâle Can, Michael Christopher Low, Kent F. Schull, Robert Zens, 2020-10-13 The core of this edited volume originates from a special issue of the *Journal of the Ottoman and Turkish Studies Association* JOTSA that goes well beyond the special issue to incorporate the stimulating discussions and insights of two Middle East Studies Association conference roundtables and the important work of additional scholars in order to create a state-of-the-field volume on Ottoman sociolegal studies particularly regarding Ottoman international law from the eighteenth century to the end of the empire It makes several important contributions to Ottoman and Turkish studies namely by introducing these disciplines to the broader fields of trans-imperial studies comparative international law and legal history Combining the best practices of diplomatic history and history from below to integrate the Ottoman Empire and its subjects into the broader debates of the nineteenth-century trans-imperial history this unique volume represents the exciting work and cutting-edge scholarship on these topics that will continue to shape the field in years to come **The Russian Year-book** Howard Percy Kennard, Netta Peacock, 1916 *Russia in Central Asia in 1889 & the Anglo-Russian Question* Marquess George Nathaniel Curzon Curzon of Kedleston, 1889 **Iran and Russian Imperialism** Moritz Deutschmann, 2015-12-22 Rather than a centralized state Iran in the nineteenth century was a delicate balance between tribal groups urban merchant communities religious elites and an autocratic monarchy While Russia gained an increasingly dominant political role in Iran over the course of this century Russian influence was often challenged by banditry on the roads riots in the cities and the seeming arbitrariness of the Shah Iran and Russian Imperialism develops a comprehensive picture of Russia's historical entanglements with one of its most important neighbours in Asia It recounts how the Russian

Empire strived to gain political influence at the Persian court promote Russian trade and secure the enormous southern borders of the empire Using hitherto often neglected documents from archives in Russia and Georgia and reading them against the grain this book reveals the complex reactions of different groups in Iranian society to Russian imperialism As it turns out the Iranians were in the words of the Russian orientalist Konstantin Smirnov ideal anarchists whose resistance to imperial domination as well as to centralized state institutions more generally impacted developments in the region in the century to come Iran s troubled relationship with the wider world continues to be a topic of considerable interest to historians yet little focus has been given to Russia s historical connections to Iran This book thus represents a valuable contribution to Iranian and Russian History as well as International Relations *Papers Relating to the Foreign Relations of the United States* United States. Department of State,1888 A Chinese Commercial Guide; consisting of a collection of details and regulations respecting foreign trade with China, sailing directions, tables, etc. ... Privy Council. Judicial Committee,Edmund F. Moore,1864 **Asia's First Modern Revolution** Onon,Pritchatt,2023-07-24 *From Slaves to Prisoners of War* Will Smiley,2018-08-21 The Ottoman Russian wars of the eighteenth century reshaped the map of Eurasia and the Middle East but they also birthed a novel concept the prisoner of war For centuries hundreds of thousands of captives civilians and soldiers alike crossed the legal and social boundaries of these empires destined for either ransom or enslavement But in the eighteenth century the Ottoman state and its Russian rival through conflict and diplomacy worked out a new system of regional international law Ransom was abolished soldiers became prisoners of war and some slaves gained new paths to release while others were left entirely unprotected These rules delineated sovereignty redefined individuals relationships to states and prioritized political identity over economic value In the process the Ottomans marked out a parallel non Western path toward elements of modern international law Yet this was not a story of European imposition or imitation the Ottomans acted for their own reasons maintaining their commitment to Islamic law For a time even European empires played by these rules until they were subsumed into the codified global law of war in the late nineteenth century This story offers new perspectives on the histories of the Ottoman and Russian Empires of slavery and of international law
