Life itself has long gone unnoticed in Confucian texts since the Qin and Han dynasties which is similar to the forgetting of Being per se in the Western philosophy after the Axial Period according to Heidegger Today there is a philosophical mission to return life to Confucianism restoring and reconstructing Confucianism in the perspective of a comparison between Confucianism and Husserl's Phenomenology The author reduces the features of life to the essence of a thing but returns to life as the essence of Being The author rejects the idea of post philosophy in order to reconstruct the metaphysical and the post metaphysical gradations of Confucianism These gradations are made along three strata in the life of human beings no being of anything a life comprehension metaphysical thinghood the absolute Being and post metaphysical things the relative beings In this way we have a full understanding of the idea of Confucianism
