Maps of Consciousness Ralph Metzner, 1974 **Maps of Consciousness** Ralph Metzner, 2023-09-19 A classic guide to expanding perception and consciousness development Explores six ancient yet timeless systems for exploring the mind the I Ching Tantra Tarot astrology alchemy and the yoga philosophy of Actualism Shares exercises from each system and illuminates the key stages in the journey of consciousness development Shows how each of these disciplines can help you become a fully aware and conscious participant in your own spiritual evolution In this highly acclaimed classic psychedelic elder Ralph Metzner presents a guide to six ancient systems once known only to the initiated few to expand awareness and free your consciousness from exterior limitations and cultural conditioning Metzner begins with the I Ching revered by the Chinese as the oldest and wisest book in the world He explains how it reveals change as the evolutionary constant and offers a hands on method of divination and guidance He explores the Hindu and Buddhist Tantras of medieval India ancient practices celebrating the union of male and female energies that transmute ordinary sense experience into ecstatic ritual worship He examines the Tarot revealing how the cards act as culture transcending mirrors bringing us through worlds of darkness and light in a complex journey He looks at the practice of alchemy explaining how it is a psychic chemistry of inner union through which we can transform planetary and cosmic energies He explores the esoteric aspects of astrology revealing the rhythmic cycles of the planets and how their phases may be experienced in terms of motion and emotion He then examines in depth the yoga philosophy of Actualism centered on the techniques of Agni Yoga which allow you to use your living inner fire to illuminate the shadow parts of consciousness and burn out that which obstructs the free flow of energy With a new foreword by UC Berkeley professor of neurobiology David E Presti and featuring all of the original diagrams this edition of Metzner s classic text shows how each of these disciplines can help the modern individual become a fully aware and conscious participant in their own spiritual evolution **Psychedelic Mysticism** Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s **Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America** traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by

fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world *The Missing Witches Deck of Oracles* Risa Dickens, 2024 *Tarot and Other Meditation Decks* Emily E. Auger, 2023-03-10 Arthur E Waite and artist Pamela Colman Smith's Rider Waite Tarot 1909 is the most popular Tarot in the world Today it is affectionately referred to as the Rider Waite Smith Tarot in recognition of the high quality of Smith's contributions Waite and Smith's deck has become the gold standard for identifying and analyzing contemporary Tarot and other meditation decks based on archetypes Developments in both visual and literary history and theory have influenced Tarot since its fifteenth century invention as a game and subsequent adaptations for esotericism cartomancy and meditation This analysis considers Tarot in relation to established modern and postmodern art movements such as Symbolism Surrealism and Pattern and Decoration Art as well as the concepts and theories informing both the dominance and the dissolution of the modernist grid and hierarchical priorities This work also explores the close connection between Tarot and the invention of the literary novel and includes new material on the representation of Tarot in film and fiction A new chapter addresses the growing influence of the archetypal shadow and shadow work on Tarot as an artistic form narrative genre and practice in the new millennium

Metaphors of Consciousness Ronald S. Valle, Rolf von Eckartsberg, 2012-12-06 As we move into the 1980s there is an increasing awareness that our civilization is going through a profound cultural transformation At the heart of this transformation lies what is often called a paradigm shift a dramatic change in the thoughts perceptions and values which form a particular vision of reality The paradigm that is now shifting comprises a large number of ideas and values that have dominated our society for several hundred years values that have been associated with various streams of Western culture among them the Scientific Revolution of the seventeenth century The Enlightenment and the Industrial Revolution They include the belief in the scientific method as the only valid approach to knowledge the split between mind and matter the view of nature as a mechanical system the view of life in society as a competitive struggle for survival and the belief in unlimited material progress to be achieved through economic and technological growth All these ideas and values are now

found to be severely limited and in need of radical revision **I Ching** Edward Hacker, Steve Moore, 2023-05-31 With over one thousand entries covering a diverse range of sources including books articles unpublished dissertations taped lectures devices and software this is the most comprehensive annotated bibliography of English works on the I Ching This book will be indispensable for all scholars of the I Ching and an invaluable resource for those interested in this classic Chinese book Follow this link www.zhouyi.com to editor Lorraine Patsco's massive I Ching web bibliography featuring over 2500 I Ching related websites

Don Juan, Mescalito and Modern Magic Nevill Drury,2023-07-28 First published in 1978 Don Juan Mescalito and Modern Magic begins with an analysis of the Castaneda material from the viewpoint of its inherently magical content The author examines the symbiotic gestures the magical actions and the mind altering techniques employed by the brujo Don Juan and then goes on to draw comparisons with two other schools of thought the psychedelic development of the 1960s and the Western Magical Tradition The essential aim throughout is to show that there is a basically Western shamanism which uses Western symbols and is easily accessible The shamanistic practices of the Hermetic Order of the Golden Dawn are examined in this context Considerable emphasis is also placed on mythological aspects associated with out of the body experiences and their relevance to both the Don Juan Mescalito imagery and the Qabalistic and Tarot symbols found in Western Magic This book will be of interest to students of religion history and literature
