## **Sectarianism Analysis Of Religious And Non Religious Sects:**

*Sectarianism* Roy Wallis, 1975 One of the more extraordinary trends to have emerged in the West in the 1970s and one that has created considerable interest and curiosity particularly among sociologists is the proliferation of new religious sects. Their followers are often young people disenchanted with the drug culture but seeking a new spirituality in an intensely materialistic society. *Sectarianism* is a collection of essays studying this development. Edited by Roy Wallis, Lecturer in Sociology at the University of Stirling, it is written by leading sociologists from Britain, Canada and the USA and covers a wide range of sectarian movements in both the religious and the secular domains. Included are case studies of The Aetherius Society, a flying saucer cult, the Hare Krishna movement, the Jehovah's Witnesses and the United Family, an investigation of societal reaction to Scientology and a fascinating study contrasting modern communitarian movements with the Shakers, a once flourishing communitarian sect in the USA. In the secular domain, the book investigates organizations that though nonreligious exhibit characteristics of religious sects. These include the Concept Houses, one of the latest methods for rehabilitating drug addicts; two contemporary left wing political groups; and two ex-patient therapeutic groups, Neurotics Nomine and Recovery Inc. *Sectarianism* will be indispensable to the sociologists of religion; it should also prove of immense interest to the layman wishing to deepen his knowledge of this phenomenon beyond the superficial and often hysterical reporting in the press. **Sectarianism in Early Judaism** David J. Chalcraft, 2014-12-05 *Sectarianism in Early Judaism* applies recent developments in sociological analysis to sect formation and development in early Judaism. The essays examine sectarianism in a wide range of different forms: the many layers of redaction in religious texts; the development of sectarian groups; the role of sectarianism across Jewish history as well as in the time of the Second Temple and the relations within and between sects and between sects and wider society. The book aims to establish a conceptual framework for the analysis of sects and in doing so makes particular use of the work of Max Weber and Bryan Wilson, exploring the limits of their typologies and sociological theories.
