Gulag Literature and the Literature of Nazi Camps Leona Toker, 2019-08-28 A literary scholar examines survival narratives from Russian and German concentration camps shedding new light on testimony in the face of evil In this illuminating study Leona Toker demonstrates how Holocaust literature and Gulag literature provide contexts for each other especially how the prominent features of one shed light on the veiled features and methods of the other Toker's analysis concentrates on the narrative qualities of the works as well as how each text documents the writer's experience in a form where fictionalized narrative can double as historical testimony Toker also views these texts against the background of historical information about the Soviet and the Nazi regimes of repression Writers at the center of this work include Varlam Shalamov Primo Levi Elie Wiesel and Ka Tzetnik and others including Aleksandr Solzhenitsyn Evgeniya Ginzburg and Jorge Sempr n illuminate the discussion Toker also provides context for references to potentially obscure historical events and shows how they form new meaning in the text

Meanings and Values of Water in Russian Culture Jane Costlow, Arja Rosenholm, 2016-11-25 Bringing together a team of scholars from the diverse fields of geography literary studies and history this is the first volume to study water as a cultural phenomenon within the Russian Soviet context Water in this context is both a cognitive and cultural construct and a geographical and physical phenomenon representing particular rivers the Volga the Chusovaia in the Urals the Neva and bodies of water from Baikal to sacred springs and the flowing water of nineteenth century estates but also powerful systems of meaning from traditional cultures and those forged in the radical restructuring undertaken in the 1930s Individual

chapters explore the polyvalence and contestation of meanings dimensions and values given to water in various times and spaces in Russian history The reservoir of symbolic association is tapped by poets and film makers but also by policy makers the popular press and advertisers seeking to incite reaction or drive sales The volume s emphasis on the cultural dimensions of water will link material that is often widely disparate in time and space it will also serve as the methodological framework for the analysis undertaken both within chapters and in the editors introduction

Photographic Literacy Katherine M. H. Reischl, 2018-12-15 Photography introduced to Russia in 1839 was nothing short of a sensation Its rapid proliferation challenged the other arts including painting and literature as well as the very integrity of the self If Leo Tolstoy and Fyodor Dostoevsky greeted the camera with skepticism in the nineteenth century numerous twentieth century authors welcomed it with a warm embrace As Katherine M H Reischl shows in *Photographic Literacy* authors as varied as Leonid Andreev Ilya Ehrenburg and Alexander Solzhenitsyn picked up the camera and reshaped not only their writing practices but also the sphere of literacy itself For these authors a single photograph or a photograph as illustration is never an endpoint their authorial practices continually transform and animate the frozen moment But just as authors used images to shape the reception of their work and selves Russian photographers including Sergei Prokudin Gorsky and Alexander Rodchenko used text to shape the reception of their visual work From the diary to the literary word imbues that photographic moment with a personal life story and frames and reframes it in the writing of history In this primer on photographic literacy Reischl argues for the central place that photography has played in the formation of the Russian literary imagination over the course of roughly seventy years From image to text and back again she traces the visual consciousness of modern Russian literature as captured through the lens of the Russian author photographer

Poland's Transformation Bjorn Kurten, 2017-07-12 Poland has carried out two peaceful revolutions in the span of one generation first the self limiting

movement of Solidarity which undermined the legitimacy of Communism and then a negotiated transfer of power from Communism to free market democracy Today while Poland is seen as a success story and is joining political and economic associations in the democratic West Poles themselves seem downcast They ask is social anomie a price worth paying for a successful transformation In making moral compromises with an outgoing tyranny can one avoid cynicism and disappointment with democracy Zbigniew Brzezinski professor of American Foreign Policy at Johns Hopkins University has called Polish Transformation a work that provides a comprehensive as well as incisive overview of the extraordinary difficult and historically unprecedented process of transforming an increasingly corrupt and decayed totalitarian system into a modern democracy John Lenczowski director of the Institute of World Politics adds that this extremely useful volume explains the essential elements of the post communist political transition in Poland Its authors convey the cultural and ideological underpinnings that can be captured only by authorities who have developed over a lifetime that special sixth sense for detecting the elusive and unquantifiable soul of a country Radek Sikorski the executive director of the New Atlantic Initiative at the American Enterprise Institute writes that we should be grateful to the authors and editors of this thoughtful volume for asking questions which remain relevant for that uncomfortably large part of humanity that still lives under totalitarian or authoritarian regimes

The Elephant in the Room Eviatar Zerubavel, 2006-04 Citing the fable of the Emperor's New Clothes as a classic example of a situation where everyone refuses to acknowledge an obvious truth Zerubavel sheds new light on the social and political underpinnings of silence and denial the keeping of open secrets

Wingless Desire in Modernist Russia Yelena Zotova, 2020-12-10 In Wingless Desire in Modernist Russia Yelena Zotova argues that the concept of envy underwent a peculiar transformation in the Russian Modernist prose of the 1920s due to a series of radical shifts in societal values with each subsequent change thwarting Russia's volatile axiological hierarchy Industriousness and austerity inferior to playful genius in Pushkin's Mozart and Salieri became virtues while the intrinsic value of nonutilitarian art was officially nullified by the Bolshevik state Consequently a new literary type emerged and envy described as wingless desire by Russia's chief poet Alexander Pushkin obtained new ownership as the envied became the envier Superimposing twentieth century theories of envy onto Mikhail Bakhtin's Author and Hero in the Aesthetic Activity 1923 Zotova proposes that Salieri's envy could be the wingless embryo of the Bakhtinian authorship
