Imprint of Another Life Margaret Homans, 2013-07-18 **The Imprint of Another Life** Adoption Narratives and Human Possibility addresses a series of questions about common beliefs about adoption Underlying these beliefs is the assumption that human qualities are innate and intrinsic an assumption often held by adoptees and their families sometimes at great emotional cost This book explores representations of adoption transracial transnational and domestic same race adoption that reimagine human possibility by questioning this assumption and conceiving of alternatives Literary scholar Margaret Homans examines fiction making a special relationship to themes of adoption as if a form of family making fabricated or fictional instead of biological or real Adoption has tended to generate stories rather than uncover bedrock truths Adoptive families are made not born in the words of novelist Jeanette Winterson adopted children are self-invented because we have to be In attempting to recover their lost histories and identities adoptees create new stories about themselves While some believe that adoptees cannot be whole unless they reconnect with their origins others believe that privileging biology reaffirms hierarchies such as those of race that harm societies and individuals Adoption is lived and represented through an irresolvable tension between belief in the innate nature of human traits and belief in their constructedness contingency and changeability The book shows some of the ways in which literary creation and a concept of adoption as a form of creativity manages this tension The texts examined include fiction e g classic novels such as *Silas Marner* *What Maisie Knew* and *Beloved* memoirs by adoptees adoptive parents and birthmothers drama documentary films advice manuals social science writing and published interviews with adoptees parents and birth parents Along the way the book tracks the quests of adoptees who whether or not they meet their original families must construct their own stories rather than finding them follows transnational adoptees as they return hopes held high to Korea and China looks over the shoulders of a generation of girls adopted from China as they watch Disney's iconic *Mulan* with its alluring story of destiny written on the skin and listens to birthmothers as they struggle to tell painful secrets held for decades This book engages in debates within adoption studies women's and gender studies transnational studies and ethnic studies it will appeal to literary scholars and critics including

specialists in memoir or narrative theory and to general readers interested in adoption and in race Global Families
Catherine Ceniza Choy, 2013-10-11 In the last fifty years transnational adoption specifically the adoption of Asian children has exploded in popularity as an alternative path to family making Despite the cultural acceptance of this practice surprisingly little attention has been paid to the factors that allowed Asian international adoption to flourish In Global Families Catherine Ceniza Choy unearths the little known historical origins of Asian international adoption in the United States Beginning with the post World War II presence of the U S military in Asia she reveals how mixed race children born of Japanese Korean and Vietnamese women and U S servicemen comprised one of the earliest groups of adoptive children Based on extensive archival research Global Families moves beyond one dimensional portrayals of Asian international adoption as either a progressive form of U S multiculturalism or as an exploitative form of cultural and economic imperialism Rather Choy acknowledges the complexity of the phenomenon illuminating both its radical possibilities of a world united across national cultural and racial divides through family formation and its strong potential for reinforcing the very racial and cultural hierarchies it sought to challenge **International Korean Adoption** Kathleen Ja Sook Bergquist, M. McKee, 2019-03-02 Since the Korean War began Western families have

adopted more than 200 000 Korean children Two thirds of these adoptees found homes in the United States The majority joined white families and in the process forged a new kind of transnational and transracial kinship Kimberly D McKee examines the growth of the neocolonial multi million dollar global industry that shaped these families a system she identifies as the transnational adoption industrial complex As she shows an alliance of the South Korean welfare state orphanages adoption agencies and American immigration laws powered transnational adoption between the two countries Adoption became a tool to supplement an inadequate social safety net for South Korea s unwed mothers and low income families At the same time it commodified children building a market that allowed Americans to create families at the expense of loving biological ties between Koreans McKee also looks at how Christian Americanism South Korean welfare policy and other facets of adoption interact with and disrupt American perceptions of nation citizenship belonging family and ethnic identity
