Coping with Burglary R.V.G. Clarke,T. Hope,2012-12-06 This book contains the papers given at a workshop organised by the Home Office England and Wales on the subject of residential burglary This is a topic of much public concern and I welcome the Home Office initiative in mounting the workshop The contributors were all researchers and criminologists who have made a special study of burglary and their brief was to consider the implications of their work for policy As a policeman I find their work of particular interest and relevance at this time when police performance as traditionally measured by the clear up rate is not keeping pace with the increase in the numbers of burglaries coming to police attention The finding that increases in burglary are more reflective of the public's reporting habits than of any significant rise in the actual level of burglary helps with perspective but offers little comfort to policemen The 600 0 increase in the official statistics since 1970 is accompanied by a proportionate increase in police work in visiting victims searching scenes of crime writing crime reports and completing other documentation In some forces the point has been reached where available detective time is so taken up by the volume of visits and reports that there is little remaining for actual investigation But because of the random and opportunist nature of burglary it cannot be said with any confidence that increasing investigative capacity would make a significant and lasting impact on the overall burglary figures

Smallholders, Householders Robert McC. Netting,1993 Contrasting the prevailing theories of the evolution of agriculture the author argues that the practice of smallholding is more efficient and less environmentally degrading than that of industrial agriculture which depends heavily on fossil fuel chemical fertilizers pesticides and herbicides He presents a convincing case for his argument with examples taken from Africa Asia Europe and the Americas and demonstrates that there are fundamental commonalities

among smallholder cultures Smallholders Householders is a detailed and innovative analysis of the agricultural efficiency and conservation of resources practiced around the world by smallholders
