Sectionalism In American Politics 1774 1787

John M. Murrin

Sectionalism In American Politics 1774 1787:

Sectionalism in American Politics, 1774-1787 Joseph L. Davis, 1977 *The Oxford Handbook of American Political History* Paula Baker, Donald T. Critchlow, 2020 This collection of essays by twenty nine distinguished scholars provides readers with a complete overview of American politics and policy that can be found in any single volume These essays reveal that American politics historically is volatile not given easily to civility and polarizing at the same time they explore important political developments in addressing real issues confronting the nation and the world **The Constitutional Convention of 1787** John R. Vile, 2005-06-24 The first encyclopedic treatment of the personalities politics and events involved in drafting the U S Constitution This comprehensive treatment of all the personalities philosophies debates and compromises involved in drafting the U S Constitution is the first encyclopedic work on the subject compiling information into an easily accessible A Z format Biographies of all 55 delegates analysis of the competing political viewpoints procedural and substantive disputes along with a host of other details are all presented here Both the detail and the scholarship in this book are unmatched in any other work the encyclopedic presentation simply does not exist elsewhere Civil liberties the scope of authority of the three branches of government and other constitutional matters are increasingly at the forefront of public discussion Scholars citizens interested in self education and reference librarians faced with questions about the Constitution will find in this book all they require to answer their needs *The Oxford Handbook of the U.S. Constitution* Mark Tushnet, Mark A. Graber, Sanford Levinson, 2015-07-31 The Oxford Handbook of the U S Constitution offers a comprehensive overview and introduction to the U S Constitution from the perspectives of history political science law rights and constitutional themes while focusing on its development structures rights and role in the U S political system and culture This Handbook enables readers within and beyond the U S to develop a critical comprehension of the literature on the Constitution along with accessible and up to date analysis The historical essays included in this Handbook cover the Constitution from 1620 right through the Reagan Revolution to the present Essays on political science detail how contemporary citizens in the United States rely extensively on political parties interest groups and bureaucrats to operate a constitution designed to prevent the rise of parties interest group politics and an entrenched bureaucracy The essays on law explore how contemporary citizens appear to expect and accept the exertions of power by a Supreme Court whose members are increasingly disconnected from the world of practical politics Essays on rights discuss how contemporary citizens living in a diverse multi racial society seek guidance on the meaning of liberty and equality from a Constitution designed for a society in which all politically relevant persons shared the same race gender religion and ethnicity Lastly the essays on themes explain how in a globalized world people living in the United States can continue to be governed by a constitution originally meant for a society geographically separated from the rest of the civilized world Whether a return to the pristine constitutional institutions of the founding or a translation of these constitutional norms in the present is possible remains the central challenge of U S constitutionalism

today **Encyclopedia of U.S. Political History** Andrew Whitmore Robertson, 2010 Annotation st1 behavior url ieouui

Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader s guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

The Framers' Coup Michael J. Klarman, 2016 Flaws in the Articles of Confederation Economic turmoil in the states and the road to Philadelphia The Constitutional Convention Slavery and the Constitutional Constitution Critics of the Constitution the Antifederalists The ratifying contest The Bill of Rights Conclusion

Whirlwind John Ferling, 2015-05-05 Amid a great collection of scholarship and narrative history on the Revolutionary War and the American struggle for independence there is a gaping hole one that John Ferling s latest book *Whirlwind* will fill Books chronicling the Revolution have largely ranged from multivolume tomes that appeal to scholars and the most serious general readers to microhistories that necessarily gloss over swaths of Independence era history with only cursory treatment Written in Ferling s engaging and narrative driven style that made books like *Independence* and *The Ascent of George Washington* critical and commercial successes *Whirlwind* is a fast paced and scrupulously told one volume history of this

epochal time Balancing social and political concerns of the period and perspectives of the average American revolutionary with a careful examination of the war itself Ferling has crafted the ideal book for armchair military history buffs a book about the causes of the American Revolution the war that won it and the meaning of the Revolution overall Combining careful scholarship arresting detail and illustrative storytelling Whirlwind is a unique and compelling addition to any collection of books on the American Revolution

Rethinking America John M. Murrin, 2018-04-02 For five decades John M Murrin has been the consummate historian's historian This volume brings together his seminal essays on the American Revolution the United States Constitution and the early American Republic Collectively they rethink fundamental questions regarding American identity the decision to declare independence in 1776 and the impact the American Revolution had on the nation it produced By digging deeply into questions that have shaped the field for several generations Rethinking America argues that high politics and the study of constitutional and ideological questions broadly the history of elites must be considered in close conjunction with issues of economic inequality class conflict and racial division Bringing together different schools of history and a variety of perspectives on both Britain and the North American colonies it explains why what began as a constitutional argument that virtually all expected would remain contained within the British Empire exploded into a truly subversive and radical revolution that destroyed monarchy and aristocracy and replaced them with a rapidly transforming and chaotic republic This volume examines the period of the early American Republic and discusses why the Founders' assumptions about what their Revolution would produce were profoundly different than the society that emerged from the American Revolution In many ways Rethinking America suggests that the outcome of the American Revolution put the new United States on a path to a violent and bloody civil war With an introduction by Andrew Shankman this long awaited work by one of the most important scholars of the Revolutionary era offers a coherent interpretation of the complex period that saw the breakdown of colonial British North America and the founding of the United States

Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

The American Farmer in the Eighteenth Century Richard L. Bushman, 2018-01-01 An illuminating study of America's agricultural society during the Colonial Revolutionary and Founding eras In the eighteenth century three quarters of Americans made their living from farms This authoritative history explores the lives cultures and societies of America's farmers from colonial times through the

founding of the nation Noted historian Richard Bushman explains how all farmers sought to provision themselves while still actively engaged in trade making both subsistence and commerce vital to farm economies of all sizes The book describes the tragic effects on the native population of farmers efforts to provide farms for their children and examines how climate created the divide between the free North and the slave South Bushman also traces midcentury rural violence back to the century s population explosion An engaging work of historical scholarship the book draws on a wealth of diaries letters and other writings including the farm papers of Thomas Jefferson and George Washington to open a window on the men women and children who worked the land in early America *Founding Choices* Douglas A. Irwin, Richard Sylla, 2011-01-15 Papers of the National Bureau of Economic Research conference held at Dartmouth College on May 8 9 2009 **The Picky Eagle** Richard W. Maass, 2020-05-15 The Picky Eagle explains why the United States stopped annexing territory by focusing on annexation s domestic consequences both political and normative It describes how the US rejection of further annexations despite its rising power set the stage for twentieth century efforts to outlaw conquest In contrast to conventional accounts of a nineteenth century shift from territorial expansion to commercial expansion Richard W Maass argues that US ambitions were selective from the start By presenting twenty three case studies Maass examines the decision making of US leaders facing opportunities to pursue annexation between 1775 and 1898 US presidents secretaries and congressmen consistently worried about how absorbing new territories would affect their domestic political influence and their goals for their country These leaders were particularly sensitive to annexation s domestic costs where xenophobia interacted with their commitment to democracy rather than grant political representation to a large alien population or subject it to a long term imperial regime they regularly avoided both of these perceived bad options by rejecting annexation As a result US leaders often declined even profitable opportunities for territorial expansion and they renounced the practice entirely once no desirable targets remained In addition to offering an updated history of the foundations of US territorial expansion The Picky Eagle adds important nuance to previous theories of great power expansion with implications for our understanding of US foreign policy and international relations **We Have Not a Government** George William Van Cleve, 2017-10-13 Provides a focused explanation of the reasons the Articles of Confederation the nation s first federal constitution went lurching toward collapse Jack Rakove Pulitzer Prize winner The Washington Post In 1783 as the Revolutionary War came to a close Alexander Hamilton resigned in disgust from the Continental Congress after it refused to consider a fundamental reform of the Articles of Confederation Just four years later that same government collapsed and Congress grudgingly agreed to support the 1787 Philadelphia Constitutional Convention which altered the Articles beyond recognition What occurred during this remarkably brief interval to cause the Confederation to lose public confidence and inspire Americans to replace it with a dramatically more flexible and powerful government We Have Not a Government is the story of this contentious moment in American history At the time America was a sharply divided country Amid a deep long lasting recession the Confederation faced

massive war debts and experienced punishing trade restrictions and strong resistance to American territorial expansion Exploding western settlement led to bitter sectional divisions that deadlocked the Continental Congress Van Cleve shows how these remarkable stresses transformed the Confederation into a stalemate government and eventually led previously conflicting states sections and interest groups to advocate for a union powerful enough to govern a continental empire Touching on the stories of a wide ranging cast of characters including John Adams Patrick Henry Daniel Shays George Washington and Thayendanegea Van Cleve makes clear that it was the Confederation s failures that created a political crisis and led to the 1787 Constitution Clearly argued and superbly written *We Have Not a Government* is a must read history of this crucial period in our nation s early life

The American Union and the Problem of Neighborhood James E. Lewis Jr.,2000-11-09 In this book James Lewis demonstrates the centrality of American ideas about and concern for the union of the states in the policymaking of the early republic For four decades after the nation s founding in the 1780s he says this focus on securing a union operated to blur the line between foreign policies and domestic concerns Such leading policymakers as Thomas Jefferson James Madison James Monroe John Quincy Adams and Henry Clay worried about the challenges to the goals of the Revolution that would arise from a hostile neighborhood whether composed of new nations outside the union or the existing states following a division of the union At the center of Lewis s story is the American response to the dissolution of Spain s empire in the New World from the transfer of Louisiana to France in 1800 to the independence of Spain s mainland colonies in the 1820s The breakup of the Spanish empire he argues presented a series of crises for the unionist logic of American policymakers leading them finally to abandon a crucial element of the distinctly American approach to international relations embodied in their own federal union

Three British Revolutions John Greville Agard Pocock,2014-07-14 In this collection of essays a group of distinguished American and British historians explores the relations between the American Revolution and its predecessors the Puritan Revolution of 1641 and the Glorious Revolution of 1688 Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Genes, Brains, and Politics Elliott White,1993-06-21 White moves from a simple proposition maintaining that all individuals seek suitable surroundings to propose a provocative approach to social and political action Rooting his position in modern life sciences and particularly in sociobiology and neurobiology he establishes an IMPish model that is interactional mentalist and populational Interactional in that both heredity and environment are credited for due influence on individuals traits mentalist in that individuals actions can be purposeful rather than simply determined and populational in his insistence that the unique persona must not be slighted in

the rush to fashion statistics Applying his behavioral principles most notably relevant to self selection and using examples derived from modern political action White examines the importance of these fundamental orientations in the social and political orders The work has implications for policy assessment and re formulation It constitutes a challenge to much of the widely accepted contemporary political theory and public policy approaches **Peace Pact** David C.

Hendrickson,2003-04-29 That New England might invade Virginia is inconceivable today But interstate rivalries and the possibility of intersectional war loomed large in the thinking of the Framers who convened in Philadelphia in 1787 to put on paper the ideas that would bind the federal union together At the end of the Constitutional Convention Benjamin Franklin rejoiced that the document would astonish our enemies who are waiting to hear with confidence that our States are on the point of separation only to meet hereafter for the purpose of cutting one another s throats Usually dismissed as hyperbole this and similar remarks by other Founders help us to understand the core concerns that shaped their conception of the Union By reexamining the creation of the federal system of the United States from a perspective that yokes diplomacy with constitutionalism Hendrickson s study according to Karl Walling introduces a new way to think about what is familiar to us This ground breaking book then takes a fresh look at the formative years of American constitutionalism and diplomacy It tells the story of how thirteen colonies became independent states and found themselves grappling with the classic problems of international cooperation and it explores the intellectual milieu within which that problem was considered The founding generation Hendrickson argues developed a sophisticated science of international politics relevant both to the construction of their own union and to the foreign relations of the several states in the union of the empire The centrality of this discourse he contends must severely qualify conventional depictions of early American political thought as simply liberal or republican Hendrickson also takes issue with conventional accounts of early American foreign policy as unilateralist or isolationist and insists that the founding generation belonged to and made distinguished contributions to the constitutional tradition in diplomacy the antecedent of twentieth century internationalism He describes an American system of states riven by deep sectional animosities and powerful loyalties to colonies and states often themselves described as nations and explains why in such a milieu the creation of a durable union often appeared to be a quixotic enterprise The book culminates in a consideration of the making of the federal Constitution here styled as a peace pact or experiment in international cooperation Peace Pact is an important book that promises to revolutionize our understanding of the era of revolution and constitution making Written in a lucid and accessible style the book is an excellent introduction to the American founding and its larger significance in American and world history Recreating the American Republic Charles A. Kromkowski,2002-09-16 Rules of apportionment are elements of social and political order In social gatherings families and governments they assume a variety of written and unwritten forms and in every order they determine not only how collective decisions are made but also how and why a particular constitutional order develops over time Recreating the American Republic provides a far reaching

analysis of when how and why these rules change and with what consequences Recreating the American Republic reveals the import of these rules of apportionment by engaging the three most widely recognized and studied eras and events of American political history the Colonial era and the American Revolution the early national years and the 1787 Constitutional Convention and the nineteenth century and the American Civil War Recreating the American Republic systematically compares each seemingly familiar era and event revealing new insights and a new metanarrative of American political development between 1700 and 1870 *George Washington's Final Battle* Robert P. Watson, 2021-02-15 George Washington's Final Battle tells the little known story of how the country's first president tirelessly advocated for a capital on the shores of the Potomac Although Washington died just months before the federal government's relocation his vision and influence live on in the city that bears his name *Encyclopedia of U.S. Political History* Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader's understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader's guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system VOLUME 3

Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877 VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt s presidency the Supreme Court s conservative traditions and a new judicial outlook VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered
