The Transition to a Global Society Kishor Gandhi,1991 **Information India 1992-93 : Global View** S. P. Agrawal,1994

The Geopolitics of Energy in South Asia Marie Lall,2009 Energy security has become a central concern for all the countries in the Asian region and the search for sufficient sources of energy to fuel economic growth has drastically influenced relations among the South Asian countries as well as their respective relations with their neighbours China Myanmar Iran and Afghanistan The recent nuclear deal between India and the US is also indicative of how energy and power politics are linked and how these new inter linkages underlie relations between states This book aims to give a South Asian perspective on the geopolitics of energy with a central focus on India The chapters address how India s global and regional foreign policy making has changed in light of India s search for energy and how this is affecting the relationship on a global level between India and the US as well as on a regional level between India and the other Asian countries The book also offers views from Pakistan and Bangladesh as well as how this shifting reality is affecting relations between India and Southeast Asia

Globalistics and Globalization Studies: Aspects & Dimensions of Global Views Arkadi D. Ursul,Endre Kiss,Alexander N. Chumakov,Olga G. Leonova,Tu Weiming,Peter G. Kirchsclaeger,Anthony Howell,Hae Kim,Jim

Sheffield,2014-04-30 Nowadays globalization processes have become all embracing But at the same time despite the ever increasing flow of publications on globalization our understanding and knowledge of it still leaves much to be desired Especially it concerns the global processes in general of which globalization is a part We also need to systematize our ideas about globalization and Global Studies to somehow fit the realities In particular this concerns the education process because the current state of education will determine the way people will perceive reality in the forthcoming decades This yearbook aims at contributing to the solution of these important tasks It is the third in the series of yearbooks titled Globalistics and Globalization Studies This year it has the following subtitle Aspects Dimensions of Global Views Its authors consider globalization and Global Studies in different dimensions and aspects philosophical methodological and pedagogical in terms of various processes problems and perspectives Of course to some extent this means that this yearbook presents rather diverse materials But globalization itself is very diverse And its comprehension may proceed in the framework of different theoretical approaches and points of view In the present yearbook one can find perceptions of globalization and Global Studies by a number of scholars from different countries of the world and learn rather peculiar visions of globalization by the Russian scientists and educators The yearbook will be interesting to a wide range of researchers teachers students and all those who pay attention to global issues

Great Powers, Climate Change, and Global Environmental Responsibilities

Robert Falkner,Barry Buzan,2022-01-10 This book is the first of its kind to examine the role of great powers in the international politics of climate change It develops a novel analytical framework for studying environmental power in international relations what counts as a great power in the environmental field and what their special environmental responsibilities are In doing so the book connects International Relations IR debates on power inequality great powers and great power management with global environmental politics GEP scholarship The book brings together leading scholars in IR and GEP whose contributions focus on major environmental powers United States China European Union India Brazil Russia and international institutions and issue areas UN Security Council multilateral environmental agreements international climate leadership coal politics The contributors to this volume examine how individual great powers have responded to the global climate challenge and whether they have accepted a special

responsibility for stabilizing the global climate They place emerging discourses on great power responsibility in the context of wider debates about international environmental leadership and climate change securitization And they provide new insights into how international power inequality intersects with the global ecological crisis and what special role great powers could and should play in the international fight against global warming *Information India 1997-98 And 1998-99 : Global View* S. P. Agrawal,2002 International Law and Sustainable Development Nico J. Schrijver,Friedl Weiss,2004-08-10 The concept of sustainable development has attracted considerable attention in recent years and has become of pivotal importance not only in scientific and political discourse but also increasingly in the practice of states and of relevant international organisations Since 1992 and within a remarkably short period of time sustainable development has been endorsed and recognised in a number of instruments of international law Thus it is incorporated in various environmental treaties as well as in international fisheries agreements the 1995 Agreement Establishing the World Trade Organisation WTO and EU law Sustainable development and related concepts also feature in a number of international judicial decisions of the 1990s for example those of the International Court of Justice and the WTO Appellate Body The chapters assembled in this book illustrate various aspects of efforts of policy makers regional and national interest groups to invoke and rely upon international law for the realisation of the objective of sustainable development They deal in particular with recent examples of the practice of states and of relevant international organisations especially in such areas as international trade foreign investment regulation human rights and natural resources and waste management Furthermore some chapters are dedicated to a review of relevant practice at the regional and national level *The Geopolitics of Australia's Regional Relations* D. Rumley,2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda Sustainable Development, Regional Governance,

and International Organizations Anastassia Obydenkova, 2024-06-28 This book aspires to establish a dialogue among the studies of sustainable development global environmental politics comparative regionalism and area studies of Eurasia The chapters in this book reflect deep knowledge of the authors of the main trends in environmental politics at global international and national levels before the invasion in Ukraine in 2022 First the book looks into the role and impact of international organizations such as the European Union EU European Bank for Reconstruction and Development EBRD Arctic Council AC and Global Forums on Climate Action on post Communist states but also the role of nation states e g Russia Kazakhstan and China Second the book explores relatively new international organizations such as the Eurasian Economic Union EAEU the Eurasian Development Bank and the Shanghai Cooperation Organization SCO How do the EAEU EDB and the SCO matter if at all in promoting an environmental agenda How do the EU EBRD and the AC advance the environmental agenda across the post Communist region This book aspires to answer these questions and to shed more light on the challenges to sustainable development in post Communist Europe Central Asia and Eurasia With a new foreword and afterword this book will appeal to students scholars and researchers of political science international relations area studies as well as practitioners and policymakers working in international organizations and dealing with challenges of sustainable development The other chapters were originally published as a special issue of Problems of Post Communism

Governance Approaches to Mitigation of and Adaptation to Climate Change in Asia H. Ha, T. Dhakal, 2013-11-22 Academics and practitioners from across Asia and beyond revisit the issues and impact of climate change in Asia They examine the preconditions for good governance regarding climate change and the role of state and non state actors in climate change governance and explore different political legal frameworks Energy and Environmental Outlook for South Asia Muhammad Asif, 2021-01-07 South Asia constitutes a key geography in the world today considering its large population and related daunting energy and environmental challenges Many countries in the region are faced with a growing gap between energy demand and local resources resulting in an increased dependence on imports According to the International Energy Agency IEA the energy demand in South Asia will grow at a rate more than double that of the world average in the coming decades This book addresses the critical subject of energy and environmental outlook for South Asia and presents the wider challenges and the responses at the national and regional level Features Discusses and addresses the ongoing energy and environmental challenges faced by almost a quarter of the global population Includes dedicated chapters for each country and presents analysis and recommendations by regional experts Examines how deteriorating air quality and persistent natural disasters are severe environmental challenges for the region Discusses the implications of global warming and climate change for South Asia Includes practical case studies throughout Energy and Environmental Outlook for South Asia will benefit a wide range of stakeholders from various fields including but not limited to energy environment economics national security and sustainable development It also serves as a valuable resource for academics researchers analysts

policymakers and representatives of utilities industry professional bodies financial institutions think tanks and developmental organizations to better plan their initiatives activities and policies It will help countries in the region and also those around the world by learning from shared experience and ideally by collaborating for energy and environmental prosperity

Authoritarian Regionalism in the World of International Organizations Anastassia V. Obydenkova, Alexander Libman, 2019-05-02 The interconnection between international organizations IOs membership and democratization has become a topic of intense debate However the main focus of the literature so far has been on IOs created by democratic states and comprised mostly of democracies for examples the European Union In contrast to existing studies this book focuses on another group of regional IOs referred to as non democratic IOs which are organizations founded by autocracies How do these newly emerged organizations interrelate and interact with the outside world How do they counteract and confront the danger of democratization in their own member states and neighboring states This book aims to address these questions by developing a new theory of authoritarian regionalism and by combining both quantitative and qualitative analysis to test it The quantitative analysis uses a large dataset of all regional organizations worldwide for the post World War II period with the aim of defining historical trends in development and the modification of regionalism over the last seven decades 1945 2015 Qualitative analysis refines and develops the argument by looking at the case of post Soviet Eurasia The book uncovers a new type of regionalism authoritarian regionalism and traces its historical roots as well as its implications for modern politics The book is the first attempt to systematically investigate the functioning and the impact of authoritarian regionalism as a new phenomenon as well as its implications for democratization world wide The book contributes to the theory of regionalism international organizations studies of autocracies foreign policy and democratization world wide
