Seduction In Berlin:

Seduction in Berlin William Kotzwinkle, 1985 *A Seduction in Berlin* Nicola Cameron, 2024-12-16 Three people Two homelands One irresistible desire The year is 1923 the Great War is over and Berlin is the manic playground of Europe's elite Against a glittering background of nightclubs champagne and hot jazz three people a sensual heiress with a taste for dominance a wounded playboy who craves the touch of his own kind and a desperate German army officer who uncovers hidden desires forge a decadent pact of pleasure But nights of uninhibited passion soon lead to a dangerous emotional connection one that will threaten their futures and their lives Note This book was previously published as *Behind the Iron Cross*

Willing Seduction Barbara Kosta, 2012 This fascinating cultural history of *The Blue Angel* provides a new interpretive framework with which to approach this classic Weimar film and suggests that discourses on mass and high culture are integral to the film's thematic and narrative structure These discourses surface in the relationship between the two main characters the cabaret entertainer Lola Lola Marlene Dietrich and the high school teacher Immanuel Rath one time Oscar winner Emil Jannings In addition to offering insight into some of the major debates that informed the Weimar Republic this book also demonstrates how similar issues continue to shape the contemporary cultural landscape of Germany where Dietrich serves as a cultural icon whose symbolic value has contributed significantly to nation building since German unification rear cover

Seduction and Power Silke Knippschild, Marta Garcia Morcillo, 2013-08-15 This volume focuses on the reception of antiquity in the performing and visual arts from the Renaissance to the twenty first century It explores the tensions and relations of gender sexuality eroticism and power in reception Such universal themes dictated plots and characters of myth and drama but also served to portray historical figures events and places from Classical history Their changing reception and reinterpretation across time has created stereotypes models of virtue or immoral conduct that blend the original features from the ancient world with a diverse range of visual and performing arts of the modern era The volume deconstructs these traditions and shows how arts of different periods interlink to form and transmit these images to modern audiences and viewers Drawing on contributions from across Europe and the United States a trademark of the book is the inclusive treatment of all the arts beyond the traditional limits of academic disciplines

Tales of Berlin in American Literature up to the 21st Century Joshua Parker, 2016-03-17 Of all European cities Americans today are perhaps most curious about Berlin whose position in the American imagination is an essential component of nineteenth century postwar and contemporary transatlantic imagology Over various periods Berlin has been a tenuous space for American claims to cultural heritage and to real geographic space in Europe symbolizing the ultimate evil and the power of redemption This volume offers a comprehensive examination of the city's image in American literature from 1840 to the present Tracing both a history of Berlin and of American culture through the ways the city has been narrated across three centuries by some 100 authors through 145 novels short stories plays and poems *Tales of Berlin* presents a composite landscape not only of the

German capital but of shifting subtexts in American society which have contextualized its meaning for Americans in the past and continue to do so today **Artful Seduction** Karl Posso,2017-12-02 The controversial works of Brazilian authors Silviano Santiago 1936 and Caio Fernando Abreu 1948 96 offer distinctive but complementary explorations of male homosexual subjectivities formulated through displacement exile and the abject Posso examines the innovative ways in which these writers stage manage Western poststructuralist thought to critique heterosexist exclusion in Brazil and in globalized popular and folk culture and he explains how they draw on diverse cultural productions and art works to extend a general undermining of oppositional logic and psychoanalytic theory **Power and Space** John Allen,2024-08-05 Power and Space sets out the inherently spatial nature of power today and seeks to change the conversation around how power exercises us in the contemporary moment The essays brought together in this book are a response to the fact that conventional descriptions of power and its ordered geographies no longer chime with our lived experience Spatiality matters to the workings of power nowadays and this book sheds light on what it is that we face when power is exercised through more subtle spatially nuanced arrangements It is divided into three parts each representing a different kind of engagement with power s relationship to space from the spatial shifts in the way power is exercised through to its assemblage like entanglements and in turn its progressive topological character Throughout the book a wide range of social political and economic examples are drawn upon to illustrate a more provisional sense of power ranging for instance from the seductive logic of privatized public spaces to the attempt by a data analytics company to manipulate political behaviour through to the offshore spaces invented by rising financial elites to challenge the established banking order Illustrating the new found abilities of the powerful to make their presence felt this book provides an accessible account of the practical workings of power in the present day It will be invaluable to students and academics in human geography and urban studies as well as politics sociology and cultural studies

Resounding Pasts Drago Momcilovic,2020-05-15 The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated forgotten re fashioned or worked through on both the individual and collective level Yet in an age when various modes of artistic and cultural commemoration have begun to overlap with and respond to one another the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal cultural and national borders As publicly circulating texts that straddle the line between cultural artifact and artistic object both musical and literary works both individually and often in conjunction with one another help shape cultural memories and individual experiences of those events Troping their cultural milieux through specific aesthetic and social forms genres and modes of dissemination music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember the consequences of sharing and passing on those memories and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that re sound the past Changing the Subject in

English Class Marshall W. Alcorn, 2002 Alcorn English and humanities George Washington U argues that the gradual shift in the teaching of composition from a curriculum that looked at literature as an attempt to represent reality to one that stresses the subjectivity of the student in decoding texts has incorporated an insufficiently complex understanding of subjectivity The current cultural studies programs stress political ideas over expressive writing but Alcorn argues that political ideas will never be right unless there is attention to self expression Basing his work in the conceptual world of psychoanalytic theory he outlines a cultural studies practice that develops anti ideological identity Annotation copyrighted by Book News Inc Portland OR *Film as a Medium of Seduction* Marcus Stiglegger, 2024-03-14 The seduction theory defines film in a broader sense as a medium of seduction based on the French concept of s duction It is a theoretical approach influenced by continental philosophy and classical film theory linked to a three stage analytical model The book introduces the theoretical foundations and using various classical and contemporary examples from film history presents a genuine method of film analysis

Present Pasts Andreas Huyssen, 2003 This book analyzes the relation of public memory to history forgetting and selective memory in three late twentieth century cities that have confronted major social or political traumas Berlin Buenos Aires and New York **Your Name Here** Helen DeWitt, Ilya Gridneff, 2025-10-21 A major literary event over two decades in the making Your Name Here marks the seismic return of Helen DeWitt The Last Samurai and will introduce readers to the riveting voice of Ilya Gridneff A book of unparalleled scope and vision Your Name Here is a spectacular honeycomb of books within books In this death defying feat of ambition collaborators Helen DeWitt and Ilya Gridneff weave together America s War on Terror countless years of literary history authorial sleight of hand Scientology dream analysis multiple languages emails images graphs into something wondrous and unique A metafictional Pygmalion story reminiscent of Charlie Kaufman s Oscar nominated *Adaptation* or Italo Calvino s *If on a winter s night a traveler* Your Name Here is a rare work of art that captures the process of becoming itself A reminder that a masterpiece and a doomed voyage look the same at the start

Cities and Cinema Barbara Mennel, 2019-05-13 The second edition of *Cities and Cinema* provides an updated survey of films about cities from their significance for modernity at the beginning of the twentieth century to the contemporary relationship between virtual reality and urban space The book demonstrates the importance of the filmic depiction of capitals for national cinemas in the twentieth century and analyzes the transnational transfer of cinematic images surrounding global cities in the twenty first century *Cities and Cinema* covers the different facets of the cinematic depiction of cities It rehearses distinct methodologies and offers a survey of the history of the cinematic city The book also deepens our understanding of tropes and narrative conventions that shape films about urban settings and that reflect the transformation of cities throughout the twentieth and twenty first centuries Beginning with a discussion of the Weimar street film it analyzes how the city film defined modernity The book outlines the sociological context and the aesthetic features of so called film noir made in 1940s Hollywood and depicting Los Angeles Paris became the site for the development of auteur cinema which repeatedly

depicts characters moving through the city Tokyo took up noir to signal modern crime The volume delineates how filmic genres such as science fiction comment on the present by imagining future forms of urban living After analyzing how cinema captures the relationship between sexual identity and urban anonymity migration and urban space and marginalized ethnic and sexual identity in ghetto films the book emphasizes transnational dynamics and global cities in the twenty first century Its conclusion points to the increasing virtual mediation of cities with new media Cities and Cinema offers a historical overview of the development of films about cities and a theoretical approach to the intersection of urban studies and film studies This title is designed as a textbook primarily for second year undergraduate students in Film Media studies Urban studies as well as Geography and Planning

Neoliberalism, Postmodernity, and the Contemporary

Memorial-Building Boom Nicola Clewer, 2022-06-06 The book develops a new approach to and a distinct reading of the contemporary memorial building boom which began in the 1980s Locating the origins of this boom in the crises associated with postmodernity and the rise of neoliberalism it analyses the complex interplay between neoliberalism postmodernism and nationalism in some of the most well known memorials and memorial museums to have emerged in the USA and Germany over the last four decades Rather than offering a survey of contemporary memorials it traces a specific trajectory and certainly not the only one ripe for analysis from the postmodern memorials of the 1980s to the increasingly monumental and authoritative memorials and memorial museums being constructed today Developing a distinct interdisciplinary approach the book offers a critical analysis of the relationship between the memorials form the visitor experience they re intended to offer and the understanding of history and our relation to it which underpins their philosophical ethical and political stance Questioning the notion that contemporary memorials are ambiguous non ideological and non nationalistic the book argues that they are engaged in rearticulating nationalism in line with the contradictory demands of the current conjuncture As well as critically analysing the political function of national memorials the book is equally concerned with interrogating the aesthetic means they employ with a specific focus on the way in which they mobilise the power of the sublime to generate particular affective responses The book argues that contemporary national memorials reflect one of the most significant convergences between postmodern thought and neoliberal ideology both project a permanent present urging us to recreate ourselves in the light of existing conditions for there is no alternative

Berlin's Third Sex Magnus Hirschfeld, 2025-04-30

In 1904 Berlin did not exactly look like a haven of tolerance Sex between consenting males and gender non conformity were illegal and other forms of sexual expression faced oppressive societal taboos But despite fear secrecy and blackmail Germany's imperial capital nurtured a vibrant and diverse queer subculture In Berlin's Third Sex German sexologist Magnus Hirschfeld offers a sympathetic glimpse into this queer life depicting spaces such as gyms bars caf's aristocratic drawing rooms and tenement apartments that drew the third sex exiles from contemporary gender and sexual norms Intimate striking and surprisingly sentimental Hirschfeld's account takes us from drag king cavaliers at all night lesbian balls to uranian men

darning socks for their soldier sweethearts and from cigar smoking trans men to sex workers in moonlit parks Hirschfeld reveals vast networks of clandestine connections coded vernacular camp aliases inspired by pop culture encrypted classified ads and even a pre Grindr telegraphic service for summoning temporary companions Featuring extensive notes an informative afterword and an earlier pamphlet on same sex attraction by Hirschfeld this volume is of crucial importance for students scholars and readers interested in queer history

Berlin's Black Market Malte Zierenberg, 2016-04-29 This book puts the illegal economy of the German capital during and after World War II into context and provides a new interpretation of Germany's postwar history The black market it argues served as a reference point for the beginnings of the two new German states

Like a Film Timothy Murray, 2005-08-02 In this stimulating collection of theoretical writings on film photography and art Timothy Murray examines relations between artistic practice sexual and racial politics theory and cultural studies Like a Film investigates how the cinematic apparatus has invaded the theory of culture suggesting that the many destabilising traumas of our culture remain accessible to us because they are structured so much like film The book analyses the impact of cinematic perceptions and productions on a wide array of cultural practices from the Renaissance works of Shakespeare and Caravaggio to modern sexual and political fantasy and the theoretical work of Lyotard Torok Barthes Ropars Willeumier Žižek Silverman and Laplanche Like A Film responds to current multicultural debates over the value of theory and the aim of artistic practice

A History of Homosexuality in Europe, Vol. I & II Florence Tamagne, 2006 Outstanding Academic Title 2005 Choice Magazine The period between the two world wars was crucial in the history of homosexuality in Europe It was then that homosexuality first came out into the light of day Just crawling out from under the Victorian blanket Europe was devastated by a gruesome war that consumed the flower of its youth Tamagne examines the currents of nostalgia and yearning euphoria rebellion and exploration in the postwar era and the bonds forged at school and on the battlefield in a scholarly treatise charting the early days of the homosexual and lesbian scene Berlin became the capital of the new culture and the center of a political movement seeking rights and protections for what we now call gays and lesbians In England the struggle was brisk to undermine the structures and strictures of Victorianism whereas in France which was more tolerant over all homosexuality remained more subtle and nonmilitant However the social and political backlash soon became apparent first of all in Germany More conservative attitudes arrested the evolution of the new mores and it was not until the 1960s that the new wave of the sexual revolution once again swept the continent Tamagne's work outlines the long and arduous journey from the shadows toward acceptability as the homosexual and lesbian community sets out to find a new legitimacy at various levels of society She weaves together cultural references from literature songs and theater news stories and private correspondence police reports and government documents to give a rounded picture of the evolving scene The first volume argues that homosexuality a high culture sort enjoyed a golden age consequent upon the Great War's liberalization of morals In volume 2 reaction and repression march through the 1930s A lively read Highly

recommended CHOICE Magazine Florence Tamagne holds a PhD from the prestigious Institute of Political Studies in Paris France This is her second book tracing the evolution of homosexuality in Europe *Acts of Memory* Mieke Bal,Jonathan V. Crewe,Leo Spitzer,1999 A theoretically grounded interdisciplinary study of cultural memory in sites ranging from Chile Bolivia and South Africa to Germany and the US **The Afterlives of Weimar Berlin** Jill Suzanne Smith,2024 Explores the recent proliferation of literary and filmic representations of Weimar Berlin in German culture probing the connections between historical and contemporary texts their contexts and their creators often German Jews and women More than a century after its founding there can be little doubt that Weimar is back The recent proliferation of references to and portrayals of the Weimar Republic Germany s first democracy born out of the aftermath of the First World War and characterized by economic and political crisis is not surprising given our crisis filled present That said the Weimar era has been a consistent focus of scholarly work in both the German speaking and the Anglo American academic worlds since the 1970s and yet depictions of this period in German literature and visual culture were few and far between until the beginning of the 21st century This book traces this renewed fascination with Weimar specifically its capital Berlin in contemporary German language culture providing both wide angle and close up views While discussions of the time period in mainstream media and historiography tend to focus on Weimar as a warning against the dangers of economic and political instability the novels and visual works produced by contemporary German writers and filmmakers in the last 15 years revive and reshape the cultural legacy of Weimar Berlin The Afterlives of Weimar Berlin explores the creative interplay between contemporary and historical texts their contexts and their creators tracing a cultural legacy that has the work of German Jews and women as its foundation
