Sectes Et Da Mocratie:

The New Heretics of France Susan Palmer, 2011-09-30 Since the Age of Enlightenment France has upheld clear constitutional guidelines that protect human rights and religious freedom Today however intolerant attitudes and discriminatory practices towards unconventional faiths have become acceptable and even institutionalized in public life Susan Palmer offers an insightful examination of France's most stigmatized new religions or sectes and the public management of religious and philosophical minorities by the state The New Heretics of France tracks the mounting government sponsored anti cult movement in the wake of the shocking mass suicides of the Solar Temple in 1994 an event that ushered France's most visible religious minorities onto a blacklist of 172 sectes commissioned by the National Assembly Drawing on extensive interviews and field research Palmer describes the controversial histories of well known international New Religious Movements including the Church of Scientology Raelian Movement and Unificationism as well as esoteric local groups Palmer also reveals the partisanship of Catholic priests journalists village mayors and the passive public who support La R publique's efforts to control minority faiths all in the name of Liberty Equality and Fraternity Through historical and sociological theory Palmer analyzes France's war on sectes as a strategic response to social pressures arising from globalization and immigration Her study addresses the impact of these social pressures on traditional cultures and national character as well as important issues of religious freedom and public tolerance

New Religions and Globalization
 Armin Geertz, Margit Warburg, 2008-08-01 Globalization is a predominant theme in contemporary educational and political circles Research on globalization has become a political priority because the world has become a single place as Roland Robertson formulated it where events in any particular part of the world can and often do have political economical and military consequences for the rest of the world Discourse on globalization however has generally ignored the cultural consequences Recent waves of violence that seem to be religiously fueled if not motivated among immigrants and refugees in Europe and their home regions in the Middle East have demonstrated that we can only ignore culture values and religion at our own peril Globalization and new religions is the theme of this book It is argued here that studying new religions in a globalization perspective offers theoretical and methodological advantages both for the general study of religion and the general study of globalization Religions are often cosmopolitan and universal in their overall message yet they may at the same time be utterly immersed in local interactions This is often clearly expressed among minority religions The contrast of the local and the global is accentuated by globalization and in particular many new religions have followed suit This book draws together a selection of top quality papers given at a conference held in Aarhus in 2002 under the auspices of the Research Network on New Religions RENNER The papers which have been edited and up dated represent the work of leading scholars in the history of religions sociology of religion psychology of religion and other disciplines They address questions that are vital for everyone in the modern world whether approached as a reflection of world economy and power dynamics new possibilities of communication and cultural exchange in the light of mass media and technology increased cultural plurality in the wake of migration or as a combination of any of these globalization challenges the academic study of religion to renewed theoretical and methodological reflection

Handbook of East Asian New Religious Movements provides the first comprehensive and reliable guide to explore the vast East Asian new religious panorama Penned by leading scholars in the field the assembled contributions render the Handbook an invaluable resource for those interested in the crucial new religious actors and trajectories of the region Religion and Secularism in France Today Philippe Portier, Jean-Paul Willaime, 2022-05-02 This volume explores the dynamic life of religion and politics in France The separation of church and state and the autonomy of school education from religion are the two fundamental pillars of France as a secular republic The historical construction of French secularism laïcité was particularly marked by the strong opposition between the state and the Catholic church However the religious disaffiliation of a significant proportion of the French strengthened state secularism which gradually became more consensual despite some persisting tensions in the school context Yet in the last decades several factors have revived public debate on laicity the quarrel over sects and new religious movements controversies over Islam today the second largest religion in France and more recently dispute over bioethics Faced with these challenges laicity as well as the religious groups involved have been changing The authors of this book ranking amongst the best French experts in the study of religion and secularism introduce the reader to a living and lived laicity influenced by the social and religious dynamics of contemporary France They demonstrate that the configurations of French secularism are both more flexible and complex than they appear to be The volume investigates the extent to which the French idea of secularization has been pushed to be more thorough and radical in its interaction with its other European counterparts A key work on French political thought this volume will be of great interest to scholars and researchers of international politics political philosophy political sociology and religion and politics

Legal Cases, New Religious Movements, and Minority Faiths James T. Richardson, François Bellanger, 2016-04-22 New religious movements NRMs and other minority faiths have regularly been the focus of legal cases around the world in recent decades This is the first book to focus on important aspects of the relationship of smaller faiths to the societies in which they function by using specific legal cases to examine social control efforts The legal cases involve group leaders a groups practices or alleged abuses against members and children in the group legal actions brought by former members or third parties attacks against such groups by outsiders including even governments and libel and slander actions brought by religious groups as they seek to defend themselves These cases are sometimes milestones in the relation between state authorities and religious groups Exploring cases in different parts of the world and assessing the events causing such cases and their consequences this book offers a practical insight for understanding the relations of NRMs and other minority religions and the law from the perspective of legal cases Chapters focus on legal political and social implications Including contributions from scholars legal practitioners actual or former members and authorities involved in such cases from various jurisdictions this book presents an objective approach to understanding why so many legal actions have involved NRMs and other minority faiths in recent years in western societies and the consequences of those actions for the society and the

Around the Globe presents through the inclusion of contributions by international scholars a global examination of how a
number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such
groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis
falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest
when studying how contemporary societies attempt to maintain social order The factual details about social and legal
developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania
and the Americas This book will be of interest to researchers and students in the sociology of religion the sociology of law
social policy and religious studies as well as policy makers **The Burqa Affair Across Europe** Alessandro Ferrari, Sabrina
Pastorelli, 2016-03-23 In recent years the wearing of the full face veil or burqa niqab has proved a controversial issue in many
multi cultural European societies Focussing on the socio legal and human rights angle this volume provides a useful
comparative perspective on how the issue has been dealt with across a range of European states as well as at European
institutional level In so doing the work draws a theoretical framework for the place of religion between public and private
space With contributions from leading experts from law sociology and politics the book presents a comparative and
interdisciplinary approach to one of the most contentious and symbolic issues of recent times Social Theory and Religion
James A. Beckford, 2003-08-21 Many aspects of religion are puzzling these days This book looks at ways of improving our
understanding of religious change by strengthening the links between social theory and the social scientific study of religion
It clarifies the social processes involved in constructing religion and non religion in public and private life Taking illustrations
of the importance of these boundaries from studies of secularisation religious diversity globalisation religious movements and
self identity James A Beckford reviews the current state of social scientific knowledge about religion Religion Between
Governance and Freedoms Olga Breskaya, Roger Finke, Giuseppe Giordan, 2024-10-22 This edited volume proffers a

sociological outlook on the challenges contemporary societies face when states attempt to govern religious and cultural diversity and still protect freedoms of and from religion claimed by individuals communities and institutions The collection of chapters brings readers into both theoretical discussions and empirical research It illustrates how the promise of religious freedom has become a burgeoning social issue at the center of struggles over equity inclusion and cohesion in both public institutions and everyday interactions The book is divided into three parts the state s legal and political mechanisms governing religious freedom the challenges of religious pluralism for public institutions and global communities social perceptions of religious freedom as an indicator and criterion of human rights culture in society An international group of authors provide reviews case studies and data driven research for students researchers and practitioners working in the sociology of religion

Religion, Politics and Law in the European Union Lucian N. Leustean, John T.S.

Madeley, 2013-09-13 EU enlargement to countries in Central and Eastern Europe in 2004 the inclusion of Bulgaria and Romania in 2007 and increasing debates on Turkey s membership has dramatically transformed the European Union into a multi religious space Religious communities are not only shaping identities but are also influential factors in political discourse This edited volume examines the activities of religious actors in the context of supranational European institutions and the ways in which they have responded to the idea of Europe at local and international levels By bringing together scholars working in political science history law and sociology this volume analyses key religious factors in contemporary EU architecture such as the transformation of religious identities the role of political and religious leaders EU legislation on religion and the activities of religious lobbies This book was published as a special issue of Religion State and Society

Secularism Or Democracy? Veit-Michael Bader, 2007 Policies dealing with religious diversity in liberal democratic states as well as the established institutions that enforce those policies are increasingly under pressure Politics and political theory are caught in a trap between the fully secularized state and neo corporate regimes of selective cooperation between states and organized religion This volume proposes an original comprehensive and multidisciplinary approach to problems of governing religious diversity combining moral and political philosophy constitutional law history sociology and religious anthropology Drawing on such diverse scholarship Secularism or Democracy proposes an associational governance a moderately libertarian flexible variety of democratic institutional pluralism as the plausible third way to overcome the inherent deficiencies of the predominant models

The Ecumenical Movement and the Making of the European Community Lucian Leustean, 2014 A study that assesses the political history of religious dialogue in the European Community detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration
