Poku, 2017-07-05 Sub Saharan Africa is a region devastated by HIV AIDS The extent of the epidemic is only now becoming clear as increasing numbers of people with HIV are becoming ill In the absence of massively expanded prevention treatment and care efforts the AIDS death toll on the continent is set to escalate rapidly Despite progress being achieved in localized settings the alarming statistics reflect the continuing failure of advanced countries to mount a response that matches the scale and severity of the African HIV AIDS crisis Over and above the colossal personal suffering the dire social and economic consequences for fragile nation states are already being felt not only in health but in education industry agriculture transport human resources and economies in general Countries already crippled by drought poverty debt forced migration and civil war must now contend with massive deterioration in child survival rates and life expectancy the erosion of the economic family base massive and insupportable demands on health and public services chronic labour shortages and volatile national security Through a critical and detailed exploration of specific case studies this invaluable volume brings together an unparalleled array of international contributors to redefine the political and

economic contours of this calamitous epidemic It examines the impact of the shortfalls in the Global Fund allocation the slow pace of administrative processing of aid and the weaknesses of institutional responses to the crisis from African countries and their partners in the global health community It is essential reading for all concerned with public health epidemiology HIV AIDS research globalization development Africa and indeed our shared future Features include Unique assessments of HIV AIDS and its impact on democracy and governance in African states Wide ranging regional and country studies by the foremost thinkers in their fields Multi disciplinary contributions from areas including Politics Sociology Public Health and Development Studies Compelling and convincing evidence thematic in approach Innovative and culturally specific insights for long term planning care and support

AIDS in Africa Nana Poku,2005 Across Africa HIV AIDS is slowly killing millions of people in the prime of their lives weakening state structures deepening poverty and reversing the gains in life expectancy achieved over the past century Although many who study the dynamics of Africas AIDS crisis accept that to some degree its entrenchment is a socially produced phenomenon few have examined how the course and intensity of the epidemic have been affected by the continents ubiquitous poverty the impact of the pervasive structural adjustment programmes or Africas marginalization in the process of globalization until now This book explores the socio economic context of Africas vulnerability to HIV AIDS as well as assessing the politics of domestic and global response Using primary and secondary data it charts the power relations driving Africas HIV AIDS epidemic frustrating the possibility of alleviation and recovery as well as working to relegate the continent to a bleak and vulnerable future In this sense the book marks a radical departure by providing a comprehensive analysis of Africas vulnerability to AIDS and the challenges confronting policy makers as they seek to reverse its escalating prevalence on the continent AIDS in Africa is an immensely valuable introduction to the greatest pandemic facing the world today

Vaccination Erik Richardson,2017-07-15 Contemporary vaccination is rooted in centuries of scientific discovery Some scholars believe that as far back as 1000 CE Chinese Taoists used variolation or inoculation to control the spread of disease In 1796 Edward Jenner developed a smallpox vaccine that ranks as one of the most important scientific breakthroughs of all time This book explains how Jenner made his discovery based on the achievements of those who came before him how vaccination works and the many ways that vaccines continue to shape science and generate controversy today
