valuable not only for China's future development but also as an occasion of human experience Professor Holcombe has made an important contribution to our understanding of medieval China and his work should do much to encourage the study of this formative period of philosophy and history R R C de Crespigny Australian National University Historical scholarship on the Southern dynasties has long languished as a moribund offshoot of the study of Chinese poetry and religion In the Shadow of the Han approaches this challenging period with a much broader sensitivity to the elite culture of the time placing it within a clearly conceived socioeconomic and political context The intellectual puzzles of Neo Taoism and *hs an hs eh* have never been more lucidly grounded in a credible historical world This is a pioneering study that puts every student of early medieval China in Charles Holcombe's debt Dennis Grafflin Bates College
