Common Good and Self-Interest in Medieval and Early Modern Philosophy Heikki Haara, Juhana Toivanen, 2024-04-03 This open access volume provides an in depth analysis of philosophical discussions concerning the common good and its relation to self interest in the history of Western philosophy The thirteen chapters explore both renowned and lesser known thinkers from the Middle Ages to the eighteenth century covering also the relevant ancient background By bridging the gap between the medieval and early modern periods they provide fresh insights into how moral and political philosophers understood the concepts of the common good and self interest along with their ethical and political implications The concept of the common good occupies a central role in philosophical reflections on the public and private dimensions of moral and social life in contemporary debates By exploring the rich and diverse ways in which the relationship between the common good and self interest has been understood this volume has the potential to contribute to our ongoing efforts to critically discern the possibilities and limitations of these concepts in the present Thus the volume will be useful for scholars interested in the multi layered role of the notion of the common good both in the history of philosophy and in contemporary moral and political philosophy

Virtue and Grace in the Theology of Thomas Aquinas Justin M. Anderson, 2020-07-30 Throughout his writings Thomas Aquinas exhibited a remarkable stability of thought However in some areas such as his theology of grace his thought underwent titanic developments In this book Justin M Anderson traces both those developments in grace and their causes After introducing the various meanings of virtue Aquinas utilized including virtue in its fullest sense and various forms of qualified virtue he explores the historical context that conditioned that account Through a close analysis of his writings Anderson unearths Aquinas s own discoveries and analyses that would propel his understanding of human experience divine action and supernatural grace in new directions In the end we discover an account of virtue that is inextricably linked to his developed understanding of sin grace and divine action in human life As such Anderson challenges the received understanding of Aquinas s account of virtue as well as his relationship to contemporary virtue ethics

Charity as Divine and Human Friendship Rev. Fr. Matthew Kauth, 2012

Aquinas on Imitation of Nature Wojciech Golubiewski, 2022-01-07 Aquinas on Imitation of Nature highlights and explores the doctrine of the imitation of nature a crucial aspect of Aquinas metaethics and fills the gap in research on Aquinas moral doctrine and theory of action It conveys Aquinas doctrine of the imitation of nature as a natural feature of right practical reason regarding moral thinking and action indeed as an indispensable feature of virtuous flourishing in individual and communal aspects of human life The book starts with an overview of some of recent interpretations of Aquinas moral doctrine and natural law introducing the need to explore the role of the imitation of nature in human practical reasoning and action in this area of Aquinas teaching The chapters that

follow are based on a careful reading of selected texts of Aquinas and gradually develop a thorough and comprehensive picture of his doctrine of the imitation of nature as a source of practical principles The final chapter provides various examples of how Aquinas understands the imitation of nature in the realm of moral reasoning and action The originality of this volume comes from its account of Aquinas medieval doctrine of the imitation of nature in light of which the principles of right practical reason and virtuous action are congruent with and epistemologically dependant upon the basic terms of the movements of natural sensible non rational agents Through its thorough reading of Aquinas on the imitation of nature the book aims to open new ways of appropriation of the metaphysical and natural tenets of his moral doctrine in the areas of theory of action practical reason natural law and contemporary virtue ethics

Aquinas, Natural Law, and Social Ontology

Ana Marta González,2025-07-22 This volume explores the connections between Thomas Aquinas doctrine of natural law and contemporary social thought It aims to make explicit the basic notions of Thomas Aquinas social ontology and to show how key concepts from sociology economics and political science relate to his ethics and social thought Social ontology is a growing area of contemporary social theory Scholars in this area reflect on the ontological status of society and the various realities that make up the social realm However Aquinas scholars rarely use the term social ontology instead resorting to his natural law to examine social life This volume argues that the social thought of Thomas Aquinas including his natural law theory implies a social ontology Aquinas adopts a clear position on the ontological uniqueness of human beings the intentional structure of human action and the existence of informal social relations and institutional realities that shape human society This volume shows how these views can be reconstructed into a coherent social ontology Its chapters are divided into five thematic parts Part 1 offers conceptual elements to bridge the gap between Aquinas and contemporary social theory Part 2 considers the metaphysics and theology implicit in Aquinas social ontology Part 3 focuses on the way this ontology is at work in his account of the common good and

his approach to natural law Part 4 expands this reflection to economics Finally Part 5 addresses legal and political issues such as political polarization family law and the ethics of war Aquinas Natural Law and Social Ontology will appeal to scholars and graduate students interested in the thought of Thomas Aquinas social and political philosophy contemporary social theory Catholic theology and the social sciences

On Love Hugh Feiss,2012 The version of the Rule of St Augustine used at the Abbey of St Victor began with the command to love God above all things and ones neighbor as oneself Not surprisingly then love was a pervasive theme in the writings produced there many of which are introduced and translated here 1 five lyrical essays by Hugh of St Victor d 1141 The Praise of Charity The Betrothal Gift of the Soul In Praise of the Spouse On the Substance of Love What Truly Should Be Loved 2 On the Four Degrees of Violent Love by Richard of St Victor d 1173 which traces the likenesses and differences between romantic love and the love of God 3 Achard of St Victor d 1170 Sermon5 and two of Adam of St Victor's sequences are examples of how these authors wove love into their writings 4 excerpts from the Microcosmus by Godfrey of St Victor d ca 1195 summarize the central place of love in his humanistic theological anthropology

Recognition and Religion Risto Saarinen,2016 *Recognition and Religion* A Historical and Systematic Study outlines the first intellectual history of religious recognition stretching from the New Testament to present day Risto Saarinen connects the history of religion with philosophical approaches arguing that philosophers owe a considerable historical and conceptual debt to the religious processes of recognition At the same time religious recognition has a distinctive profile that differs from philosophy in some important respects Saarinen undertakes a systematic elaboration of the insights provided by the tradition of religious recognition He proposes that theology and philosophy can make creative use of the long history of religious recognition

Wendell Berry and Religion Joel James Shuman,L. Roger Owens,2009-11-09 Farmer poet essayist and environmental writer Wendell Berry is acclaimed for his ideas regarding the values inherent in an agricultural society Place community good work and simple pleasures are but a few of the values that form the bedrock of Berry's thought While the notion of reverence is central to Berry he is not widely known as a religious writer However the moral underpinnings of his work are rooted in Christian tradition articulating the tenet that faith and stewardship of the land are not mutually exclusive In *Wendell Berry and Religion* editors Joel J Shuman and L Roger Owens probe the moral and spiritual implications of Berry's work Chief among them are the notions that the earth is God's provisional gift to mankind and that studying how we engage material creation reflects important truths This collection reveals deep thoughtful and provocative conversations within Berry's writings illuminating the theological inspirations inherent in his work

Christopher J. Malloy, 2019-10-29 Christopher J Malloy's *Aquinas on Beatific Charity and the Problem of Love* examines the relationship between the desire for happiness and the love of another chiefly the love of God for His own sake Great thinkers judge the matters connected with this problem differently Aristotle and others contend that the desire for happiness grounds ethical activity Others contend that a pure love of God or of the other is not founded on desire for happiness The former charge the latter with leaving love groundless and the latter charge the former with reducing love to egoism Aquinas's appreciation of the Aristotelian tradition is forefront in his classic treatment of human action which begins with the desire for happiness Accordingly many readers proponents and critics read Aquinas as simply eudaimonistic There are however other principles at work in his thought these suggest a simple but profound difficulty in his thought one reflective of the subtlety of real life Are the two sets of principles contradictory Juxtaposed Considering beatific charity as the ultimate lens for this problem Malloy proposes that Aquinas's texts and principles are hierarchically harmonious while developmentally complex They indicate that love of happiness has a foundational role in human action and that love of God for His own sake has priority in the order of finality This ordered balance depends upon a conception of the common good in accord with a metaphysics of participation as having existence and formal perfection from and in likeness to the One Who Is created persons incline to love God more than and more intensely than themselves Thus love of the Divine Other while indeed the supreme love especially as deified through charity does not demand disinterested love God truly is man's good His true lover longs to be with Him
