## **Russias Food Policies And Globalization:**

*Russia's Food Policies and Globalization* Stephen K. Wegren, 2005-01-01 The post Soviet period has witnessed Russia's increasing interdependence with other nations in its food trade as in the economy as a whole President Putin has repeatedly identified international integration as an economic necessity if Russia is to share in the benefits of globalization In *Russia's Food Policies and Globalization* author Stephen K Wegren analyzes the primary questions affecting Russia and globalization How do Russia's domestic and external food policies affect its efforts at international integration How prepared is Russia for global economic integration for instance entrance into the World Trade Organization What are the structural economic and political obstacles that exist in Russia's food policies which in turn hinder closer integration In short will Russia integrate or fall behind and what is the role of food policy in deciding this crucial issue Through an analysis of Russia's contemporary food policies and strategies Wegren places Russia's economic development in a new international context Political scientists economists policymakers and scholars of the Soviet and post Soviet period as well as those interested in rural studies must read this book

**Russia's Food Revolution** Stephen K. Wegren, 2020-09-21 This book analyzes the food revolution that has occurred in Russia since the late 1980s documenting the transformation in systems of production supply distribution and consumption It examines the dominant actors in the food system explores how the state regulates food considers changes in patterns of food trade interactions with other states and discusses how all this and changing habits of consumption have impacted consumers It contrasts the grim food situation of 1980s and 1990s with the much better food situation that prevails at present and sets the food revolution in the context of the wider consumer revolution which has affected fashion consumer electronics and other sectors of the economy

**Russia's Role in the Contemporary International Agri-Food Trade System** Stephen K. Wegren, Frode Nilssen, 2021-11-11 This Open Access book analyses the emergence of Russia as a global food power and what it means for global food trade Russia's strategy for food production and trade has changed significantly since the end of the Soviet period and this is the first book to take account of Russia's rise as a food power and the global implications of that rise It includes food trade policy and practice and developments in regional food trade This book will be of interest to academics and practitioners in agricultural economics international trade and international food trade

**Food Policy and Food Security** Stephen K. Wegren, Alexander Nikulin, Irina Trotsuk, 2018-03-28 This book provides a comprehensive analysis of Russian food policy Food policy is defined as the way government policy influences food production and distribution Russia's food policy is important for several reasons The first and most obvious reason is that a dysfunctional food policy is symptomatic of larger political and societal problems A failing food policy is often the precursor to political instability Russian food policy is also important is due to the agricultural recovery since 2004 that has allowed Russia to become self sufficient in grain production Being food sufficient in grain means that Russia is not drawing upon global grain supply Even more important Russia now produces surpluses and has become a global grain supplier Moreover

the agricultural recovery has made the country food secure traditionally defined as having enough food for a healthy life An analysis of food policy reveals that the structure of food production has changed with the emergence of mega farms called agroholdings that are horizontally and vertically integrated Agroholdings represent a concentration of capital and land with a small number of farms producing large percentages of total food output The book explores alternatives to the industrial agricultural model by discussing different variants of sustainable agriculture A final importance of Russian food policy concerns food trade Russia has become more protectionist since 2012 The food embargo against Western nations 2014 2017 is one example so too is import substitution that is a core component of food policy The book demonstrates the politicalization of external food trade Food trade and denial of access to the Russian market is used as an instrument of foreign policy to punish countries with whom Russia has disagreements Current Russian policymakers have food resources to augment support and extend national interests abroad Russia historically has cycled through periods of integration and isolation from the West This book raises the question whether a new normal has arisen that is characterized by the permanent withdrawal from integration as evidenced by its nationalist and protectionist food policy The book is entirely original rich in detail and broad in scope It is based on field work survey data a wide reading of primary sources and the secondary literature all of which are linked to important policy questions in development studies and food studies It is destined to become a classic book on Russian food policy

**Putin's Russia** Stephen K. **The Moral Economy Reconsidered** S. Wegren, 2005-08-19 Sure to be controversial and spur debate this book presents a powerful analysis of rural change to marketization and globalization Using Russia as a case study it examines the how the rural population responded to reform policies during the transition away from communism Wegren draws upon extensive field work survey data interviews and wide ranging Russian language source material to investigate adaptive behaviours by different groups of the rural population

The differentiated and nuanced analysis sheds considerable light on debates over whether actors are motivated mainly by rational or moral considerations

**Russia's Agriculture in Transition** Zvi Lerman, 2008-01-01 This book explores the development of factor markets in Russian agriculture during the transition to a market economy identifying the impact of existing constraints on agricultural growth

**Putin's Russia** Dale Roy Herspring, 2007 A fifth edition of this book is now available This thoroughly revised and updated edition of the classic text provides the most current and authoritative assessment of Russia available Distinguished scholars offer a full scale assessment of Putin's leadership exploring the daunting domestic and international problems facing Russia today Evaluating the regime's continued efforts to rebuild a country in shambles the contributors consider a comprehensive array of economic political and social issues In addition to updated core chapters the book includes new essays on Putin's leadership law foreign policy and the decline of democracy The book concludes that Putin will continue to address his country's problems in an incremental and centralized manner as he moves toward his goal of restoring Russia to the status of a world power

**Measuring Social and Economic Change in Rural Russia** David J. O'Brien, V. V. Patsiorkovskii, 2006-01-01 Measuring Social and Economic Change in Rural Russia is based upon nine household surveys in seven rural regions of Russia from 1991 to 2003 including a four wave panel study over an eight year period The findings that O'Brien and Patsiorkovsky share in this important work are the only long term indicators of how ordinary people have learned to adapt to an economic system that was thrust upon them when the Soviet Union collapsed Three main themes are explored the relationship between formal and informal institutional change regional responses to reforms and the impact of household labor social networks and community involvement and physical capital on inequality in material social and psychological conditions This comprehensive study's conceptual and interdisciplinary approach will appeal to anyone interested in the transition of countries from socialist to market economies

*Land Reform in Russia* Stephen K. Wegren, 2009-11-24 This ambitious work is the definitive account of Russia's land reform initiatives from the late 1980s to today In Russia a country controlling more land than any other nation land ownership is central to structures of power class division and agricultural production The aim of Russian land reform for the past thirty years to undo the collectivization of the Soviet era and encourage public ownership has been largely unsuccessful To understand this failure Stephen Wegren examines contemporary land reform policies in terms of legislation institutional structure and human behavior Using extensive survey data he analyzes household behaviors in regard to land ownership and usage based on socioeconomic status family size demographic distribution and regional differences Wegren's study is important and timely as Russian land reform will have a profound effect on Russia's ability to compete in an era of globalization

Poverty Effects of Russia's WTO Accession Thomas Fox Rutherford, David G. Tarr, Oleksandr Shepotylo, 2005 Rutherford Tarr and Shepotylo use a computable general

equilibrium comparative static model of the Russian economy to assess the impact of accession to the World Trade Organization WTO on income distribution and the poor Their model is innovative in that they incorporate all 55 000 households from the Russian Household Budget Survey as real households in the model This is accomplished because they develop a new algorithm for solving general equilibrium models with a large number of agents In addition they include foreign direct investment and Dixit Stiglitz endogenous productivity effects in their trade and poverty analysis In the medium term the authors find that virtually all households gain from Russian WTO accession with 99.9 percent of the estimated gains falling within a range between 2 and 25 percent increases in household income They show that their estimates are decisively affected by liberalization of barriers against foreign direct investment in business services sectors and endogenous productivity effects in business services and goods The authors use their integrated model to assess the error associated with a top down approach to micro simulation They find that approximation errors introduced by failing to account for income effects in the conventional sequential approach are very small However data reconciliation between the national accounts and the household budget survey is important to the results Despite the estimated gains for virtually all households in the medium term many households may lose in the short term because of the costs of transition So safety nets are crucial for the poorest members of society during the transition This paper a product of the Trade Team Development Research Group is part of a larger effort in the group to assess the impact of trade on poverty Abstract
