PREFACE

In 1867 the United States purchased from Russia for a trifling sum of money the vast territory of Alaska. This was the end of more than half a century of territorial expansion which had seen the acquisition of Louisiana, Florida, Texas, Oregon, and California. But the addition of this vast new territory did not greatly excite the American public. Indeed, except for some derisive comments in the press about "Seward's Icebox," it was pretty much ignored. Americans were already turning from the agricultural to the technological frontier, and opportunities for the ambitious young man seemed to lie in the factories at home rather than in the Alaskan wilderness.

For nearly three quarters of a century Alaska was largely forgotten by Americans. Its strategic importance in World War II and the subsequent cold war brought it back to public attention. Now also a technology was available to cope with its vastness, for Alaska is the frontier of the airplane, not the covered wagon. Today the adventurous and the young at heart are turning in ever increasing numbers to this last American frontier. And so it seems appropriate to celebrate the centennial of the Alaska purchase with this facsimile of the limited official edition of the original Treaty of Cession.
