Examinations have demonstrated how frequencies can impact us in positive or negative ways some repeat can tune our psyche to focus betterly and some low repeat can be caused bother and horribly influence the human body These trials have been attempted on water Our blood is 83% water mind 75 4% water muscles are 76% water bones 22% water If the frequencies change or mischief the water so what might they have the capacity to do to our body The two frequencies that have the most grounded gainful result on the human identity are 432hz and 528hz Each repeat has a substitute limit and trademark 440 HZ Is not in plan with the human body and these sound frequencies can be hurting it isn t found wherever in nature and can destroy innovativeness levels 396 HZ Turn despairing into rapture and empties fault and fear 417 HZ Cleanses horrendous experiences and empowers change 528HZ Known as the typical repeat of the earth repairs DNA and brings change and heavenly events into your life 638 HZ Enhances correspondence understanding flexibility and love Sustains associations 741 HZ Leads your to the vitality of self explanation which achieves an enduring and unadulterated life Cleans cells of toxic substances 852 HZ Help blend intuition and returns your vibration to spiritual mastermind 963HZ restores soul to its special settings clearly connected with light 528 HZ Heavenly event tone related with DNA repair Resonates with human body and nature In 2010 John Hutchinson an electronic imperativeness ace from Canada sifted waters using 528HZ 432HZ Is a sound that is numerically tuned in the most unfaltering to nature Both 528hz and 432hz are both recovering and has been tentatively exhibited that it patches the cerebrum body and soul These frequencies engage us to attract better things in our lives by boosting our sentiments Use these frequencies to restore your mind body and soul and raise your vibration Setting down with it on far away has shown that people wake up new Have you noticed that when you listen to a certain song that song can take you back to a great memory in the past Music can also take us back to one of the most hurtful times in life all by the power of listening to one song I have had songs that remind me of exes I d like to forget and bad situations that have happened to me in the past that in my everyday life I don t think about at all However after listening to that one song it stirs up memories and thoughts in my head that are not in alignment with me and do not move me forward As I said to you in my previous blog post If we are continuously unknowingly placing ourselves biologically in the past the Law of Attraction responds to the vibration we are giving out and by law holds us in that place of past in our physical lives The reason music affects our vibration is because in this very present moment your thoughts and feelings are creating your present and future If you are listening to songs that do not make you feel empowered and happy you are wasting valuable creating time Holding yourself in a lower vibration and by law the Law of Attraction will line you up with more low vibrational thoughts to match your feelings and thoughts you are thinking now and of course then come the physical manifestations of a lower vibrational match to you as that is what you were giving out in this very moment If you listen to Music and mix it with The Law of Attraction will line you up with so
