Ruth Benedict Leaders Of Modern Anthropology Series:

Ruth Benedict Margaret Mead, 2005 By weaving discussions of the personal and professional writings of Ruth Benedict Margaret Mead presents the anthropologist's work in the context of her life and times Mead also defends Benedict's humanistic approach to anthropology as she considers her most important works In addition to a selection of Benedict's anthropological writings this edition includes new forewords by two leading Benedict scholars *Ruth Benedict* Margaret M. Caffrey, 2013-11-04 Poet anthropologist feminist Ruth Fulton Benedict was all of these and much more Born into the last years of the Victorian era she came of age during the Progressive years and participated in inaugurating the modern era of American life Ruth Benedict *Stranger in This Land* provides an intellectual and cultural history of the first half of the twentieth century through the life of an important and remarkable woman As a Lyricist poet Ruth Benedict helped define Modernism As an anthropologist she wrote the classic *Patterns of Culture* and at one point was considered the foremost anthropologist in the United States the first woman ever to attain such status She was an intellectual and an artist living in a time when women were not encouraged to be either In this fascinating study Margaret Caffrey attempts to place Benedict in the cultural matrix of her time and successfully shows the way in which Benedict was a product of and reacted to the era in which she lived Caffrey goes far beyond providing simple biographical material in this well written interdisciplinary study Based on exhaustive research including access for the first time to the papers of Margaret Mead Benedict's student and friend Caffrey is able to put Benedict's life clearly in perspective By identifying the family and educational influences that so sharply influenced Benedict's psychological makeup the author also closely analyzes the currents of thought that were strong when Victorianism paralleled the Modernism that figured in Benedict's life work The result is a richly detailed study of a gifted woman This important work will be of interest to students of Modernism poetry and women's studies as well as to anthropologists Ibss: Anthropology: 1975 International Committee for Social Scien, 1978-08-24 First published in 1978 Routledge is an imprint of Taylor Francis an informa company **Ruth Benedict** Margaret Mead, 1974 Margaret Mead America's most famous anthropologist offers an intimate portrait of her long time colleague and friend Ruth Benedict The first met when Mead was Benedict's student at Barnard in the 1920s their professional association and their friendship were close and lasting Beginning with Benedict's early life Mead discusses her long struggle as a woman to attain an identity of her own her early interests as a writer and poet and her reasons for laying aside poetry for full time scholarship She grappled with the problems of a middle class marriage and suburban household and eventually broke away to establish herself as a scholar and writer of distinction As an anthropologist her fame spread far beyond her profession with the publication of her first book *Patterns of Culture* With the coming of World War II Benedict shifted her attention to an anthropological study of contemporary highly developed cultures The culmination of this interest was the publication of *The Chrysanthemum and the Sword* and the establishment of the Columbia University Research in Contemporary Cultures project a broad based

interdisciplinary research project which she headed until her untimely death in 1948 Complementing the biography are seven selections from Benedict's writings which show the range of her thought as well as the beauty of her writing including her lecture as retiring President of the American Anthropological Association From publisher description **Margaret Mead, the Anthropologist in America** Erika Bourguignon, 1986 *American Anthropology, 1921-1945* George W. Stocking, 2002-01-01 From the 1920s through the end of World War II American anthropology grew in complexity while its scope became increasingly global and contemporary Much insightful and innovative work continued to be produced by scholars working with Native American and First Nation communities but the significant contributions of those conducting research abroad soon became hard to ignore The nature of culture and acculturation were scrutinized and theorized about repeatedly the relationship between culture and personality became an important subject of inquiry particular historical reconstructions were joined by more synchronic studies of cultures and more anthropologists gave attention to current events and to unraveling the intricacies of modern culture The discipline as a whole moved away from affiliations with museums and instead cast itself as a social science within the academy at the same time government sponsorship of anthropological research increased markedly through New Deal initiatives and wartime programs of the 1940s The thirty nine selections in this volume represent the increasingly diverse areas of research and range of lasting accomplishments in American anthropology during the interwar period Introducing these essays is a historical overview of American anthropology during this era by George W Stocking Jr Books for College Libraries: Social sciences Association of College and Research Libraries, 1988 This third edition lists 50 000 titles that form the foundation of an undergraduate library's collection This volume covers the social sciences **The Eastern Anthropologist**, 1977 **Columbia University Press, 1893-1983** Henry H. Wiggins, 1983 The summation of more than two thousand years of one of the world's most august literary traditions this volume also represents the achievements of four hundred years of Western scholarship on China The selections include poetry drama fiction songs biographies and works of early Chinese philosophy and history rendered in English by the most renowned translators of classical Chinese literature Arthur Waley Ezra Pound David Hawkes James Legge Burton Watson Stephen Owen Cyril Birch A C Graham Witter Bynner Kenneth Rexroth and others Arranged chronologically and by genre each chapter is introduced by definitive quotes and brief introductions chosen from classic Western sinological treatises Beginning with discussions of the origins of the Chinese writing system and selections from the earliest genre of Chinese literature the Oracle Bone inscriptions the book then proceeds with selections from early myths and legends the earliest anthology of Chinese poetry the Book of Songs early narrative and philosophy including the I Ching Tao te Ching and the Analects of Confucius rhapsodies historical writings magical biographies ballads poetry and miscellaneous prose from the Han and Six Dynasties period the court poetry of the Southern Dynasties the finest gems of Tang poetry and lyrics stories and tales of the Sui Tang and Five Dynasties eras Special highlights include individual chapters covering each

of the luminaries of Tang poetry Wang Wei Li Bo Du Fu and Bo Juyi early literary criticism women poets from the first to the tenth century C E and the poetry of Zen and the Tao Bibliographies explanatory notes copious illustrations a chronology of major dynasties and two way romanization tables coordinating the Wade Giles and pinyin transliteration systems provide helpful tools to aid students teachers and general readers in exploring this rich tradition of world literature

Theory in Social and Cultural Anthropology R. Jon McGee,Richard L. Warms,2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory

in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader s Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader s Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion
