Kerslake, K. Öktem, P. Robins, 2010-02-25 Turkey s Enagement with Modernity explores how the country has been shaped in the image of the Kemalist project of nationalist modernity and how it has transformed if erratically into a democratic society where tensions between religion state and society continue unabated The Cambridge History of Turkey Kate Fleet, Suraiya Faruqi, Reşat Kasaba, 2006 Publisher Description **Travel, Space, Architecture** Miodrag Mitrasinovic, 2016-02-17 Travel Space Architecture defines a new theoretical territory in architectural and urban scholarship that frames the processes of spatial production through the notion of travel By aligning architectural thinking with current critical theory debates this book explores whether dissociating culture from place and identity and detaching the idea of architecture from both can reframe our understanding of spatial and architectural practices The book presents seventeen key case studies from a diverse range of perspectives including historical theoretical

and praxis based and range from interrogations of architectural travel and notions of belonging and nationhood to challenging established geopolitical hierarchies

Imagining the Turkish House Carel Bertram, 2013-05-01 Houses can become poetic expressions of longing for a lost past voices of a lived present and dreams of an ideal future Carel Bertram discovered this truth when she went to Turkey in the 1990s and began asking people about their memories of the Turkish house The fondness and nostalgia with which people recalled the distinctive wooden houses that were once ubiquitous throughout the Ottoman Empire made her realize that the Turkish house carries rich symbolic meaning In this delightfully readable book Bertram considers representations of the Turkish house in literature art and architecture to understand why the idea of the house has become such a potent signifier of Turkish identity Bertram's exploration of the Turkish house shows how this feature of Ottoman culture took on symbolic meaning in the Turkish imagination as Turkey became more Westernized and secular in the early decades of the twentieth century She shows how artists writers and architects all drew on the memory of the Turkish house as a space where changing notions of spirituality modernity and identity as well as the social roles of women and the family could be approached contested revised or embraced during this period of tumultuous change

Rethinking Modernity and National Identity in Turkey Sibel Bozdogan, Resat Kasaba, 2011-11-15 In the first two decades after W W II social scientist heralded Turkey as an exemplar of a modernizing nation in the Western mold Images of unveiled women working next to clean shaven men healthy children in school uniforms and downtown Ankara s modern architecture all proclaimed the country s success Although Turkey s modernization began in the late Ottoman era the establishment of the secular nation state by Kemal Ataturk in 1923 marked the crystallization of an explicit elite driven project of modernity that took its inspiration exclusively from the West The essays in this book are the first attempt to examine the Turkish experiment with

modernity from a broad interdisciplinary perspective encompassing the fields of history the social sciences the humanities architecture and urban planning As they examine both the Turkish project of modernity and its critics the contributors offer a fresh balanced understanding of dilemmas now facing not only Turkey but also many other parts of the Middle East and the world at large

Building the Cold War Annabel Jane Wharton, 2001 In postwar Europe and the Middle East Hilton hotels were quite literally little Americas For American businessmen and tourists a Hilton Hotel with the comfortable familiarity of an English speaking staff a restaurant that served cheeseburgers and milkshakes trans Atlantic telephone lines and most important air conditioned modernity offered a respite from the disturbingly alien For impoverished local populations these same features lent the Hilton a utopian aura The Hilton was a space of luxury and desire a space that realized permanently and prominently the new and powerful presence of the United States *Building the Cold War* examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host city as well as its finest hotel The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel s unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul s cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War s first international businesses and demonstrates that the Hilton s role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space
