Seductiveness Of Jewish Myth Challenge Or Response Suny Series In Judaica Hermeneutics Mysticism Religion:

The Seductiveness of Jewish Myth S. Daniel Breslauer, 2012-02-01 The Seductiveness of Jewish Myth offers a panorama of diverse definitions of myth understandings of Judaism and competing evaluations of the mythic element in religion The contributors focus on the problem of defining myth as a category in religious studies examine modern religion and the role of myth in a secularized world and look at specific cases of Jewish myth from biblical through modern times **Whitaker's Books in Print**, 1998 *Subject Guide to Books in Print*, 1971 *SUNY Series in Judaica*, 19?? The Holy Name Miriam Bokser Caravella, 2003 **Jewish Magic and Superstition** Joshua Trachtenberg, THE anomalous position of the Jew in the modern world is but a latter day version of the fate that has dogged his footsteps ever since he wandered forth among strange and hostile peoples In no time and place however was his status and his plight so manifestly unique as in medieval Europe The essence of that uniqueness lay in his ambiguous relationship to the Christian society in which he led his precarious existence on the one hand influenced by all the objective forces which molded his environment on the other shut off from that environment by insurmountable walls of suspicion and animosity His wilful persistence in his religious and cultural difference from the intolerant Christian civilization of the day the dogmatic enmity fostered by the Church his minority status coupled with an effective economic competition with his non Jewish neighbors all these combined to create an attitude of envy and hatred But these alone do not tell the whole story we must admit a further element into the psychological complex which determined the attitude of Christian toward Jew an element which today has lost its force in the composition of anti Semitism but which in the Middle Ages loomed very large For it contributed the emotion of fear even of superstitious dread in an age when superstition was the prevailing faith not alone of the masses but of many of their leaders as well Sorcery was a very real and terrifying phenomenon in those days and many medieval Christians looked upon the Jew as the magician par excellence The allegiance to Satan attributed to Jews with an insistence that almost drowned out its true implication was not merely a form of invective or rhetoric Satan was the ultimate source of magic which operated only by his diabolic will and connivance Christian writers make it quite clear that this is the connection to which they refer 1 Secular and religious authorities took action time and again against the Jews expressly on this count and the Inquisition occasionally availed itself of the charge to get around the restrictions of ecclesiastical law which excluded the Jew from its legitimate hunting grounds The masses also were quick to seize the opportunity afforded by this accusation and mass attacks upon the Jews frequently followed the levelling of the charge To cite but one instance the most violent mob assault upon Jews in England which overwhelmed every major Jewish community and took a tragic toll of martyrs had its inception at the coronation of Richard I in London on September 3 1189 On that occasion a Jewish delegation bearing gifts and pledges of allegiance was driven from the palace publicly accused of having come to cast their enchantments over the newly crowned king and was set upon by the crowd the outbreak spread rapidly through the city and the land took more than half a year to

spend itself and left in its wake a trail of horrible butcheries Such manifestations in greater or lesser degree were the usual concomitant of a like accusation The striking feature of the Christian apprehension of Jewish sorcery is that it adhered not to certain specific Jews who had aroused it by their actions but rather to the entire people en masse Consequently every innocent Jewish act which by its strangeness laid itself open to suspicion was considered a diabolical device for working magic against Christians The custom of throwing a clod of earth behind one after a funeral brought a charge of sorcery in Paris in the early years of the thirteenth century which might have had dire consequences if a certain Rabbi Moses b Ye iel had not succeeded in persuading the king of its utterly harmless character The practice of washing the hands on returning from the cemetery aroused the same suspicions of sorcery and provoked some bloody scenes **Jewish Mystical**

Testimonies Louis Jacobs,1977 **Jewish Magic and Superstition** ,1979 SUNY series in judaica. Hermeneutics ,
