**Hello Girls & Boys!**  
 David Veart, 2014-01-10. A seriously fun New Zealand toy story. Toys are made for playing with, but they are also serious business. As this remarkable story of New Zealanders and their toys makes clear, in *Hello Girls and Boys*, David Veart digs through a few centuries of pocket knives and plasticine to take us deep into the childhoods of Aotearoa: under the eye of mum, or running wild at the end of the orchard with a doll in the hand or an arrow in the ear, hula hooping or assembling kits. Veart tells a big story of how our two peoples made their fun on the far side of the ocean. Maori and Pakeha learned knucklebones from each other; young Aucklanders established the largest Meccano club in the world; and Fun Ho and Torro Lincoln and Luvme helped to build a successful local toy industry under the shade of import protection. But the book also covers little things and little people: homemade dolls and cereal toys, miniatures and marbles. From double happys and golliwogs to Buzzy Bees, tin canoes, Meccano, and Tonka trucks, *Hello Boys and Girls* revisits the crazes and collecting playtimes and preoccupations of big and little New Zealand kids for generations.

**Kids' Stuff**  
 Gary Cross, 1999-11-15. To sort out who's who and what's what in the enchanting, vexing world of Barbies, R and Ninja Turtles, R Tinkertoys, R and teddy bears is to begin to see what's become of childhood in America. It is this changing world and what it unveils about our values that Gary Cross explores in *Kids' Stuff*: a revealing look into the meaning of American toys through this century. Early in the 1900s, toys reflected parents' ideas about children and their futures. Erector sets introduced boys to a realm of business and technology, while baby dolls anticipated motherhood and building blocks honed the fine motor skills of the youngest children. *Kids' Stuff* chronicles the transformation that occurred as the interests and intentions of parents, children, and the toy industry gradually diverged, starting in the 1930s when toymakers, marketing playthings inspired by popular favorites like Shirley Temple and Buck Rogers, began to appeal directly to the young. TV advertising blockbuster films like *Star Wars*, R and Saturday morning cartoons exploited their youthful audience in new and audacious ways. Meanwhile, powerful social and economic forces were transforming the nature of play in American society. Cross offers a richly textured account of a culture in which Erector sets and baby dolls are no longer alone in preparing children for the future, and in which the toys that now crowd the racks are as perplexing for parents as they are beguiling for little boys and

girls Whether we want our children to be high achievers in a competitive world or playful and free from the worries of adult life the toy store confronts us with many choices What does the endless array of action figures and fashion dolls mean Are children or parents the dupes of the film television and toy industries with their latest fads and fantasies What does this say about our time and what does it bode for our future Tapping a vein of rich cultural history Kids Stuff exposes the serious business behind a century of playthings
