**New Essays on Life Writing and the Body** Christopher Stuart, Stephanie Todd, 2009-03-26 In light of materialist revisions of the Cartesian dual self and the increased recognition of memoir and autobiography as a crucial cultural index the physical body has emerged in the last twenty five years as an increasingly inescapable object of inquiry speculation and theory that intersects all of the various subgenres of life writing New Essays on Life Writing and the Body thus offers a timely original focused and yet appropriately interdisciplinary study of life writing This collection brings together new work by established authorities in autobiography such as Timothy Dow Adams G Thomas Couser Cynthia Huff and others along with essays by emerging scholars in the field Subjects range from new interpretations of well known autobiographies by Edith Wharton Gertrude Stein and Lucy Grealy as well as scholarly surveys of more recently defined subgenres such as the numerous New Woman autobiographies of the late 19th century adoption narratives and sibling memoirs of the mentally impaired Due to their wide interdisciplinary focus these essays will prove valuable not only to more traditional literary scholars interested in the classic literary autobiography but also to those in Women's Studies Ethnic and African American Studies as well as in emerging fields such as Disability Studies and Cognitive Studies

Beyond Words Kathlyn Conway, 2013-05-15 Kathlyn Conway opens primordial questions about the shattering events of illness through close readings of selected illness narratives proposing that only writing of a daring kind can utter the knowledge of the self telling body Wielding her ferocious intellect and braving exposure to self and other Conway makes original discoveries about writing and illness and more stunningly about writing and life Not a book about illness this is a book about writing and being It is taut brave unequalled in our scholarship and true Conway joins our most powerful investigators of the human predicament of mortality helping us to see helping us to live Rita Charon Columbia University Program in Narrative Medicine Published accounts of illness and disability often emphasize hope and positive thinking the woman who still looked beautiful after losing her hair the man who ran five miles a day during chemotherapy This acclaimed examination of the genre of the illness narrative questions that

upbeat approach Author Kathlyn Conway a three time cancer survivor and herself the author of an illness memoir believes that the triumphalist approach to writing about illness fails to do justice to the shattering experience of disease By wrestling with the challenge of writing about the reality of serious illness and injury she argues writers can offer a truer picture of the complex relationship between body and mind Reading and Writing Cancer: How Words Heal Susan Gubar,2016-05-17 An important addition to the literature of cancer by an award winning scholar and memoirist Elaborating upon her Living with Cancer column in the New York Times Susan Gubar helps patients caregivers and the specialists who seek to serve them In a book both enlightening and practical she describes how the activities of reading and writing can right some of cancer s wrongs To stimulate the writing process she proposes specific exercises prompts and models In discussions of the diary of Fanny Burney the stories of Leo Tolstoy and Alice Munro numerous memoirs novels paintings photographs and blogs Gubar shows how readers can learn from art that deepens our comprehension of what it means to live or die with the disease From a writer whose own memoir Memoir of a Debulked Woman Enduring Ovarian Cancer was described by the New York Times Book Review as moving and instructive and incredibly brave this volume opens a path to healing **The Ways of Fiction** Nicholas J. Crowe,2019-01-15 The essays gathered here capture fresh perspectives on the literary environments of the eighteenth century The core concern of this volume is culture the ways in which it shapes literature and is in turn influenced by it the ways of fiction Especially commissioned from experts in the field essays cover the whole of the century embracing such themes as class gender nationhood politics and identity Through scrutiny of familiar and less well known authors alike the collection forms a stimulating and provocative anthology It will naturally appeal to scholars and students of the novel as well as to historians of culture and all those concerned with eighteenth century studies A broader readership will also find much here to enhance their appreciation of fiction as a cultural artefact Responding to a growing fascination with this period in British history these essays open vital new perspectives on the novel at a key moment in its development

Mammographies Mary K. DeShazer,2018-05-09 Uncovers the lived experience of breast cancer through autobiographical and photographic narratives **The Language of Illness** Fergus Shanahan,2020-09-15 The practice of medicine has advanced dramatically in recent years but the language used to discuss illness by medical practitioners patients and carers has not kept pace As a result clinicians and just as importantly patients and their relatives and carers are not able to communicate clearly in relation to illness The upshot is misunderstanding and confusion on all sides In this ground breaking book Dr Fergus Shanahan an eminent gastroenterologist who has practised in Ireland the United States and Canada and published widely around the world looks at memoirs of illness and outlines the lessons we can learn from a better understanding of the words we use to describe illness He looks at the ways in which language can act as a barrier with regard to illness and proposes practical ways in which we can dismantle these barriers The book is written for the general reader as Dr Shanahan puts it himself he is enough of an expert to be wary of experts The Language of Illness part manifesto

part memoir and part instruction manual is an appeal for the use of clearer more holistic language by all those involved with and affected by illness Like the great American poet doctor William Carlos Williams he aims to help us develop a new language by means of which we can develop a new way of living with illness which is an integral part of the human condition Put simply it is a book for all those who care about caring **House Calls** Patch Adams,1998 A reminder that some of the most important factors in healing are not high tech marvels but ordinary factors such as love compassion friendship and hope

Denzin,2008-07-25 Emphasizes critical approaches to the study of race identity and self as well as developments in interactionist theory ethics and dramaturical studies *You Can Cope With Peripheral Neuropathy* Mims Cushing,Norman Latov,2009-03-19 Peripheral neuropathy is one of the most common diseases most people never heard of and yet upwards of 20 million Americans have it It is estimated that 60 to 70 percent of people with diabetes have mild to severe neuropathy That fact alone is staggering Other causes include vitamin deficiencies autoimmune diseases kidney liver or thyroid disorders cancer and a variety of other medical conditions According to the Neuropathy Association the extent and importance of peripheral neuropathy has not yet been adequately recognized The disease is apt to be misdiagnosed or thought to be merely a side effect of another disease However people from all walks of life live with this neurological illness that has been described by those who have it as a tingling or burning sensation in their limbs pins and needles and numbness *You Can Cope with Peripheral Neuropathy 365 Tips for Living a Full Life* was written by both a patient expert and doctor and is a welcome addition to the information on this subject It covers such diverse topics as What to ask at doctor appointments Making the house easier to navigate with neuropathy Where to find a support group Using vitamins and herbs for treatment Tips for traveling And much much more *You Can Cope With Peripheral Neuropathy* is a compendium of tips techniques and life task shortcuts that will help everyone who lives with this painful condition It will also serve as a useful resource for their families caregivers and health care providers [Performing Autobiography](#) Jenn Stephenson,2013-01-01 Investigates the use of plays as a form of autobiography looking at how the line between real life and fiction can become blurred **The Publishers Weekly** ,1996 **Recovering Bodies** G. Thomas Couser,1997-11-01 This is a provocative look at writing by and about people with illness or disability in particular HIV AIDS breast cancer deafness and paralysis who challenge the stigmas attached to their conditions by telling their lives in their own ways and on their own terms Discussing memoirs diaries collaborative narratives photo documentaries essays and other forms of life writing G Thomas Couser shows that these books are not primarily records of medical conditions they are a means for individuals to recover their bodies or those of loved ones from marginalization and impersonal medical discourse Responding to the recent growth of illness and disability narratives in the United States such works as Juliet Wittman s *Breast Cancer Journal* John Hockenberry s *Moving Violations* Paul Monette s *Borrowed Time An AIDS Memoir* and Lou Ann Walker s *A Loss for Words The Story of Deafness in a Family* Couser addresses questions of both poetics and politics He examines why and under what

circumstances individuals choose to write about illness or disability what role plot plays in such narratives how and whether closure is achieved who assumes the prerogative of narration which conditions are most often represented and which literary conventions lend themselves to representing particular conditions By tracing the development of new subgenres of personal narrative in our time this book explores how explicit consideration of illness and disability has enriched the repertoire of life writing In addition Couser's discussion of medical discourse joins the current debate about whether the biomedical model is entirely conducive to humane care for ill and disabled people With its sympathetic critique of the testimony of those most affected by these conditions *Recovering Bodies* contributes to an understanding of the relations among bodily dysfunction cultural conventions and identity in contemporary America

**Talking About Death** Virginia Morris, 2025-05-01 Even in this candidly confessional age we've been conditioned to avoid discussions of death Our youth worshipping culture does everything to deny death which is why when the end nears most of us are inadequately prepared to deal with it And the cost of that is great many are haunted by memories of how inappropriately or painfully or uncomfortably their parents and grandparents died Many of us avoid even considering the options in all their complexity that we will most likely face one day given our new longevity and the profound advances in medicine With its wise and very compelling argument that all of us at any age can and should face death before it faces us *Talking About Death* addresses the cultural personal medical and legal concerns that are necessary for us as individuals and as a society to prepare for a good death a death where the dying are in control and not as is too often the case caught in a downward spiral of medical intervention and misunderstood intentions Virginia Morris skillfully weaves together personal stories and practical matters scientific fact and spiritual sensitivity into an important book about how we can achieve a greater sense of peace in dying and rediscover the art of living

**Pink Ribbon Blues** Gayle A. Sulik, 2012-10-18 Explores the hidden costs of the pink ribbon as an industry and analyzes the social impact on women living with breast cancer the stereotypes and the stigmas
