The Geoengineered Transhuman Elana Freeland, 2025-02-25 Explores how chemicals and nanotechnology are being continuously delivered via chemtrail aerosols by jets drones and rockets in the guise of climate change Examines the public private partnerships behind transhumanism including Big Pharma GMO agribusiness DARPA IARPA corporations and foundations Reveals the reality of the secret space program SSP and the planetary smart grid of 5G 6G the Internet of Things IoT and artificial intelligence AI What if the degradation of the planet is not just a byproduct of human greed but the explicit intention of government agencies bought off by corporations What if their intent is to create a post human global government run by AI populated by a genetically and electromagnetically altered Homo sapiens loaded with nanotechnology and run by 5G 6G 7G transceivers from space Building on decades of research Elana Freeland offers a comprehensive expos of the transhumanist agenda the transformation of humanity into a slave class by means of biotechnology genetic engineering

molecular nanotechnology and artificial intelligence She reveals that weather control is already a global reality thanks to the aerosol chemtrails that maintain the ionized atmosphere needed for a myriad of military and civilian wireless operations The air we breathe the soil we grow our food in and the water we drink have all been altered away from Nature and toward a synthetic metaverse Meanwhile Big Pharma injects nano sized hardware and software in vivo that activate a transhumanist brain computer interface with AI The author also examines the public private partnerships behind transhumanism and reveals the reality of the secret space program and the planetary smart grid of 5G 6G The eons old dream of global power seems to be coming of age in this overwhelmingly technological era of domination by the wealthy And yet by exposing the transhumanist agenda and studying the technology being employed to subjugate the human race we have the opportunity to find ways not just to resist becoming machines ourselves but to utilize our technologies for restoring a high civilization in service to the Good the Beautiful and the True
