Lost Universe:

The Lost Universe Gene Weltfish, 1977-01-01 A fascinating insight into the life and culture of the Pawnee people is achieved here by the author's presentation of carefully gathered information in the form of a narrative of one year in Pawnee village. The first few chapters lay the groundwork of kinship lines followed by a narration of the life of one person in the village. Customs, ceremonies, beliefs, and hard work become apparent as the author leads one through the intricacies of the activities. Although it presents a great deal of detailed anthropological material, the manner of presentation turns the book into a readable account. The book is based on years of first-hand study as well as scholarly research and is recommended as an in-depth study of Plains Indian life. Reprint Bulletin Book Reviews. Gene Weltfish is coauthor with Ruth Benedict of *The Races of Mankind*. She is also the author of *The Origins of Art* and other books. Stories of the Divine Aldivan Torres, 2025-08-07 Universe of psychic stories. A mixture of action, romance, fiction, and adventure. Stories for all tastes. Knowing appreciation is key to cultured man. Enter this wonderful universe. **The Universal Vampire** Barbara Brodman, James E. Doan, 2013-03-08 Since the publication of John Polidori's *The Vampyre* 1819, the vampire has been a mainstay of Western culture, appearing consistently in literature, art, music, notably opera, film, television, graphic novels, and popular culture in general. Even before its entrance into the realm of arts and letters in the early nineteenth century, the vampire was a feared creature of Eastern European folklore and legend, rising from the grave at night to consume its living loved ones and neighbors, often converting them at the same time into fellow vampires. A major question exists within vampire scholarship: to what extent is this creature a product of European cultural forms, or is the vampire indeed a universal, perhaps even archetypal figure? In this collection of sixteen original essays, the contributors shed light on this question. One essay traces the origins of the legend to the early medieval Norse draugr, an undead creature who reflects the underpinnings of *Dracula*, the latter first appearing as a vampire in Anglo-Irish Bram Stoker's 1897 novel *Dracula*. In addition to these investigations of the Western mythic literary and historic traditions, other essays in this volume move outside Europe to explore vampire figures in Native American and Mesoamerican myth and ritual, as well as the existence of similar vampiric traditions in Japanese, Russian, and Latin American art, theatre, literature, film, and other cultural productions. The female vampire looms large, beginning with the Sumerian goddess Lilith, including the nineteenth-century Carmilla, and moving to vampiresses in twentieth-century film, literature, and television series. Scientific explanations for vampires and werewolves constitute another section of the book, including eighteenth-century accounts of unearthing, decapitation, and cremation of suspected vampires in Eastern Europe. The vampire's beauty, attainment of immortality, and eternal youth are all suggested as reasons for its continued success in contemporary popular culture. **Marginality and 'Resistencia'** Miguel Rivas Venegas, Martina L. Weisz, 2024-12-30 This book promotes international and interdisciplinary reflections on narratives of exclusion, liminality, dissident power, and the forging of new identities during the last decades. Focusing on the rich case

studies presented by the Spanish speaking world and beyond it seeks to generate a deeper understanding of the mechanisms of othering and the strategies being developed by the traditionally suppressed voices of marginalized ethnic gender and mnemonic communities in order to be heard

Agency and Media Reception Susanne Eichner, 2014-01-21 What happens to our sense of agency our general ability to perform actions in our life worlds in the course of media reception and appropriation Whilst considering media communication as a special form of social action this work reconsiders the key concepts of social action theory pragmatism communication theory as well as film game and television theory It thus integrates agency as the key to understanding doing media and at the same time conceptualizes agency as a specific mode of involvement across media boundaries This approach amalgamates miscellaneous ideas and conceptions such as interactivity participation cognitive control play or empowerment and applies the theoretical considerations on the basis of textual analyses of the films Inception and The Proposal the TV shows Lost and I m a Celebrity and the video games Grand Theft Auto IV and The Walking Dead

Storyworlds Across Media Marie-Laure Ryan, Jan-Noël Thon, 2014-07-01 The proliferation of media and their ever increasing role in our daily life has produced a strong sense that understanding media everything from oral storytelling literary narrative newspapers and comics to radio film TV and video games is key to understanding the dynamics of culture and society Storyworlds across Media explores how media old and new give birth to various types of storyworlds and provide different ways of experiencing them inviting readers to join an ongoing theoretical conversation focused on the question how can narratology achieve media consciousness The first part of the volume critically assesses the cross and transmedial validity of narratological concepts such as storyworld narrator representation of subjectivity and fictionality The second part deals with issues of multimodality and intermediality across media The third part explores the relation between media convergence and transmedial storyworlds examining emergent forms of storytelling based on multiple media platforms Taken together these essays build the foundation for a media conscious narratology that acknowledges both similarities and differences in the

Wishart, 1995-06-01 Of all the interactions between American Indians and Euro Americans none was as fundamental as the

acquisition of the indigenous peoples' lands. To Euro Americans this takeover of lands was seen as a natural right, an evolution to a higher use. To American Indians the loss of homelands was a tragedy involving also a loss of subsistence, a loss of history and a loss of identity. Historical geographer David J. Wishart tells the story of the dispossession process as it affected the Nebraska Indians: Otoe, Missouria, Ponca, Omaha, and Pawnee over the course of the nineteenth century. Working from primary documents and including American Indian voices, Wishart analyzes the spatial and ecological repercussions of dispossession. Maps give the spatial context of dispossession, showing how Indian societies were restricted to ever smaller territories where American policies of social control were applied with increasing intensity. Graphs of population loss serve as reference lines for the narrative charting the declining standards of living over the century of dispossession. Care is taken to support conclusions with empirical evidence, including for example specific details of how much the Indians were paid for their lands. The story is told in a language that is free from jargon and is accessible to a general audience.

Monsters of Contact Mark van de Logt, 2018-06-21 A murderous whirlwind, an evil child, an abducting witch, a woman, a masked cannibal, terrifying scalped men, a mysterious man, slaying flint, a creature, the oral tradition of the Caddoan Indians is alive with monsters. Whereas Western historical methods and interpretations relegate such beings to the realms of myth and fantasy, Mark van de Logt argues in *Monsters of Contact* that creatures found in the stories of the Caddos, Wichitas, Pawnees, and Arikaras actually embody specific historical events and the negative effects of European contact: invasion, war, death, disease, enslavement, starvation, and colonialism. Van de Logt examines specific sites of historical interaction between American Indians and Europeans: from the outbreaks and effect of smallpox epidemics on the Arikaras to the violence and enslavement Caddos faced at the hands of Hernando de Soto's expedition and Wichita encounters with Spanish missionaries and French traders in Texas. In each case, he explains how, through Indian metaphor, seemingly unrelated stories of supernatural beings and occurrences translate into real people and events that figure

prominently in western U S history The result is a peeling away of layers of cultural values that for those invested in Western historical traditions otherwise obscure the meaning of such tales and their monsters Although Western historical methods have become the standard in much of the world van de Logt demonstrates that indigenous forms of history are no less valuable and that oral traditions and myths can be useful sources of historical information A daring interpretation of Caddoan lore *Monsters of Contact* puts oral traditions at the center of historical inquiry and in so doing asks us to reconsider what makes a monster

The Dust Rose Like Smoke James O. Gump, 2016 In 1876 Lakota and Cheyenne warriors annihilated Custer's Seventh Cavalry at Little Bighorn Three years later and half a world away a British force was wiped out by Zulu warriors at Isandhlwana in South Africa In both cases the total defeat of regular army troops by forces regarded as undisciplined barbarian tribesmen stunned an imperial nation Although the similarities between the two frontier encounters have long been noted James O Gump's book *The Dust Rose Like Smoke* is the first to scrutinize them in a comparative context This study issues a challenge to American exceptionalism he writes Viewing both episodes as part of a global pattern of intensified conflict in the latter 1800s resulting from Western domination over a vast portion of the globe Gump's comparative study persuasively traces the origins and aftermath of both episodes He examines the complicated ways in which Lakota and Zulu leadership sought to protect indigenous interests while Western leadership calculated their subjugation to imperial authority The second edition includes a new preface from the author revised and expanded chapters and an interview with Leonard Little Finger great great grandson of Ghost Dance leader Big Foot whose story connects Wounded Knee and Nelson Mandela

Captives and Cousins James F. Brooks, 2011-04-25 This sweeping richly evocative study examines the origins and legacies of a flourishing captive exchange economy within and among native American and Euramerican communities throughout the Southwest Borderlands from the Spanish colonial era to the end of the nineteenth century Indigenous and colonial traditions of capture servitude and kinship met and meshed in the borderlands forming a slave system in which victims symbolized social wealth performed services for their masters and produced material goods under the threat of violence Slave and livestock raiding and trading among Apaches Comanches Kiowas Navajos Utes and Spaniards provided labor resources redistributed wealth and fostered kin connections that integrated disparate and antagonistic groups even as these practices renewed cycles of violence and warfare Always attentive to the corrosive effects of the slave trade on Indian and colonial societies the book also explores slavery's centrality in intercultural trade alliances and communities of interest among groups often antagonistic to Spanish Mexican and American modernizing strategies The extension of the moral and military campaigns of the American Civil War to the Southwest in a regional war against slavery brought differing forms of social stability but cost local communities much of their economic vitality and cultural flexibility
