**Saboteurs** Andrew Nikiforuk, 2014-08-30 At Trickle Creek in northern Alberta Wiebo Ludwig thought he'd buffered his tiny religious community from civilization but in 1990 civilization came calling A Calgary oil company proposed to drill directly in view of the farm's communal dining room Ludwig wrote letters petitioned forced public hearings and discovered the provincial regulator cared little about landowners After the oil company accidentally vented raw sour gas Ludwig's wife miscarried Hostilities against the oil company began with nails on the roads sabotaged well sites and road blockades They culminated in death threats shootings and bombings The RCMP recruited a Ludwig acolyte as an informant and in an attempt to establish the man's credibility the police themselves blew up an equipment shack Ludwig was charged with 19 counts of mischief vandalism and possession of explosives and he was later convicted on five charges This taut work of nonfiction first published in 2002 won both a Governor General's Award and the Arthur Ellis Award for True Crime Writing With the escalation of oil and gas extraction over the past decade the unsettling questions **Saboteurs** raises about individual rights corporate power police methods and government accountability are more relevant than ever

**Wages of Rebellion** Chris Hedges, 2015-05-12 Revolutions come in waves and cycles We are again riding the crest of a revolutionary epic much like 1848 or 1917 from the Arab Spring to movements against austerity in Greece to the Occupy movement In **Wages of Rebellion** Chris Hedges who has chronicled the malaise and sickness of a society in terminal moral decline in his books *Empire of Illusion* and *Death of the Liberal Class* investigates what social and psychological factors cause revolution rebellion and resistance Drawing on an ambitious overview of prominent philosophers historians and literary figures he shows not only the harbingers of a coming crisis but also the nascent seeds of rebellion Hedges message is clear popular uprisings in the United States and around the world are inevitable in the face of environmental destruction and wealth polarization Focusing on the stories of rebels from around the world and throughout history Hedges investigates what it takes to be a rebel in modern times Utilizing the work of Reinhold Niebuhr Hedges describes the motivation that guides the actions of rebels as sublime madness the state of passion that causes the rebel to engage in an unavailing fight against overwhelmingly powerful and oppressive forces For Hedges resistance is carried out not for its success but as a moral imperative that affirms life Those who rise up against the odds will be those endowed with this sublime madness From South African activists who dedicated their lives to ending apartheid to contemporary anti fracking protests in Alberta Canada to whistleblowers in pursuit of transparency **Wages of Rebellion** shows the cost of a life committed to speaking the truth and demanding justice Hedges has penned an indispensable guide to rebellion

*How Canadians Communicate IV* David Taras, Christopher Robb

Waddell, 2012 Substantial changes have occurred in the nature of political discourse over the past thirty years. Once traditional media dominated the political landscape but in recent years Facebook, Twitter, blogs, and Blackberrys have emerged as important tools and platforms for political campaigns. While the Canadian party system has proved surprisingly resilient, the rhythms of political life are now very different. A never-ending 24-hour news cycle has resulted in a never-ending political campaign. The implications of this new political style and its impact on political discourse are issues vigorously debated in this new volume of *How Canadians Communicate* as is the question on every politician's mind: How can we draw a generation of digital natives into the current political dialogue? With contributions from such diverse figures as Elly Alboim, Richard Davis, Tom Flanagan, David Marshall, and Roger Epp, *How Canadians Communicate IV* is the most comprehensive review of political communication in Canada in over three decades, one that poses questions fundamental to the quality of public life.

**Jacques Ellul and the Technological Society in the 21st Century** Helena M. Jerónimo, José Luís García, Carl Mitcham, 2013-07-08 This volume rethinks the work of Jacques Ellul (1912-1994) on the centenary of his birth by presenting an overview of the current debates based on Ellul's insights. As one of the most significant twentieth-century thinkers about technology, Ellul was among the first thinkers to realize the importance of topics such as globalization, terrorism, communication technologies, and ecology and study them from a technological perspective. The book is divided into three sections. The first discusses Ellul's diagnosis of modern society and addresses the reception of his work on the technological society, the notion of efficiency, the process of symbolization, and ecology. The second analyzes communicational and cultural problems as well as threats and trends in early twenty-first-century societies. Many of the issues Ellul saw as crucial, such as energy, propaganda, applied life sciences, and communication, continue to be so. In fact, they have grown exponentially on a global scale, producing new forms of risk. Essays in the final section examine the duality of reason and revelation. They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge, which is to say, on the one hand, the experience of the human being as contained in the rationalist, sociological, and philosophical traditions; on the other hand, there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions. The meeting of these two traditions enables us to look at Ellul's work as a whole, but above all, it opens up a space for examining religious life in the technological society.

**An Environmental History of Canada** Laurel Sefton MacDowell, 2012-07-31 Throughout history, most people have associated northern North America with wilderness, with abundant fish and game, snow-capped mountains, and endless forest and prairie. Canada's contemporary picture gallery, however, contains more disturbing images: deforested mountains, empty fisheries, and melting ice caps. Adopting both a chronological and thematic approach, Laurel MacDowell examines human interactions with the land and the origins of our current environmental crisis, from first peoples to the Kyoto Protocol. This richly illustrated exploration of the past from an environmental perspective will change the way Canadians and others around the world think about and

look at Canada     Real-ish Kelsey Jacobson,2023-02-15 In the post truth era the question of how people perceive things to be real even when they are not based in fact preoccupies us Lessons learned in the theatre about how emotion and affect produce an experience of realness are more relevant than ever Real ish draws on extensive interviews with audience members about their perceptions of realness in documentary participatory historical and immersive performances In studying these forms that make up the theatre of the real Kelsey Jacobson considers how theatrical experiences of realness not only exist as a product of their real world source material but can also unfurl as real products in their own right Using the concept of real ish ness which captures the complex feeling that is generated by engaging with elements of reality the book examines how audiences experience the apparently real within the time and space of a performance and how it is closely tied to the immediacy and intimacy experienced in relation to others When feeling rather than fact becomes a way of knowing truths about the world understanding the cultivation and circulation of such feelings of realness is paramount In exploring this process Real ish centres audience voices and perhaps most importantly audience feelings during performance

*The Rough Poets* Melanie Dennis Unrau,2024-10-15 Oil workers are often typecast as rough embodying the toxic masculinity racism consumerist excess and wilful ignorance of the extractive industries and petrostates they work for But their poetry troubles these assumptions revealing the fear confusion betrayal and indignation hidden beneath tough personas The Rough Poets presents poetry by workers in the Canadian oil and gas industry collecting and closely reading texts published between 1938 and 2019 S C Ells s Northland Trails Peter Christensen s Rig Talk Dymphny Dronyk s Contrary Infatuations Mathew Henderson s The Lease Naden Parkin s A Relationship with Truth Lesley Battler s Endangered Hydrocarbons and Lindsay Bird s Boom Time These writers are uniquely positioned Melanie Dennis Unrau argues both as petropoets who write poetry about oil and as theorists of petropoetics with unique knowledge about how to make and unmake worlds that depend on fossil fuels Their ambivalent playful crude and honest petropoetry shows that oil workers grieve the environmental and social impacts of their work worry about climate change and the futures of their communities and desire jobs and ways of life that are good safe and just How does it feel to be a worker in the oil and gas industry in a climate emergency facing an energy transition that threatens your way of life Unrau takes up this question with the respect care and imagination necessary to be an environmentalist reader in solidarity with oil workers     **We Are All Treaty**

*Protest and Politics* Howard Ramos, Kathleen Rodgers, 2015-06-01 The Tea Party The Occupy Movement Idle No More Around the world social movements have taken to new media and the streets to challenge the status quo At the same time most democracies have witnessed a sharp decline in voter turnout Protest and Politics examines this seemingly contradictory shift in political participation as well as the blurring of social movement and mainstream politics through the lens of the social movement society SMS thesis Drawing on the long history of social movements in Canada in comparison to the US and the transnational sphere the contributors revisit the SMS thesis to determine whether it still applies to see what insights can be gleaned from Canadian social movements and to clarify the relationships between movements and mainstream politics They argue that the SMS thesis must be recalibrated to reflect changes in political participation to embrace broader political and historical contexts and to consider the emergence of social movement societies plural over a single polity within and across countries

Canadian Energy Policy and the Struggle for Sustainable Development G. Bruce Doern, 2005-01-01. In recent years energy policy has been increasingly linked to concepts of sustainable development. In this timely collection, editor G. Bruce Doern presents an overview of Canadian energy policy, gathering together the top Canadian scholars in the field in an examination of the twenty-year period broadly benchmarked by energy liberalization and free trade in the mid 1980s and by Canada's ratification of the Kyoto Protocol in 2002. The contributors examine issues including electricity restructuring in the wake of the August 2003 blackout, the implications of the Bush Administration's energy policies, energy security, northern pipelines, and Aboriginal energy issues, provincial changes in energy policy, and overall federal/provincial changes in regulatory governance. They also demonstrate that since per capita energy usage has actually increased in the past several years, sustainable development remains very much a struggle rather than an achievement. When the Kyoto Protocol and its requirements for reductions in greenhouse gas emissions are factored in, the Canadian record is especially dubious in basic energy terms. *Canadian Energy Policy and the Struggle for Sustainable Development* is key to understanding many of the issues in Canada's endeavour to live up to its energy-related environmental responsibilities.

Pandemonium Andrew Nikiforuk, 2008-08-05. Our health and habitat are being threatened by biological invaders moving at unprecedented speed. Avian flu and its potential to cause a human pandemic is only one example of a worldwide menace unwittingly unleashed by the forces of globalization. The combination of unfettered free trade in living organisms, increased mobility, and urban crowding has created an increasingly volatile environment for the world's 6.5 billion people. Nikiforuk argues that it shouldn't take a pandemic to make us rethink the deadly pace of globalization and biological traffic. Authoritative and wide-ranging, *Pandemonium* is a clear-eyed guide to instability, unpredictability, and the hidden biological terrorist on our doorstep.
