Many Tongues One People The Making Of Tharu Identity In Nepal:

Many Tongues, One People Arjun Guneratne, 2018-08-06 The Tharu of lowland Nepal are a group of culturally and linguistically diverse people who only a few generations ago would not have acknowledged each other as belonging to the same ethnic group Today the Tharu are actively redefining themselves as a single ethnic group in Nepal's multiethnic polity In Many Tongues One People Arjun Guneratne argues that shared cultural symbols including religion language and common myths of descent are not a necessary condition for the existence of a shared sense of peoplehood The many diverse and distinct socio cultural groups sharing the name Tharu have been brought together Guneratne asserts by a common relationship to the state and a shared experience of dispossession and exploitation that transcends their cultural differences Tharu identity the author shows has developed in opposition to the activities of a modernizing centralizing state and through interaction with other ethnic groups that have immigrated to the Tarai region where the Tharu live This book's claims have wide implications for the study of ethnic identity and are applicable far beyond Nepal The emergence of the category of Native American for example may be considered an analogous case because that ethnic identity like the Tharu subsumes people of different cultural origin and has been defined both through the state and against it

about the notion of planning when applied to family formation arguing that reproduction is better understood as a set of local and global ideals that involve actors with desires and actions with constraints wrought with delays stalling and improvisation
